CORRESPONDENCE

All inquiries should be addressed to the president of the college.

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in the schools.

Former students who wish teaching positions may register their names with the president of the college.

Bulletins published by the college are sent upon request.

EDUCATION has been an important factor in the increase of wealth and in its more equitable distribution. Education has expanded the boundaries of human freedom. Education has extended the **rule of reason and restricted the rule of superstition.**

These achievements are all to the credit of the schools; but the schools cannot stop with these. If education would increase wealth, it must provide safeguards against the moral hazards that increased wealth brings. If education would enthrone freedom and reason and dethrone authority and superstition, it must provide effective substitutes for those controls of conduct that authority and superstition once supplied.

PART I
GENERAL INFORMATION

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickle Plate railroads and is connected with the Illinois Central Railroad at Mattoon by an interurban railway.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were seventeen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1925, ninety-one students were graduated from the Junior College and ten from the Senior College.

During the summer of 1901, a special term of six weeks was established for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer term. A mid-spring term of six weeks has been offered since 1922.

"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

In 1907, the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in

Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

As the institution increased in numbers its facilities gradually became too restricted, and in 1911 the state legislature appropriated seventy-five thousand dollars for a training school building. The training school now enjoys all the advantages of a building designed and equipped for its special use, and the college has opportunity for a more economical organization and an increase of its facilities.

In 1907, the power of conferring degrees was granted to the institution by the state legislature. Courses leading to degrees were announced in 1920.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds were laid out by one of the most skillful landscape gardeners in the country, and they are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, and many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoological studies. In the adjoining athletic field, one of the best among those of the secondary colleges and normal schools of the state, are the baseball diamond, the football field and the quarter-mile cinder track.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are general classrooms, offices, the library, the assembly room, the music and art rooms, and some of the laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed in 1913 at a cost of \$75,000. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains classrooms and laboratories for home economics and manual arts.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. Nearly all the rooms in the building were taken from the first and the demand for rooms now exceeds its capacity. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.00 a week. For table board, \$5.00 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. This deposit is credited to the student, but forfeited if the student cancels the reservation too late to have it used by someone else.

MANUAL ARTS BUILDING.—For work in manual training and mechanical drawing, there is a well-equipped building at a convenient distance from the main building. The bench room has twenty work benches. The machine room contains a universal saw, a band saw, lathes, a jointer, a tool grinder, and other equipment.

LIBRARY.—The library now contains about 30,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of over one hundred fifty-five periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room, to which all students of the Teachers College, and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three trained librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculums as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves, moreover, as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake, and a forest plantation of six thousand trees, all of which are within five minutes' walk of the biological laboratories.

LABORATORIES.—The department of botany is well equipped for laboratory study. There are facilities for learning the technique of microscopic preparation, plant physiology and pathology. The materials include microscopes, an herbarium, representations of plant structures and of groups of the plants, many microscopic slides, and a large collection of Illinois algae. There are display cases and a lantern for different forms of projection.

The zoology and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The physics and chemistry laboratories are large and well equipped with apparatus for demonstration and for individual use. Most of the apparatus for students' use is in duplicate so that all of the members of a section can work at the same problem at the same time.

The agriculture laboratory is supplied with tables, a complete set of apparatus for testing milk and its products, and apparatus for soil studies.

FEES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a term.

A fee of \$5.00 a term for registration and other incidentals is paid by all above the eighth year.

Textbooks are rented to students at a uniform price of \$1.50 a term. Students wishing to own the books may buy them at the textbook library.

A student activity fee of \$2.25 a term, covering athletics, recreation, and *The Teachers College News*, is paid by all above the eighth year.

A fee of \$5.00 a term is paid for piano and voice lessons and students pay for materials they use in art, home economics, and manual arts.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration; and an additional fee of \$1.00, if a change in programme is made after the third day of the term.

The original transcript of a student's record, including one carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

BOARD AND ROOM

Board and room can be obtained in private families for from \$6.00 to \$7.00 a week. Students renting rooms and keeping house can materially reduce this amount. Room without board can be obtained for from \$1.50 to \$2.00 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.00 a week. For table board, \$5.00 a week is charged. Students are not required to furnish anything.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano and voice lessons.

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards annually four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award will be paid on November 1, 1926, and the remainder on January 1, 1927. The Association has taken this action with a view to influencing well-qualified high school graduates to come here for

teacher training. The receivers of the award will be members of the freshman class, 1926-1927.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded to a student whose gifts and attainments promise distinction in the teaching of English. The award for 1926-1927 goes to Ella Margaret Coon.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. This plan has been tried and students have found such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of course and single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Devereux Players, Tony Sarg's Marionettes.

The college has a complete motion picture equipment, which enables the entertainment course to show good motion pictures as a part of the season's programme.

The entertainment course for 1925-1926 was as follows:

November 19—Ronny Johansson, dancer.

December 2—Jean Gros' French Marionettes in Victor Herbert's light opera, "Babes in Toyland."

January 14—Francis Macmillen, American violinist.

March 18—Carveth Wells, lecturer and entertainer.

March 23—St. Louis Symphony Orchestra.

April 30—Elsa Diemer, soprano.

May 6—Motion Picture—"Beau Brummel."

May 20—Motion Picture—"The Iron Horse."

DRAMATICS.—In the fall of 1925 a Director of Dramatics was appointed to supervise all dramatic work for public presentation by the school. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The major production of the year for each is the commencement play. Other programmes are presented during the year if suitable talent is available. In the college year 1925-26, a Christmas Festival in which members of every division of the institution took part, two bills of one-act plays, presented by *The Players*, the college dramatic club, and the commencement plays were given. The ends in view under the new plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.

2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.

3. To encourage familiar acquaintance with the artists of the theatre of all times.

4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—A four-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Mondays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left as a class memorial equipment for a room devoted to the uses of "The News" and the "Warbler." At present a temporary room on the third floor is being used, but when the College has a larger manual arts building these publications hope to have a room adjoining the printing department.

RECREATION.—A committee consisting of five members of the faculty and a student from each Teachers College class has charge of student recreations which are not solely class affairs. The latter are

under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

TRACK AND FIELD MEET.—The seventeenth annual track and field meet was held on Schahrer Field, May 1, 1926. There were twenty-five schools with two hundred sixty-five contestants entered. The meet was won by Hillsboro High School with forty-seven points. Chrisman was second. Hillsboro also won the relay race. Paris of Hillsboro was the individual winner with fifteen points. Friessel of Hillsboro broke the track record in the high jump.

This meet is conducted by the Athletic Association of the Teachers College. Beautiful medals of gold, silver, and bronze are given as prizes in each event. A plaque is given to the school winning the meet and also to the school which is second. A suitable trophy is given to the school winning the relay race.

INTERSCHOLASTIC ORATORICAL CONTEST.—The oratorical contest is held in connection with the Track and Field Meet. It has three divisions: (1) speeches and orations, (2) dramatic selections, (3) humorous selections. Each high school is entitled to one entry in each division. Two prizes are given in each division, a gold medal for first place and a silver medal for second place.

The winners in the 1926 contest were as follows:

Division of speeches.—Nathalie Jenks, Paris, first; Marvin Thompson, Granite City, second.

Division of dramatic selections.—Naomi Wingfield, Allerton, first; Cora Fredericks, Rankin, second.

Division of humorous selections.—Edna Lindsay, Granite City, first; Esther Ewald, Arcola, second.

MUSIC FESTIVAL.—The seventh annual music festival was held on April 27-30, 1926, under the direction of Mr. Friederich Koch and Miss Major. The programme consisted of the following concerts:

I.—April 27, Concert by the College Girls' Glee Club, under the direction of Mr. Koch.

II.—April 28, Concert by a chorus of five hundred grade children of the city, under the direction of Miss Major and Miss Cheney.

III.—April 29, Concert by the College Chorus, assisted by the orchestra and glee clubs, under the direction of Miss Major.

IV.—April 30, Recital by Elsa Diemer; accompanist, Mr. Koch.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee of one dollar is charged each student as part of the students' activities fee. This fee is payable at the beginning of each term. It entitles the student to free admission to all

athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The teachers of the Teachers College encourage the students to form and sustain intimate relations with the churches.

THE CHRISTIAN ASSOCIATIONS.—The Young Men's and the Young Women's Christian Associations have organizations here in flourishing condition. Committees from the associations meet new students at trains and assist them in finding boarding places. Social gatherings under the auspices of the associations are held during the year.

THE STUDENT COUNCIL.—The Student Council was organized in the spring of 1920 as a means of communication between the faculty and students, and as a permanent organization through which the students might express their point of view on college affairs.

The Council now consists of eleven members: One from each class of the High School, four from the Junior College, and two from the Senior College. The editor of the "Teachers College News" has a seat in the Council but has not the right to vote. The term of office is one year. Elections take place each term, being so arranged that there is a majority of old members after each election. The constitution provides for a president and any other officer that the Council finds necessary.

The constitution is worded in such a way that the Council may take an increasing part in the control of student affairs.

THE STUDENT BOARD OF CONTROL.—The Student Board of Control was established in the spring term, 1926, by a majority vote of the four college classes for the purpose of maintaining a high standard of student conduct. The Board consists of sixteen members, four from each class, elected for one year by a majority vote of the respective classes. The election held on Wednesday of the fourth week of the fall term.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way. Former students or teachers, living in or near Chicago, are invited to attend these meetings if they send their names to the secretary.

The officers of the Charleston Club of Chicago are:

Mr. Trevor K. Serviss, '21, President.

Miss Zola Katherine McMunn, '24, Secretary.

Miss Alma E. Diemer, '19, Treasurer.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement week is Alumni Day. Returning graduates attend morning exercises at nine o'clock and the alumni dinner in the evening. It is customary to have in the afternoon a ball game between members of the regular team and players on former teams.

The officers of the association are:

Mr. Alonzo F. Goldsmith, '13 and '24, President.

Mrs. Lida A Hostetler Shriver, '09, Vice-President.

Miss Esther McCrory, '10, Secretary and Treasurer.

Executive Committee

Mr. Max G. Carman, '20.

Miss Mary A. Dwyer, '15.

Mr. Otto I. Schmaelzle, '17.

Miss Leah T. Todd, '16.

Mr. Charles W. Baker, '17.

Standing Committee for Advancing the Interests of the College

Mr. Otto I. Schmaelzle, '17 (term expires in 1927)

Mr. Howard D. Allison, '21 (term expires in 1928)

Miss Florence Sutton, '21 and '23 (term expires in 1929)

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions, the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their present location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

By the Illinois certificating law, in force July 1, 1914, and amended in 1919, certificates may be issued to those who have done a required amount of work in a recognized normal school or its equivalent.

A provisional certificate valid for one year may be issued without limitation to persons who have completed two years of work in a recognized normal school, or one year of such work if the candidate is a graduate of the tenth grade. A provisional certificate is not renewable and may be issued the second time to the same person.

A grade elementary school certificate, valid for two years, may be issued to graduates of the common schools of the county and in the grades when endorsed for the same by the county superintendent. At the option of the county superintendent, be issued to persons who have completed the junior year's work in a normal school or its equivalent. This certificate must be satisfactory to the county superintendent of

six months' successful teaching or twelve weeks' professional training, and a second time if in the period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school provided for such training. Graduation from a recognized high school (two-year, three-year, or four-year) or an equivalent preparation is required for admission to the examination for second grade certificate.

A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county and in the high school when endorsed for the same by the county superintendent, *shall be issued* to graduates of a recognized normal school, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching and applies for the certificate within three years after graduation.

A second grade certificate is valid for teaching only. A first grade certificate is valid for supervision in all positions where the principal or superintendent teaches one-half or more of the time.

A high school certificate, valid for three years in the high schools of the county, and renewable indefinitely for periods of three years on evidence satisfactory to the county superintendent of successful teaching or supervision and professional growth has the following requirements: (1) graduation from a recognized high school, or an equivalent preparation; (2) a certificate showing the completion of at least two years' successful work in any recognized higher institution of learning; and (3) an examination in English, pedagogy, and six high school subjects, three majors and three minors, chosen from a list prescribed by the examining board: *Provided, however*, that graduates of a recognized normal school, college, or university may offer within three years after graduation, certified credits in lieu of examination in the above subjects accompanied by faculty recommendation of ability to teach in the high school.

The law contains also provision for supervisory, kindergarten-primary, and special certificates issued by a county superintendent. The Superintendent of Public Instruction is empowered to grant four-year elementary school, high school, and supervisory certificates which shall at the time of their expiration become valid and be endorsed for life upon evidence of successful teaching or supervision satisfactory to the Superintendent of Public Instruction.

A first and second grade elementary school certificate, a high school certificate, a supervisory certificate, a kindergarten-primary certificate, or a special certificate is valid in the county of issue, and in any county of the state when endorsed by the county superintendent of such county upon evidence of successful teaching, certified by the county superintendent in whose county the teaching has been done.

All certificates, whether state or county, must be annually renewed and endorsed, and a fee of one dollar must be paid.

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College,

The Junior College,

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

TERMS

The regular college year consists of three terms of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the district. The mid-spring term coincides with the second half of the spring term.

A summer term of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer term of 1927 begins on Saturday, June 11, and closes on Friday, September 2. It consists of two half terms of six weeks each, the first half term closing Friday, July 22. Students may attend either half term or both half terms.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

Work done in a two-year rural high school receives half credit, admitting the student to the tenth year.

4. *The holder of a First Grade Certificate* is admitted to a year of preliminary work for entrance to the Junior College and the holder of a second grade certificate to two years of such preliminary work. This work consists of first year algebra and geometry, second and third year high school English, botany, geography, and two electives together with

physical education and work in the use of the library. Another unit is substituted for any of these studies the student has successfully completed.

5. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done before the date of entering.*

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

A bachelor's degree is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. A two-year diploma is granted also in agriculture, art, English, home economics, manual arts, and music. Four-year curriculums prepare teachers for high schools, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each term and on April 15. A statement of the courses necessary for the completion of his work is given to each of these students in the fall term and is used by him in making his programmes for succeeding terms. The list of candidates for graduation is based on the checking of April 15. A student who is not more than four credits behind the class at that time may participate in commencement exercises with the class and receive his diploma at the close of the summer term if he completes the work by that time. It is possible to earn two credits in each half of the summer term.

SCHOLARSHIP

I. Beginning with the college year 1926-1927, grades will be expressed in letters as follows:

A, Excellent.....	3 grade points
B, Good.....	2 grade points
C, Fair.....	1 grade point
D, Poor.....	0 grade points
E, A condition.....	0 grade points
(incomplete work)	
F, A failure.....	- 1 grade point

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors will be noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors will be announced for each term in the month after the beginning of the next regular term; in December for the fall term; in March for the winter term; in October for the spring term and for the preceding year.

The announcement will be made at morning exercises on Saturday morning and will be printed in the next issue of the "Teachers College News."

V. A student failing in three courses (three credits) in any term or in one-half of his courses (two credits) in two consecutive terms will be dropped from the college.

VI. No freshman in a four-year curriculum may register for extra work in his first term.

No sophomore may register for extra work in the first term in which he is taking practice teaching.

No student whose average is below B in the preceding term may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the College may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

CURRICULUMS

For graduates of recognized four-year high schools, the following curriculums are offered:

- I. Two-Year Curriculums (24 credits each) leading to a diploma:
 1. For preparation of teachers for the grades. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year of the work entitles a student to recommendation for a second grade certificate without examination.
 2. For preparation of special teachers of agriculture, art, home economics, manual arts, and music. This dip-

loma entitles the holder to a special certificate in one of these subjects and to a first grade certificate. The completion of the first year of work entitles a student to recommendation for a second grade certificate without examination.

3. For the preparation of teachers of English in the seventh, eighth, and ninth grades and in junior high schools. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year's work entitles him to recommendation for a second grade certificate without examination.

II. Four-Year Curriculum (48 credits each) for preparation of the following:

1. Primary Teachers.
2. _____
3. Grammar Grade Teachers, High School Teachers, and Teachers of Special Subjects:

A. _____	G. Home Economics
B. Art and Design	H. Manual Arts
C. English	I. Mathematics
D. Foreign Language	J. _____
E. Geography	K. Science (Biological)
F. History	L. Science (Physical)
4. Supervisors and principals.

In the four-year curriculums, the college has followed these principles:

1. Since the science and art of education should be emphasized in a *teachers* college, the student in every term of every year has one course in education (including psychology and practice teaching).
2. Since scholarship should be of high importance in a *teachers college*, a student receiving a degree should have attained some proficiency in a chosen branch of knowledge; therefore, in every term of every year, he has a course in the major subject of his choice.
3. Since no graduate of *any* college should be narrow in his education, every student elects another subject which he must continue for two years and also elects two more years of work in other subjects.
4. Since a teacher should have a good degree of scholarship in the English language, every student has two years' work in college English.
5. Since a teacher should view intelligently the material and social world, every student has one year's work in a laboratory science, and one in social science, hygiene, and public sanitation.

CREDIT

A *credit* is a term's work in a subject requiring preparation and reciting four periods ("hours") a week. A period ("hour") is fifty minutes. College classes do not meet on Tuesdays, at 8:10; on Wed-

nesdays, at 9:30; on Thursdays, at 10:25; on Fridays, at 11:20; on Saturdays in the afternoon. College physics and chemistry require three double periods and two single periods a week. Other biological sciences require six periods a week. Art, manual arts, and home economics courses not requiring preparation require eight periods a week for a credit; the four-period courses are half credit courses and two are required therefore for a credit. A statement of the amount of credit is included in the description of each course. No credit toward graduation is given for fewer than three credits in piano or voice work; or in the *first year's* work in a foreign language; or for fewer than one and a half credits in the *first year's* work in elective art, home economics, manual arts, physical education.

Physical education, the use of the library, and penmanship are required in all curriculums, but are not a part of the total number of credits.

NUMBERING OF COURSES

Courses numbered 1-18 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the Junior College or above unless so stated in the description of the course.

MAJOR AND MINOR SUBJECTS

In four-year curriculums for graduates of four-year high schools, a student in a special curriculum takes twelve credits of work in a major subject and six in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, the only restriction being that they shall constitute two years' work in some one department and that the courses chosen shall be satisfactory to that department. Students will consult the department of the major subject as to choice of minor subjects and of electives.

ELECTIVES

There are three groups of electives: One for those in the Senior College, numbered 40 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the Junior College or above. Students will consult the department of the major subject as to choice of electives and of minor subject.

DESCRIPTION OF CURRICULUMS

I. TWO-YEAR CURRICULUMS

24 Credits

1. FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Psychology 20, 21, 22	Reading 24
English 20, 21, 27 or 24 or 22	Drawing 24
Arithmetic 20, 21	Penmanship 20
Botany 20 or Zoology 20	Library 20
Geography 20	Physical Education

SOPHOMORE YEAR

Education 20, 21	Geography 21 and an elective or
Teaching 20, 21, 22	English 23 and
History 20, 21	Education 24
Music 24	Hygiene 20
Manual Arts 24 or 25	Physical Education

Notes: 1. The completion of the work of the freshman year entitles the student to recommendation for a second grade certificate without examination. The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a first grade certificate.

2. A credit is the amount of work done in a prepared subject reciting four periods a week for a term of twelve weeks.

3. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parentheses; but laboratory sciences have six or eight fifty-minute periods; art, manual arts, and home economics require eight periods a week for full credit.

4. Students who have had a year of geography in the Teachers College High School substitute elective credits for Geography 20, 21; but may take Geography 20 for elective credit. Students who are graduates of the Teachers College High School substitute an elective credit for Botany 20 or Zoology 20. Those who have not had in high school a year of botany or zoology with laboratory work are advised to take a second term of biology. This second term counts as an elective credit.

5. Physiology 20 or the equivalent is prerequisite to Hygiene 20. A student who has not had the prerequisite may take Physiology 20 and count it as elective.

Notes: A credit is a term's work in a subject requiring preparation and reciting four periods a week.

The recitation period is fifty minutes. Each course in the College has four periods a week; laboratory subjects, six to eight periods.

Numbers identify the course in the description of courses. Numbers in parentheses indicate the number of recitations a week.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year. In the ninth grade and above the fees regularly charged Teachers College students are paid.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Those who have completed the work of a two-year rural high school may enter the tenth year. Full credit is allowed to students entering from another accredited high school. Sixteen units are required for graduation.

NOTE.—Students wishing to take two electives in the eleventh year may postpone History 4, 5, 6 or Physical Science 1, 2, 3 to the twelfth year.

Graduates of the High School are admitted to the Teachers College.

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teachers their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the obser-

vation of Teachers College classes in methods of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

In the seventh, eighth and ninth grades, each of the teachers has department work in the three grades. A training teacher for history has charge of that work in grades five to eight inclusive. A training teacher for music has charge of the music in grades one to eight. A training teacher for drawing has charge of the drawing in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two terms of practice teaching in the College High School which is a Training School for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first term the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second term, in the group of grades not chosen for the first term; and the third term, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first term the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does

as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking the four-year course take one term of practice teaching in the Elementary School in their second year. Two terms of teaching, one in their major subject and one in their major or minor subject, are required of them in the Senior College. The College High School is the Training School for those who are preparing to teach in high schools.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

DESCRIPTION OF COURSES

AGRICULTURE

High School

Students enrolled in high school agriculture are required to do a special problem relating to the course at home or in the laboratory. Field trips to neighboring farms and to experiment fields are required.

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One credit. Omitted 1926-1927.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One credit. Omitted 1926-1927.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One credit. Omitted 1926-1927.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One credit. Fall term.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One credit. Winter term.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One credit. Spring term.

Junior College

24. GENETICS. This is an introductory course in genetics. Emphasis is laid upon the application of genetic principles to the improvement of plants and animals. Consideration is given to some of the old theories of breeding, the physical basis of heredity, Mendel's law and apparent exceptions thereto, pure line breeding, crossing, and grading.

Four hours a week. One credit. Summer term.

30. AGRONOMY. Farm crops. Requirements and cultural methods. Control of insect, weed, and disease enemies. Wheat, oats, alfalfa, and corn. Legumes, roots, and potato crop.

Four hours a week. One credit. Omitted 1926-1927.

31. ELEMENTARY SOIL AND PLANT STUDIES.

Four hours a week. One credit. Omitted 1926-1927.

32. HORTICULTURE. The farm garden. Study of the principles of gardening. Planting and care of the vegetable garden.

Four hours a week. One credit. Omitted 1926-1927.

33. ANIMAL HUSBANDRY. Principles of livestock judging. Types and breeds of horses, beef cattle, sheep, and swine. Problems in production and marketing of livestock.

Four hours a week. One credit. Fall term.

34. ANIMAL HUSBANDRY. Principles of feeding. Classification of feed stuffs and nutrients. Feeding standards. Balanced rations. Compounding rations for common farm animals.

Four hours a week. One credit. Winter term.

37. DAIRY FARMING. Breeds, selection, management and housing of dairy cattle. Short history of development. Common ailments and their treatment. Milk and its products. Conditions affecting development. Systems, renting, cost of production, and methods of marketing.

Four hours a week. One credit. Spring term.

39. AGRICULTURAL EXTENSION. This course is planned primarily to meet the needs of country school teachers. It deals with the institutions of the country—school, home and church. Surveys, projects, and suggestions for supervisors, superintendents, and directors.

Four hours a week. One credit. Summer term.

Senior College

(Senior College courses in Agriculture will not be offered in the year 1926-1927.)

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. Three credits. Course 1, fall term, Course 2, winter term, Course 3, spring term.

Junior College

20, 21, 22. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the two-year curriculum in art. Five hours a week. Three credits. Fall, winter, and spring terms.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. One credit. Every term.

25. METHOD IN DRAWING, GRADES I-IV. The course includes a discussion of the value of art education; its relation to other subjects and to industries; methods of teaching drawing in the lower grades; the ordering of supplies; the planning of lessons.

Four hours a week. One credit. Spring term, odd years.

26. METHOD IN DRAWING, Grades V-VIII. A study of the subject matter to be taught in the upper grades.

Four hours a week. One credit. Fall term.

27. HISTORY OF ORNAMENT.

Four hours a week. One credit. Winter term, even years.

28. HISTORY OF PAINTING.

Four hours a week. One credit. Spring term, even years.

29. HISTORY OF ARCHITECTURE.

Four hours a week. One credit. Winter term, odd years.

30, 31, 32. Art and Design. First year's work.

Design I. A study of color, principles of design, problems involving principles of rhythm, balance, and harmony.

Perspective. A course including the essentials of pictorial and mechanical perspective.

Lettering. A comprehensive study of various letter forms, including Roman, Gothic, and poster alphabets, followed by practical problems, using the alphabets studied.

Prerequisite: Art 30 to 31 and 31 to 32. Eight hours a week. Three credits. Art 30, fall term; Art 31, winter term; Art 32, spring term.

33, 34, 35. ART AND DESIGN. Second year's work.

Design II. Design with more direct application to decorative art and materials. Leather tooling, wood block printing, batik.

Prerequisite: Art 33 to 34 and 34 to 35. Eight hours a week. Three credits. Even years.

Senior College

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in the high school.

Four hours a week. One credit. Fall term.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. One credit. Winter term.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. One credit. Spring term.

43, 44, 45. ART AND DESIGN. Third year's work.

43. STILL LIFE. Study of object drawing continued. Much time is spent on technique in various mediums.

Pictorial Composition. A study of the principles of composition. Outdoor sketching.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good

color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

45. LIFE SKETCH. A careful study of the costumed figure in charcoal, pencil, pen and ink.

Prerequisite: Art 43 to 44 and 44 to 45. Eight hours a week. Three credits. Art 43, 44, 45, odd years.

46, 47, 48. ART AND DESIGN. Fourth year's work.

46. LIFE SKETCH. Drawing from the figure in different mediums.

47. METAL WORK. Application of principles of design to brass, copper, and silver articles.

48. OIL PAINTING. Painting of still life groups; sketching.

Eight hours a week. Three credits. Art 46, 47, 48, even years.

49. LETTERING.

Eight hours a week. One credit. Omitted 1926-1927.

EDUCATION, PSYCHOLOGY, TEACHING

EDUCATION

Junior College

20. PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching and the school management course which follows.

Four hours a week. One credit. Fall, winter, and spring terms.

21. SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily programme, discipline, and the technique of teaching are discussed.

Four hours a week. One credit. Every term.

24. PRIMARY EDUCATION. The course deals with reading, number, dramatization, story telling, games, and other activities belonging to a primary school.

Four hours a week. One credit. Spring term.

25. PRIMARY DRAWING AND HANDWORK.

Required in the second year of the curriculum for preparation of primary teachers and accepted for Manual Arts 24. Four hours a week. One credit. Omitted 1926-1927.

26. CHILD PHYSIOLOGY.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. One credit. Omitted 1926-1927.

27. FOLK GAMES AND PRIMARY MUSIC.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. One credit. Omitted 1926-1927.

Senior College

40 P. PRIMARY GRADE SUPERVISION.

Required in the curriculum for preparation of primary teachers. Four hours a week. One credit. Fall term.

47. PHILOSOPHY OF EDUCATION.

Required in the last year of the Senior College. Four hours a week. One credit. Spring term, even years, alternating with Psychology 45.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of the problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary school principal in organizing and administering an elementary school.

Required in the senior year of the curriculum in educational administration and supervision. Four hours a week. One credit. Fall and summer terms.

49. SCHOOL LAW AND FINANCE. The course includes (a) a brief survey of school law with particular reference to the laws of Illinois, (b) a study of such topics as the school budget, comparative costs in education, financial records and accounts, school indebtedness, the control of school finance, educational inequalities, the units of school support, state aid, and sources of public school revenues.

Prerequisite: Education 48. Required in the senior year of the curriculum in educational administration and supervision. Four hours a week. One credit. Winter term.

50. CURRENT EDUCATIONAL PROGRESS.

Required in the last year of the curriculum in educational administration and supervision. Four hours a week. One credit. Omitted 1926-1927.

PSYCHOLOGY

Junior College

20, 21, 22. INTRODUCTION TO PSYCHOLOGY. This course is intended to serve a double purpose: (a) to present the general facts concerning mental process, (b) to show the application of these facts to problems of learning and teaching. The general background is presented in the first two terms of work (Courses 20 and 21) and includes a consideration of the following topics: the physiological basis of mental processes, the accumulation of experience by means of the sense organs; the development of perceptions, ideas, and concepts; the association of ideas; memory; imagination; reasoning; attention; instinct; feeling; emotion; will. The second purpose of the course is carried out by a discussion of the laws of learning as they are applied in the common

branches; and by a series of observations in the Training School, followed by class discussion of the psychological principles involved.

Required in the freshman year. Four hours a week. Three credits. Course 20, fall and summer terms; Course 21, winter and summer terms; Course 22, spring and summer terms.

Senior College

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurements of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Required. Four hours a week. One credit. Fall term.

45. EDUCATIONAL PSYCHOLOGY. This course makes a more detailed study than is possible in Courses 20, 21 and 22 of the special technique of learning and of the acquisition of skill. Experiments and demonstrations are carried on in the trial and error method of motor learning; in memorizing, in transfer of training, in imagery characteristics, in fatigue effects and in the rate of learning. Consideration is given to the special mental traits of children and of adolescents and to the significance of these traits for school procedure.

Required. Four hours a week. One credit. Spring term, odd years, alternating with Education 47.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. *Omitted 1926-1927.*

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups, such as the mob, the gang, clubs, classes, sects, nations, are studied with reference to their bearing upon education.

Required in the junior year. Four hours a week. One credit. Winter term.

TEACHING

Junior College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curriculums. Five hours a week. One credit. Fall, winter, and spring terms.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. One credit for each course. Fall, winter, and spring terms; Course 22, summer term, also.

30, 31, 32. Practice teaching may be elected in the second year of the two-year curriculum if permission is obtained.

Elective in the second year of the two-year curriculum. Five hours a week. Three credits, one each for Course 30, Course 31, Course 32. Fall, winter, and spring terms.

Senior College

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two terms of practice teaching are required in the Senior College. At least one of these terms must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College in all curriculums; and substituted for Social Science 21 and Hygiene 20 by those who wish a two-year diploma in agriculture, art, home economics, manual arts or music. Two credits (Course 41, one credit; Course 42, one credit). Five hours a week. Fall, winter, and spring terms.

41 P, 42 P, 43 P. PRACTICE TEACHING IN PRIMARY GRADES.

Required in the Senior College in the curriculum for preparation of primary teachers. Five hours a week. Three credits (Course 41 P, one credit; Course 42 P, one credit; Course 43 P, one credit). Fall, winter, and spring terms.

41 I, 42 I, 43 I. PRACTICE TEACHING IN INTERMEDIATE GRADES.

Required in the Senior College in the curriculum for preparation of intermediate teachers, Five hours a week. Three credits (Course 41 I, one credit; Course 42 I, one credit; Course 43 I, one credit). Omitted 1926-1927.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. Three credits. English 1, fall term; English 2, winter term; English 3, spring term.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review, continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. Three credits. English 4, fall term; English 5, winter term; English 6, spring term.

Students entering the High School unable to carry English 4 are required to take one or more terms of *English 1, 2, 3*, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. Three credits. Course 7, fall term; Course 8, winter term; Course 9, spring term.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English, 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. Three credits. No credit for less than the year's work. Course 10, fall term; Course 11, winter term; Course 12, spring term.

Junior College

19. USAGE. Drill in the fundamentals of good form, oral and written.

Required of those whose work in English 20 is below standard, or whose work at any time in any subject shows that further drill is necessary. Four hours a week. Credit only toward removing conditions. Fall and winter terms.

20. COMPOSITION. A practical course, stressing the planning, outlining, and development of short units, analysis of well-written material, the sentence, and fundamentals of good form in speech and writing.

Required in the freshman year in all curriculums. Four hours a week. One credit. Every term.

21. COMPOSITION. A continuation of English 20, mostly concerned with clear exposition; larger units; some rhetorical theory.

Prerequisite: English 20. Required in the freshman year in all curriculums. Four hours a week. One credit. Winter and spring

LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great stories of world literature—myth, legend, the best poetry—suitable for children.

Required in the first year of the two-year curriculum unless Course 24 is taken; elective in any curriculum. Four hours a week. One credit. Spring and summer terms.

23. LITERATURE AND STORY-TELLING, Grades I-IV.

The study of stories suitable for telling to children; practice in selecting, adapting, and telling stories before the class.

Required in the second year of the curriculum for preparation of teachers for primary grades. Elective in any curriculum. Four hours a week. One credit. Spring term.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, and methods of teaching. This course is especially recommended to students interested in intermediate, or upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless Course 22 is taken) and may be substituted for English 25 by students in a four-year curriculum with English as the major subject; elective in any curriculum. Four hours a week. One credit. Spring and summer terms.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in all special two-year curriculums and in the four-year curriculums. Elective in any curriculum. Four hours a week. One credit. Spring term.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the two-year English curriculum and elective in other curriculums. Four hours a week. One credit. Winter, mid-spring, and summer terms.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Required in the two-year English curriculum; elective in other curriculums; and alternative with English 22. Four hours a week. One credit. Spring term.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to 31. Four hours a week. Two credits. Course 30, fall term; Course 31, winter term.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Prerequisite: English 30, 31. Four hours a week. One credit. Spring term.

35. GREEK DRAMA. Origins and development of classical drama Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. One credit. Fall term.

36. SHAKESPEARE. A study of the most important plays, with some attention to the beginning and development of English drama. *Four hours a week. One credit. Winter term.*

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. One credit. Spring term.

Senior College

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required of those whose major subject is English. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. Course 41, one credit; Course 42, one credit. Course 41, winter term; Course 42, spring term.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Fall term.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research, and opportunity for original work.

Prerequisite: Junior College required English. Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Winter term.

45. ORAL ENGLISH. Through prepared talks and discussions, this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Spring term.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art.

Required in the English curriculum; elective in others. Four hours a week. Course 46, one credit; Course 47, one credit; Course 48, one credit. Fall, winter, and spring terms, odd years.

49, 50. MODERN PROSE. The essay and the short story. Four hours a week. Two credits. Fall and winter terms, even years.

51. HISTORY OF THE ENGLISH LANGUAGE AND ADVANCED GRAMMAR. Four hours a week. One credit. Spring term, even years.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. Fraser and Squair's *Shorter French Course*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. Three credits. French 1, fall term; French 2, winter term; French 3, spring term.

4, 5, 6. SECOND YEAR FRENCH. Fraser and Squair's *Complete French Grammar*. *L'Abbe Constantin*. *Le Voyage de M. Perrichon*. *Colomba*. Sight reading; conversation; composition.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. Three credits. French 4, fall term; French 5, winter term; French 6, spring term.

Junior College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Three credits; no credit toward graduation for less than a year's work. Course 30, fall term; Course 31, winter term; Course 32, spring term.

33, 34, 35. ADVANCED FRENCH. Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Three credits. Course 33, fall term; Course 34, winter term; Course 35, spring term, even years.

36, 37, 38. ADVANCED FRENCH. Modern dramatists as Marivaux, Lesage, Beaumarchais, Rostand. Modern poetry. Reading of classical writers as Corneille and Racine. Frequent reports on topics taken from the history, geography, manners, and customs of France. All recitations are conducted in French.

Prerequisite: One year of college French. Elective. Four hours a week. Three credits. Course 36, fall term; Course 37, winter term; course 38, spring term, odd years.

Senior College

(Senior College courses in French will not be offered in the year 1926-1927.)

GERMAN

Omitted 1926-1927

LATIN

High School

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. Elective. Five hours a week. Three credits. Latin 1, fall term; Latin 2, winter term; Latin 3, spring term.

4, 5, 6. SECOND YEAR LATIN. Caesar, Books I-IV with selections from the other books. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. Three credits. Latin 4, fall term; Latin 5, winter term; Latin 6, spring term.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. Three credits. Fall, winter, and spring terms, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI. Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. Three credits. Fall, winter, and spring terms, odd years.

Junior College

30. Livy, Selections from Books I, XXI, and XXII.

Prerequisite: Four years of elementary Latin. Four hours a week. One credit. Omitted 1926-1927.

31. Cicero, De Amicitia, De Senectute, and De Officiis.

Prerequisite: Course 30. Four hours a week. One credit. Omitted 1926-1927.

32. Horace, Odes and Epodes.

Prerequisite: Course 31. Four hours a week. One credit. Omitted 1926-1927.

33. Virgil, Aeneid, Books VII-XII.

Prerequisite: Four years of elementary Latin. Four hours a week. One credit. Omitted 1926-1927.

34. Horace, Satires and Epistles.

Prerequisite: Course 33. Four hours a week. One credit. Omitted 1926-1927.

35. Plautus, Menaechmi, Mostellaria, and Captivi.

Prerequisite: Course 34. Four hours a week. One credit. Omitted 1926-1927.

Senior College

40. The Teaching of Latin.

Prerequisite: Three years of college Latin. Four hours a week. One credit. Omitted 1926-1927.

41, 42. Practice Teaching in Latin.

Prerequisite: Latin 40. Five hours a week. Two credits. Omitted 1926-1927.

43. Ovid, Metamorphoses.

Four hours a week. One credit. Omitted 1926-1927.

44. Pliny, Letters.

Four hours a week. One credit. Omitted 1926-1927.

45. Latin Writing.

Four hours a week. One credit. Omitted 1926-1927.

46. Tacitus, Germania, Agricola, and selections from the annals and histories.

Four hours a week. One credit. Fall term.

47. Latin Poetry. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. One credit. Winter term.

48. Latin Drama. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. One credit. Spring term.

GEOGRAPHY

High School

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Required in the twelfth year. Five hours a week. One credit. Fall and summer terms.

2. PHYSIOGRAPHY. A continuation of Course 1, taking up mathematical geography, a study of atmosphere and climate.

Prerequisite: Course 1. Required in the twelfth year. Five hours a week. One credit. Winter and summer terms.

3. COMMERCIAL GEOGRAPHY.

Prerequisite: Course 2. Required in the twelfth year. Five hours a week. One credit. Spring term.

Junior College

20. PRINCIPLES OF HUMAN GEOGRAPHY.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in Curriculum II, 1, and II, 2, of those who have not had courses 1 and 2. Elective for all others. Four hours a week. One credit. Every term.

21. CLIMATOLOGY. A study of climate and its influence upon forms and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in Curriculum II, 2, who have not had Courses 1, 2, and 3 and who do not take Education 24. Elective for all others. Four hours a week. One credit. Fall, winter, and summer terms.

22. GEOGRAPHY FOR THE GRADES. A course suggesting methods and devices for presenting the subject matter of geography to the grades. Stress is laid on the study of one or two of the continents for illustration and problems.

Required in Curriculum II, 2. Four hours a week. One credit. Summer term.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. One credit. Fall term, even years.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. One credit. Winter term, even years.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Elective. Four hours a week. One credit. Spring term, even years.

33. GEOGRAPHY OF ASIA.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Omitted 1926-1927.

34. AFRICA AND AUSTRALIA.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Winter term, odd years.

35. TROPICAL AMERICA.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Spring term, odd years.

36. GEOLOGY.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Fall and spring terms.

HISTORY, SOCIOLOGY, GOVERNMENT, AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One credit. Fall term.

2. THE GREEKS AND GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One credit. Winter term.

3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN INVASIONS.

Elective in the tenth year. Five hours a week. One credit. Spring term.

4. THE HISTORY OF ENGLAND TO 1400.

Required in the eleventh year. Five hours a week. One credit. Fall term.

5. THE HISTORY OF ENGLAND, 1400-1715.

Required in the eleventh year. Five hours a week. One credit. Winter term.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1715 TO THE PRESENT.

Required in the eleventh year. Five hours a week. One credit. Spring term.

7. AMERICAN HISTORY TO 1800.

Elective in the twelfth year. Five hours a week. One credit. Fall term.

8. THE HISTORY OF THE UNITED STATES, 1800-1865.

Elective in the twelfth year. Five hours a week. One credit. Winter term.

9. THE HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Elective in the twelfth year. Five hours a week. One credit. Spring term.

Junior College

The requirement of History 20, 21 and also of social science in the Junior College may be fulfilled by selecting any two consecutive terms of either European or American history; of History 20, 21, 22, three consecutive terms.

30. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. One credit. Fall term.

31. THE HISTORY OF EUROPE, 1500-1815.

Elective. Four hours a week. One credit. Winter term.

32. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. One credit. Spring term.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1800.

Elective. Four hours a week. One credit. Fall term.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1800-1865.

Four hours a week. One credit. Winter term.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Four hours a week. One credit. Spring term.

36. GOVERNMENT AND ILLINOIS HISTORY.

Four hours a week. One credit. Summer term.

Senior College

40. THE TEACHING OF HISTORY.

Required. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HISTORY.

Required. Five hours a week. One credit. Course 41, winter term; Course 42, spring term.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Three credits. Odd years, alternating with Government 43, 44, 45.

SOCIOLOGY

Senior College

43, 44, 45. SOCIOLOGY.

Four hours a week. Three credits. Odd years, alternating with Economics, 44, 45, 46.

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One credit. Fall term.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One half credit. First half of the winter term.

Senior College

NOTE.—Government 43, 44, 45 alternates with History 43, 44, 45.

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. One credit. Fall term, even years.

44. THE NATIONAL GOVERNMENT.

Four hours a week. One credit. Winter term, even years.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. One credit. Spring term, even years.

ECONOMICS

High School.

1a, 2. ECONOMICS. Economics 1a, second half of the winter term, and Economics 2, spring term, complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One and one-half credits. Economics 1a, second half of the winter term; Economics 2, spring term.

Junior College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the two-year curriculum in Manual Arts. Four hours a week. One credit. Winter term.

Senior College

NOTE.—Economics 44, 45, 46 alternates with Sociology 43, 44, 45.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. One credit. Fall term, even years.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. One credit. Winter term, even years.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. One credit. Spring term, even years.

HOME ECONOMICS

I. DOMESTIC ART

High School

1. PLAIN SEWING. Garment making requiring hand and machine sewing, straight line drafting, and use of the commercial pattern.

Elective. Five hours a week. One half credit when followed by Course 2 and Course 3. Fall term.

2. PLAIN SEWING. Garment making continued. Sewing machine problems. Discussion of materials as to cost, widths, suitability, and wearing qualities. Care and repair of clothing.

Elective. Five hours a week. One half credit. Winter term.

3. PLAIN SEWING. The making and drafting of a kimono and the making of a summer dress. Materials discussed.

Elective. Five hours a week. One half credit. Spring term.

4. DRESSMAKING AND TEXTILES. The making of dresses of silk and wool. The choice and care of clothing.

Prerequisite: Courses 1, 2, 3. Elective. Ten hours a week. One credit. Fall term.

5. DRESSMAKING AND TEXTILES, continued. Discussion of selection of material. The study of the commercial pattern. Discussion of drafting, cutting, and fitting of patterns.

Prerequisite: Course 4. Elective. Ten hours a week. One credit. Winter term.

6. DRESSMAKING AND TEXTILES, continued. The making of summer dresses. Discussion of appropriateness in dress. The planning and cost of a girl's wardrobe.

Prerequisite: Course 5. Elective. Ten hours a week. One credit. Spring term.

Junior College

20, 21, 22. PRACTICE TEACHING IN DOMESTIC ART.

Required in the sophomore year in the two-year curriculum in Home Economics unless Domestic Science, 20, 21, 22 is taken. Five hours a week. Three credits. Fall, winter, and spring terms.

36. PLAIN SEWING. Garment making requiring hand and machine sewing, embroidery and straight line drafting with methods for presenting this work in public schools. The study of the sewing machine. Discussion of materials as to cost, widths, suitability, and wearing qualities. The commercial pattern.

Elective. Eight hours a week. One credit when followed by Course 37 and Course 38. Summer term and fall term, even years.

37. DRESSMAKING AND TEXTILES. Discussion of selection of materials. The study of the commercial pattern. Discussion of drafting, cutting, and fitting of patterns. The making of a wool dress. Knitting and crocheting. Care and repair of clothing. A make-over problem. Darning and patching.

Prerequisite: Course 36. Elective. Eight hours a week. One credit. Winter term, even years.

38. DRESSMAKING AND TEXTILES, continued. The making of summer dresses. Discussion of appropriateness in dress. The planning and the cost of a girl's wardrobe. Sewing machine attachments.

Prerequisite: Course 37. Elective. Eight hours a week. One credit. Spring term, even years.

Senior College

(Senior College courses in Domestic Art will not be offered in the year 1926-1927.)

II. DOMESTIC SCIENCE

High School

1. FOODS. This course is an introduction to the study of foods. The classification, selection, and preparation of foods. Lecture and laboratory work.

Elective. Five hours a week. One half credit when followed by Course 2 and Course 3. Fall term.

2, 3. FOODS. The cooking of foods continued. The production and manufacture of foods. Combinations and preparations for simple luncheons. Lecture and laboratory.

Elective. Five hours a week. One half credit for Course 2, and the same for Course 3. Course 2, winter term; Course 3, spring term.

4. **ADVANCED FOODS.** This course takes up the preservation of foods and problems in baking.

Prerequisite: Course 3. Ten hours a week. One credit. Omitted 1926-1927.

5, 6. **ADVANCED FOODS, continued.** Planning of menus, study of cost, serving of meals.

Prerequisite: Course 4. Ten hours a week. Course 5, one credit; Course 6, one credit. Omitted 1926-1927.

Junior College

20, 21, 22. **PRACTICE TEACHING IN DOMESTIC SCIENCE.**

Required in the sophomore year of the two-year curriculum in Home Economics unless Domestic Art 20, 21, 22 is taken. Five hours a week. One credit. Fall, winter, and spring terms.

36. **FOODS.** This course is an introduction to the study of foods. The classification, selection, and preparation of foods. The production, manufacture, use, and nutritive values of foods. Lecture and laboratory.

Prerequisite: Chemistry 30, 31, 32, unless the student is taking Chemistry 30. Elective. Eight hours a week. One credit when followed by Course 37 and Course 38. Fall term, odd years.

37. **ADVANCED FOODS.** This course takes up conservation problems. The school lunch. The use of the thermometer in processes of cooking. Practice work in demonstration cooking.

Prerequisite: Course 36 and Chemistry 30, 31, 32. Eight hours a week. One credit. Winter term, odd years.

38. **ADVANCED FOODS, continued.** Experiments to find adulterants in foods. Cost and serving of foods. Demonstration work continued.

Prerequisite: Course 37. Eight hours a week. One credit. Spring term, odd years.

Senior College

(Senior College courses in Domestic Science will not be offered in the year 1926-1927.)

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh and freshman years. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall and winter terms.

20. THE USE OF THE LIBRARY. In the fall term, six lessons in the use of the library are required of all who are taking English 20. In the winter term, six lessons are required of all who are taking Psychology 21. In the spring term these twelve lessons are offered in a separate course in order that all freshmen who have not completed the twelve lessons given with English 20 and Psychology 21 may have an opportunity to complete them before the close of their freshman year.

Freshmen who have completed Library XI are excused from those lessons which their work in Library XI has already covered.

Required in the spring term of the freshman year of all who have not already completed the twelve lessons. One hour a week. Spring and summer terms.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One half credit. Fall term.

2. MECHANICAL DRAWING. A continuation of Manual Arts 1. Seven plates are considered a term's work. Two and three view working drawings will be the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One half credit. Winter term.

3. MECHANICAL DRAWING. Eight plates are required this term. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One half credit. Spring term.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools will be given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One half credit. Fall term.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One half credit. Winter term.

6. **WOODWORK.** The jointer plane is studied and a piece of furniture may be developed in which the surface is built up by the use of this tool. Household repair is emphasized. Broken furniture may be brought from home and mended in the school shop.

Elective. Five hours a week. One half credit. Spring term.

7. **MACHINE WOODWORK.** Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Course 3 and Course 6. Elective. Ten hours a week. One credit. Fall term.

8. **MACHINE WOODWORK, continued.** Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Course 7. Elective. Ten hours a week. One credit. Winter term.

9. **MACHINE WOODWORK, continued.** The piece of furniture started in the winter term is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Course 7. Elective. Ten hours a week. One credit. Spring term.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

Junior College

20, 21, 22. **PRACTICE TEACHING IN MANUAL ARTS.**

Required in the sophomore year in the two-year curriculum in Manual Arts. Five hours a week. Three credits.

23. **THE TEACHING OF MANUAL ARTS.**

Required in the two-year curriculum in Manual Arts. Four hours a week. One credit. Spring term.

24. **PRIMARY GRADE HANDWORK.** A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Manual Arts 25 or Education 25 is taken; required also in the four-year primary and art curriculums. Four hours a week, with outside work. One credit. Winter term.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Course 24 is offered; required also in the four-year curriculum for preparation of teachers of the intermediate grades. Four hours a week with outside work. One credit. Fall and spring terms.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, simple perspective, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Elective. Four hours a week. One half credit. Fall and summer terms.

31, 32. MECHANICAL DRAWING. Isometric and cabinet projection, elementary furniture design, principles, and developments. A practical course in machine design. Lectures, demonstration, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Elective. Four hours a week. Course 31, one half credit. Course 32, one half credit. Course 31, winter term; Course 32, spring term; both courses, summer term.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstration, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Elective. Four hours a week. One half credit. Fall and summer terms.

34, 35. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33; also Course 34 to Course 35. Elective. Four hours a week. Course 34, one half credit; Course 35, one half credit. Course 34, winter term; Course 35, spring term.

36. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. One credit. Winter and summer terms.

37. BUILDINGS AND EQUIPMENT FOR MANUAL ARTS WORK. Prices and supplies. Library assignments and reports. A careful study of wood finishes and their application. A continuation of Course 36 in that one piece of superior cabinet work of original but approved design is made.

Prerequisite: Course 36. Eight hours a week. One credit. Spring term.

39. HOME MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists in the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers. Required of all students majoring in Manual Arts. A valuable course for home economics students.

Eight hours a week. One credit. Fall and summer terms.

Senior College

40. THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS.

Required in the four-year curriculum in Manual Arts. Four hours a week. One credit. Omitted 1926-1927.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS. *Omitted 1926-1927.*

43. SHEET METAL WORK. *Omitted 1926-1927.*

44. PLUMBING AND ELECTRICAL ENGINEERING.

Eight hours a week. One credit. Fall term.

45. BRICK AND CEMENT WORK. *Omitted 1926-1927.*

46. PATTERN MAKING.

Eight hours a week. One credit. Fall term.

47. FORGE AND FOUNDRY.

Eight hours a week. One credit. Fall term.

48. MACHINE SHOP.

Eight hours a week. One credit. Winter term.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. One half credit for each course. Every term.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. One half credit for each course. Every term.

53. FOUNDRY. *Omitted 1926-1927.*

54. ADVANCED MACHINE SHOP.

Eight hours a week. One credit. Spring term.

55, 56. CARPENTRY.

Eight hours a week. Course 55, one credit; Course 56, one credit; Course 55, winter term; Course 56, spring term.

57. AUTOMOBILE REPAIR.

Eight hours a week. One credit. Winter term.

58. HISTORY OF INDUSTRIAL EDUCATION.

Eight hours a week. One credit. Spring term.

59, 60, 61. PRINTING. *Omitted 1926-1927.*

MATHEMATICS

High School

1. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One credit. Fall and summer terms.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One credit. Winter and summer terms.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One credit. Spring and summer terms.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One credit. Fall term.

5. GEOMETRY 2. Chapters V, VI, VII, and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One credit. Winter term.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One credit. Spring term.

7. SOLID GEOMETRY 4, Chapters XII-XVI.

Prerequisite: Geometry 3. Five hours a week. One credit. Fall and summer terms.

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One credit. Winter term.

9. ALGEBRA 5. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 4. Elective. Five hours a week. One credit. Spring term.

Junior College

20. ARITHMETIC. This course includes notation and numeration,

the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. One credit. Every term including the summer term.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. One credit. Every term.

30. SOLID GEOMETRY. Chapters XII-XVI.

Prerequisite: Geometry 3. Four hours a week. One credit. Fall term.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

NOTE.—*Students who have had a year and a half of high school algebra should not take Course 31.*

Prerequisite: Geometry 3. Elective. Four hours a week. One credit. Fall term.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Elective. Four hours a week. One credit. Winter term.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Elective. Four hours a week. One credit. Fall and summer terms.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Elective. Four hours a week. One credit. Winter term.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Course 34. Elective. Four hours a week. One credit. Spring term.

36. ALGEBRA. Theory of equations including elementary transformations, location of roots, and the solution of the cubic and bi-quadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. One credit. Spring term.

Senior College

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Two credits. Winter and spring terms.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Three credits. Course 43, fall term; Course 44, winter term; Course 45, spring term.

MUSIC

High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes preparation.

Elective in any year of the high school. Five hours a week. Three credits (no credit for less than the whole year's work). Omitted 1926-1927.

PUBLIC SCHOOL MUSIC

Junior College

20, 21, 22. PRACTICE TEACHING IN MUSIC. The course is devoted to a detailed study of the material and methods of teaching the specific tonal and rhythmic problems of each of the first six grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Three credits. Fall, winter, and spring terms.

24. PUBLIC SCHOOL MUSIC. The course requires facility in reading at sight, with the Latin syllables or with the text, the music in the standard texts as used in the elementary schools. Care of the child voice, teaching of rote songs, and sight singing lessons are subjects for special consideration.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. One credit. Fall, winter, and summer terms.

33. SIGHT SINGING, ELEMENTARY THEORY, EAR TRAINING. One-part and two-part singing, aural recognition and writing of tonal and rhythmic problems of the fifth, sixth, and seventh grades. A thorough study of major, minor, and chromatic scales with some original composition.

Prerequisite: Music 24 (or the equivalent). Elective. Four hours a week. One credit. Winter term.

34. MUSIC APPRECIATION. The course aims to acquaint the student with some of the best music—piano, vocal, and orchestral. It is organized around the study of the varying forms into which musical compositions are cast—from the folk song to the symphony. While some knowledge of music is an advantage to members of the class, such knowledge is not a prerequisite.

Elective. Four hours a week. One credit. Spring term.

37a. PRIMARY MUSIC METHODS. The teaching of rote songs. How to help monotones. The development and care of the child voice. Repertoire of children's songs. The work of the first three grades is studied intensively.

Elective. Four hours a week with preparation. One credit. Summer term.

38a. UPPER GRADE METHODS. Methods of teaching and supervising music in grades four to eight inclusive.

Prerequisite: Music 37. Elective. Four hours a week with preparation. One credit. Summer term.

Senior College

(Senior College courses in Public School Music will not be offered in the year 1926-1927.)

INSTRUMENTAL MUSIC

I. PIANO

In beginning classes in piano, from two to four pupils are admitted to one hour lessons in each class, while only two pupils receive instruction at the same time in the more advanced classes.

Junior College

30, 31, 32. PIANO, FIRST YEAR. The course has to do with hand, culture, touch, notation, rhythm, and ear training.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32 or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

Senior College

43, 44, 45. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. *Elective.* Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

46, 47, 48. PIANO, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. *Elective.* Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

II. VIOLIN

Omitted 1926-1927.

VOICE TRAINING

Special stress is laid on correct breathing, correct placing of the singing and speaking voice, distinct enunciation and artistic interpretation, development and control of the emotional faculties, physical and mental development, tone quality and registers.

Junior College

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. *Elective.* Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

Senior College

43, 44, 45. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35 or the equivalent. *Elective.* Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

46, 47, 48. VOICE TRAINING, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. *Elective.* Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

PENMANSHIP

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Five hours a week. One-fourth of a credit. Summer term.

24. This course gives a more extended study of penmanship and methods of teaching it in the grades.

Required in Curriculum II, 2. Four hours a week with preparation. One credit. Omitted 1926-1927.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required of first year students in all curriculums. Two hours a week. Every term.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required of second year students in all curriculums. Two hours a week. Every term.

Junior College

First Year's Work. See above.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

Football:	Basketball:	Baseball:
Practice (8 hours a week)	Practice (6)	Practice (8)
	Theory (1)	Theory (1)
Theory (1 hour a week)		

Gymnastics:	Gymnastics:	Track:
Practice (2 hours a week)	Practice (2)	Practice (4)
	Theory (1)	

Elective. Three credits. No credit toward graduation for less than a full year's work. One-fourth of a credit for each term of theory work to which one hour a week is given. Fall, winter, and spring terms.

36, 37, 38. ATHLETIC COACHING. Second Year.

Football:	Basketball:	Baseball:
Practice (8)	Practice (6)	Practice (6)
Theory (1)	Theory (1)	Track:
Gymnastics:	Gymnastics:	Practice (4)
Practice (2)	Theory (1)	Theory (1)
Theory (1)	Practice (2)	Organization and Administration of Physical Education (1)

Elective. Three credits. No credit toward graduation for less than a full year's work. One-fourth of a credit for each term of theory work to which one hour a week is given. Fall, winter, and spring terms.

Senior College

41, 42, 43. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Course 41; basketball, Course 42; baseball, Course 43.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and senior classification. Registration for this course is made only upon the recommendation of Mr. Lantz.

Elective. Five hours a week. One credit for each of the three courses.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week, for two years is required both in the high school and in the college, outdoor sports in the fall and spring terms, marching, gymnastics, and apparatus work in the winter term.

Students who in the opinion of the medical adviser are not physically fit to take the regular work have archery in the fall and spring terms, and corrective exercises and applied hygiene in the winter term in the case of all whose physical condition indicates the need of individual work.

Folk dancing may be taken in the winter term instead of marching, gymnastics, and apparatus work by students who are not in the restricted work referred to in the last paragraph.

READING

Junior College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum and in four-year curriculums II, 1 and II, 2. Four hours a week with preparation. One credit. Every term.

SCIENCE (BIOLOGICAL)

HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two credits. Winter and spring terms.

Junior College

20. PHYSIOLOGY. Similar to Course 1, 2, but more advanced with special attention to the digestive system, the nervous system, and sense organs.

Required in the two-year curriculum of those who have not had high school physiology. Ten hours a week. One credit. First summer term.

20. HYGIENE AND SANITATION.

Required in all curriculums. Four hours a week. One credit. Every term.

BIOLOGY

Junior College

One term of biology is required in the junior year except in the case of students who have had a year of botany in the Teachers College High School; these students take an elective credit instead of biology.

This requirement is fulfilled by the completion of Botany 20 or Zoology 20.

BOTANY

High School

1. MORPHOLOGY OF THE LOWER PLANTS. Bacteria, algae, fungi, moss-plants, and fern-plants.

Prerequisite: Botany 3. Required in the tenth year. Five sixty-minute periods a week. One credit. Winter term.

2. MORPHOLOGY OF SEED PLANTS. Origin and development of the highest plant groups; orders and common families of flowering plants.

Prerequisite: Botany 1. Required in the tenth year. Five sixty-minute periods a week. One credit. Spring term.

3. PROCESSES AND ADJUSTMENTS OF PLANTS. Ordinary activities of plants and common relations to environment. Physiological experiments, study of structure as modified by varied exposure to external conditions, and of specialized parts of plants.

Required in the tenth year. Five sixty-minute periods a week. One credit. Fall term.

Junior College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment factors on these processes and structures.

Required in the two-year curriculum, unless Zoology 20 is taken or the student is a graduate of the Teachers College High School. Elective in other curriculums. Every term. Six hours a week. One credit.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. One credit. Winter term.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with this a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. One credit. Spring term.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems, the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. One credit. Spring term.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. One credit. Fall term.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. One credit. Winter term.

32. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30 or the equivalent. Elective. Six hours a week. One credit. Spring term.

Senior College

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in biological science unless Zoology 40 is substituted. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in biological science unless Zoology 41, 42 is substituted. Five hours a week. Course 41, one credit; Course 42, one credit. Winter and spring terms.

43, 44, 45. **ADVANCED BOTANY.** These courses are arranged to meet the needs of individual students who have had five terms (five credits), or the equivalent, of botany, and who wish to go on in some special field. The student may choose the field in which he wishes to work, but is required to consult the instructor before registering for any of these courses.

Prerequisite: Botany 20, 21, 22, 30, and 32 or the equivalent of these five courses; and permission of the instructor. Six hours a week (to be arranged with the instructor). One credit for each term's work.

ZOOLOGY

High School

1. **ELEMENTARY INVERTEBRATE ZOOLOGY.** Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Fall term.

2. **ELEMENTARY VERTEBRATE ZOOLOGY.** Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds, and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Winter term.

3. **FIELD ZOOLOGY.** Life-histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Spring term.

Junior College

20. **ANIMAL BIOLOGY.** A consideration of fundamental biological laws, based upon animal material.

Required in the two-year curriculum, unless Botany 20 is taken or the student is a graduate of the Teachers College High School. Six hours a week. One credit. Fall, spring, and summer terms.

20, 21, 22. **ELEMENTARY ZOOLOGY.**

Elective. Six hours a week. Three credits. Course 20, fall term; Course 21, winter term; Course 22, spring term.

23. **ANIMAL BEHAVIOR AND ANIMAL GEOGRAPHY.** The responses of animals to the various factors of the environment are studied. The

effect of these responses on the distribution of animals and the special adaptations of animals to the various geographic regions are also considered.

Elective. Six hours a week. One credit. Winter term.

30, 31, 32. ADVANCED ZOOLOGY AND SPECIAL METHODS. A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarizing students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoology 20, 21, or 1, 2. Elective. Six hours a week. Three credits. Course 30, fall term; Course 31, winter term; Course 32, spring term, even years.

33, 34, 35. ADVANCED ZOOLOGY. A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoology 20, 21, or 1, 2. Elective. Six hours a week. One credit. Course 33, fall term; Course 34, winter term; Course 35, spring term, odd years.

Senior College

40. METHOD IN HIGH SCHOOL ZOOLOGY. The course includes methods of teaching zoology and also the collection and preparation of material for demonstration and laboratory in high school zoology.

Prerequisite: Two years' work in college zoology. Required in the senior year in the four-year curriculum in biological science unless Botany 40 is substituted. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL ZOOLOGY.

Prerequisite: Zoology 40. Required in the senior year in the four-year curriculum in biological science unless Botany 41, 42 is substituted. Five hours a week. Course 41, one credit; Course 42, one credit. Winter and spring terms.

43, 44, 45. ADVANCED ZOOLOGY. This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investigations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisite: Two years of work in zoology or biology, and permission of the instructor. Six hours a week (to be arranged with the instructor). One credit for each term's work. Course 43, fall term; Course 44, winter term; Course 45, spring term.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. Fall term.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology. Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Mechanics; heat, sound, light, electricity.

Prerequisite: Geometry 1, 2, 3. Required or elective in the eleventh or twelfth year. Seven hours a week. Three credits. Course 1, fall term; Course 2, winter term; Course 3, spring term.

Junior College

20, 21. COLLEGE PHYSICS FOR MANUAL ARTS STUDENTS. The topics studied in Physics 20 are mechanics and heat; in Physics 21, magnetism and electricity. These courses include the same essential principles as Physics 30, 31, but with the difference that where it is possible the applications and problems as well as the laboratory work are related to manual arts.

Required in manual arts curriculums. Six hours a week. One credit for Physics 20; one credit for Physics 21. Physics 20, fall term; Physics 21, winter term.

30. COLLEGE PHYSICS. MECHANICS.

Six hours a week. One credit. Fall term.

31. COLLEGE PHYSICS. ELECTRICITY.

Six hours a week. One credit. Winter term.

32. COLLEGE PHYSICS. HEAT AND SOUND.

Six hours a week. One credit. Spring term.

Senior College

40. THE TEACHING OF PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Five hours a week. Two credits. Winter and spring terms.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. Three credits.

Course 1, fall term; Course 2, winter term; Course 3, spring term.

Junior College

30, 31a. GENERAL INORGANIC CHEMISTRY.

Elective. Eight hours a week. One and one-half credits. Course 30, fall term; Course 31a, first half of the winter term.

31b, 32. QUALITATIVE ANALYSIS.

Eight hours a week. One and one-half credits. Course 31b, second half of the winter term; Course 32, spring term.

33, 34a. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. One and one-half credits. Course 33, fall term; Course 34a, first half of the winter term.

34b, 35. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. One and one-half credits. Course 34b, the second half of the winter term; Course 35, spring term.

PART III
LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, by *Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, by *Francis G. Blair, B. S.*
3. The Causal Idea of History, by *Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, by *W. M. Evans, Litt. D.*
5. The School Garden, by *Otis W. Caldwell, Ph. D.*
6. Manual Training, by *Caroline A. Forbes.*
7. The School Library, by *Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, by *E. H. Taylor, B. S.*
9. Reading in the Grades, by *Katharine Gill.*
10. The Relation of the Home and School, by *Charlotte May Slocum.*
11. Bird Study in the Rural School, by *Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), by *Thomas L. Hankinson, B. S.*
13. Physics in the High School, by *Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, by *Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, by *Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, by *Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, by *Isabel McKinney, A. M.*
20. The School Garden II, by *Otis W. Caldwell, Ph. D.*
23. Some Problems in Education, by *John M. Coulter, Ph. D.*
26. Education and Utility, by *W. C. Bagley, Ph. D.*
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), by *Katharine Gill.*
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, by *Alice M. Christiansen.*
37. Views of the Buildings and Grounds.
38. Arguments for Vocational Guidance, by *E. E. Lewis, A. M.*
41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature, by *DeWitt C. Sprague, Ph. B.*

44. Alumni Register, 1900-1913.
46. Material on Geography (which may be obtained free or at small cost), by *Mary Josephine Booth, A. B., B. L. S.*
50. Lists of Material (which may be obtained free or at small cost), by *Mary Josephine Booth, A. B., B. L. S.*
53. Bird Study in the Rural School, by *Thomas L. Hankinson, B. S.*
54. Material on Geography (which may be obtained free or at small cost), Revised Edition, by *Mary Josephine Booth, A. B., B. L. S.*
57. An Outline for the Teaching of Agriculture in the Seventh and Eighth Grades, by *Carl Colvin, B. S.*
58. An Inquiry into the Methods by Which the State Normal Schools Are Controlled, by *Clifford Chesley Hubbard, A. M.*
61. Reading Aloud: War-Time Suggestions, by *John M. Clapp, A. M.*
62. Campus Reflections.
65. New Poetry and the Composition Class, by *Earl R. K. Daniels, A. B.*
66. Training Departments in State Normal Schools in the United States, by *Lester M. Wilson, Ph. D.*
69. Material on Geography (which may be obtained free or at small cost), Second Revised Edition, by *Mary J. Booth, A. B., B. L. S.*
70. Report of the Committee of Fifteen.
73. List of Books for the First Six Grades, by *Mary J. Booth.*
74. Course of Study in English for the First Six Grades, by *Isabel McKinney, A. M.*
77. Alumni Register, 1900-1921.
78. Material on Geography (which may be obtained free or at small cost), Third Revised Edition, by *Mary J. Booth., A. B., B. L. S.*
82. Twenty-fifth Anniversary Letter to Alumni.
85. Teaching Children to Read, by *Anna Holden Morse.*

CORRESPONDENCE

All inquiries should be addressed to the president of the college.

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in the schools.

Former students who wish teaching positions may register their names with the president of the college.

Bulletins published by the college are sent upon request.

STATE OF ILLINOIS
DEPARTMENT OF REGISTRATION AND EDUCATION
THE NORMAL SCHOOL BOARD

EX-OFFICIO MEMBERS

A. M. SHELTON, Director of Registration and Education,
Springfield, *Chairman*

FRANCIS G. BLAIR, *Superintendent of Public Instruction*,
Springfield, *Secretary*

APPOINTED MEMBERS

1921-1927

Sterling P. Curtis, Oakland
Mrs. Martin K. Northam, Evanston
Edgar B. Still, DeKalb

1923-1929

Ernest E. Cole, Chicago
Elmer T. Walker, Macomb
James B. Loebner, Chicago

1925-1931

John C. Allen, Monmouth
Roland E. Bridges, Carbondale
Charles L. Capen, Bloomington

Under the provisions of the Civil Administrative Code for the consolidation of State agencies under the direction of the Governor the five State Normal Schools of Illinois are controlled by a single board consisting of eleven members; the Director of Registration and Education, who is *ex-officio* chairman, the Superintendent of Public Instruction, who is *ex-officio* secretary, and nine members appointed by the Governor for terms of six years.

⁴Spring term only.

PART 1
GENERAL INFORMATION

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickle Plate railroads and is connected with the Illinois Central Railroad at Mattoon by an interurban railway and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were seventeen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1926 one hundred and sixteen students were graduated from the Junior College and seventeen from the Senior College.

During the summer of 1901, a special term of six weeks was established for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer term. A mid-spring term of six weeks has been offered since 1922.

"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which

shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

In 1907, the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

As the institution increased in numbers its facilities gradually became too restricted, and in 1911 the state legislature appropriated seventy-five thousand dollars for a training school building. The training school now enjoys all the advantages of a building designed and equipped for its special use, and the college has opportunity for a more economical organization and an increase of its facilities.

In 1907, the power of conferring degrees was granted to the institution by the state legislature. Courses leading to degrees were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds were laid out by one of the most skillful landscape gardeners in the country, and they are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoological studies. In the adjoining athletic field, one of the best among those of the secondary colleges and normal schools of the state, are the baseball diamond, the football field and the quarter-mile cinder track.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are general classrooms, offices, the library, the assembly room, the music and art rooms, and some of the laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains classrooms and laboratories for home economics and manual arts.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. Nearly all the rooms in the building were taken from the first and the demand for rooms now exceeds its capacity. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For table board, \$5.50 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. This deposit is credited to the student, but

forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, erected in 1927, furnishes excellent facilities for students who wish to specialize in manual arts and home economics for grade and high school positions and for the preparation of teachers in these subjects for the Smith-Hughes' Vocational Schools. Shops are provided for practice in all kinds of hand and machine woodwork, metal machine shop and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a large dining room, a unit kitchen, a foods classroom and teachers' rooms, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

LIBRARY.—The library now contains about 30,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of over one hundred fifty-five periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room, to which all students of the Teachers College and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculums as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden,

a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves, moreover, as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake, and a forest plantation of six thousand trees, all of which are within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped with lights that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoology and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments.

The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

FEES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a term.

A fee of \$5.00 a term for registration and other incidentals is paid by all above the eighth year.

Textbooks are rented to students at a uniform price of \$1.50 a term. Students wishing to own the books may buy them at the textbook library.

A student activity fee of \$2.25 a term, covering athletics, recreation, and The Teachers College News, is paid by all above the eighth year.

A fee of \$5.00 a term is paid for piano or voice lessons. Students pay for materials they use in art, home economics, and manual arts.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration; and an additional fee of \$1.00, if a change in programme is made after the third day of the term.

The original transcript of a student's record, including one carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

BOARD AND ROOM

Board and room can be obtained in private families for from \$6.00 to \$7.50 a week. Students renting rooms and keeping house can materially reduce this amount. Room without board can be obtained for from \$1.50 to \$2.50 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For

table board, \$5.50 a week is charged. Students are not required to furnish anything.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano and voice lessons.

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards when it is possible four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the year 1926-1927, nor will any be made for the year 1927-1928, but the Association hopes to offer these scholarships again for the year, 1928-1929. The receivers of the award are members of the freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English. The award for 1927-1928 goes to Alice Elizabeth Kelly.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida

Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of course and single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Devereux Players, Tony Sarg's Marionettes.

The college has a complete motion picture equipment, which enables the entertainment course to show good motion pictures as a part of the season's programme.

The entertainment course for 1926-1927 was as follows:

September 30—Princess Pat Band.

November 9—Jaroslav Gons, cellist.

December 15—Clara Clemens and Company in "Joan of Arc."

January 13—Russian Cossack Choir.

January 28—Motion Picture—"The Pony Express."

February 11—Motion Picture—"Brown of Harvard."

February 25—Motion Picture—"The Goose Hangs High."

March 18—Motion Picture—"Monsieur Beaucaire."

March 29—Carveth Wells, lecturer and entertainer.

April 1—Motion Picture—"Merton of the Movies."

April 22—Motion Picture—"Coming Through."

April 26 and 27—Mr. Losey in two Shakespeare recitals and two lectures.

May 6—Motion Picture—"Little Annie Rooney."

May 20—Motion Picture—"Dorothy Vernon of Haddon Hall."

DRAMATICS.—In the fall of 1925 a Director of Dramatics was appointed to supervise all dramatic work for public presentation by the school. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The major production of the year for each is the commencement play. Other programmes are presented during the year if suitable talent is available. The ends in view under the new plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.

2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.

3. To encourage familiar acquaintance with the artists of the theatre of all times.

4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—A four-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Mondays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left as a class memorial equipment for a room devoted to the uses of "The News" and the "Warbler." At present a temporary room on the third floor is being used, but when the college has a larger manual arts building these publications hope to have a room adjoining the printing department.

RECREATION.—A committee consisting of five members of the faculty and a student from each Teachers College class has charge of student recreations which are not solely class affairs. The latter are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

TRACK AND FIELD MEET.—The Eastern District High School Meet, under the auspices of the Illinois High School Athletic Association, was held on Schahrer Field on May 14, 1927, taking the place of the Annual Invitation Track and Field Meet under the auspices of the Teachers College.

MUSIC FESTIVAL.—The eighth annual music festival was held on May 10-14, 1927, under the direction of Mr. Friederich Koch and Miss Major. The programme follows:

- I.—May 10, Demonstration of Music, Training School.

- II.—May 11, Concert, "Queen of the Sea," a Cantata by Hummel, Girls' Glee Club.

- III.—May 12, Concert, Quintet from the St. Louis Symphony Orchestra.

IV.—May 13, Concert, College Chorus, Glee Clubs, and Orchestra.

V.—May 14, Music Memory Contest, the School (all divisions).

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee of one dollar is charged each student as part of the students' activities fee. This fee is payable at the beginning of each term. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The teachers of the Teachers College encourage the students to form and sustain intimate relations with the churches.

THE CHRISTIAN ASSOCIATIONS.—The Young Men's and the Young Women's Christian Associations have organizations here in flourishing condition. Committees from the associations meet new students at trains and assist them in finding boarding places. Social gatherings under the auspices of the associations are held during the year.

THE STUDENT COUNCIL.—The Student Council was organized in the spring of 1920 as a means of communication between the faculty and students, and as a permanent organization through which the students might express their point of view on college affairs.

The Council now consists of eleven members: one from each class of the High School, four from the Junior College, and two from the Senior College. The editor of the "Teachers College News" has a seat in the Council, but has not the right to vote. The term of office is one year. Elections take place each term, being so arranged that there is a majority of old members after each election. The constitution provides for a president and any other officer that the Council finds necessary.

The constitution is worded in such a way that the Council may take an increasing part in the control of student affairs.

THE STUDENT BOARD OF CONTROL.—The Student Board of Control was established in the spring term, 1926, by a majority vote of the four college classes for the purpose of maintaining a high standard of student conduct. The Board consists of sixteen members, four from each class, elected for one year by a majority vote of the respective classes at an election held on Wednesday of the fourth week of the fall term.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Mr. Ernest R. Bails, '16 and '20.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day. Returning graduates attend morning exercises at nine o'clock and the alumni dinner in the evening. It is customary to have in the afternoon a ball game between members of the regular team and players on former teams.

The officers of the association are:

Mr. Ralph Roy Adams, '20 and '26, President.

Miss Elsie J. Sloan, '24, Vice-President.

Miss Esther McCrory, '10, Secretary and Treasurer.

Executive Committee

Mr. Max G. Carman, '20.

Miss Mary A. Dwyer, '15.

Mr. Otto I. Schmaelzle, '17.

Miss Leah T. Todd, '16.

Mr. Charles W. Baker, '17.

Standing Committee for Advancing the Interests of the College

Mr. Howard D. Allison, '21 (term expires in 1928)

Miss Florence Sutton, '21 and '23 (term expires in 1929)

Mr. Alonzo F. Goldsmith, '13 and '24 (term expires in 1930)

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions, the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their present location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

By the Illinois certificating law, in force July 1, 1914, and amended in 1919, certificates may be issued to those who have done a required amount of work in a recognized normal school or its equivalent.

A provisional certificate valid for one year may be issued without examination to persons who have completed two years of work in a recognized normal school, or one year of such work if the candidate is a graduate of the tenth grade. A provisional certificate is not renewable and cannot be issued the second time to the same person.

A second grade elementary school certificate, valid for two years in the first eight grades of the common schools of the county and in the ninth and tenth grades when endorsed for the same by the county superintendent, *may at the option of the county superintendent*, be issued without examination to persons who have completed the junior year's work in a recognized normal school or its equivalent. This certificate is renewable on evidence satisfactory to the county superintendent of six months' successful teaching or twelve weeks' professional training, and a second time if in the period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school provided for such training. Graduation from a recognized high school (two-year, three-year, or four-year) or an equivalent preparation is required for admission to the examination for second grade certificate.

A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county and in the high school when endorsed for the same by the county superintendent, *shall be issued* to graduates of a recognized normal school, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching and applies for the certificate within three years after graduation.

A second grade certificate is valid for teaching only. A first grade certificate is valid for supervision in all positions where the principal or superintendent teaches one-half or more of the time.

A high school certificate, valid for three years in the high schools of the county, and renewable indefinitely for periods of three years on evidence satisfactory to the county superintendent of successful teaching or supervision and professional growth has the following requirements: (1) graduation from a recognized high school, or an equivalent preparation; (2) a

certificate showing the completion of at least two years' successful work in any recognized higher institution of learning; and (3) an examination in English, pedagogy, and six high school subjects, three major and three minors, chosen from a list prescribed by the examining board: *Provided, however*, that graduates of a recognized normal school, college, or university may offer within three years after graduation, certified credits in lieu of examination in the above subjects accompanied by faculty recommendation of ability to teach in the high school.

The law contains also provision for supervisory, kindergarten-primary, and special certificates issued by a county superintendent. The Superintendent of Public Instruction is empowered to grant four-year elementary school, high school, and supervisory certificates which shall at the time of their expiration become valid and be endorsed for life upon evidence of successful teaching or supervision satisfactory to the Superintendent of Public Instruction.

A first and second grade elementary school certificate, a high school certificate, a supervisory certificate, a kindergarten-primary certificate, or a special certificate is valid in the county of issue, and in any county of the state when endorsed by the county superintendent of such county, upon evidence of successful teaching, certified by the county superintendent in whose county the teaching has been done.

All certificates, whether state or county, must be annually registered and endorsed, and a fee of one dollar must be paid

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College,

The Junior College,

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

TERMS

The regular college year consists of three terms of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the district. The mid-spring term coincides with the second half of the spring term.

A summer term of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer term of 1928 begins on Saturday June 9, and closes on Friday, August 31. It consists of two half terms of six weeks each, the first half term closing Friday, July 20. Students may attend either half term or both half terms.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the*

Registrar of the Teachers College. This should be done before the date of entering.

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

A bachelor's degree is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. A two-year diploma is granted also in agriculture, art, English, home economics, manual arts, and music. Four-year curriculums prepare teachers for high schools, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each term and on April 15. A statement of the courses necessary for the completion of his work is given to each of these students in the fall term and is used by him in making his programmes for succeeding terms. The list of candidates for graduation is based on the checking of April 15. A student who is not more than four credits behind the class at that time may participate in commencement exercises with the class and receive his diploma at the close of the summer term if he completes the work by that time. It is possible to earn two credits in each half of the summer term.

SCHOLARSHIP

I. Beginning with the college year 1926-1927, grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor	0 grade points
E, Condition	0 grade points
(incomplete work)	
F, Failure	—1 grade point

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work and C average in the rest.

Graduation honors will be noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors will be announced for each term in the month after the beginning of the next regular term; in December for the fall term; in March for the winter term; in October for the spring term and for the preceding year.

The announcement will be made at morning exercises on Saturday morning and will be printed in the next issue of the "Teachers College News."

V. The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of five credits.

VI. A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

VII. A student failing in three courses (three credits) in any term or in one-half of his courses (two credits) in two consecutive terms will be dropped from the college.

VIII. No freshman in a four-year curriculum may register for extra work in his first term.

No sophomore may register for extra work in the first term in which he is taking practice teaching.

No student whose average is below B in the preceding term may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely:

reading, language and grammar, arithmetic, geography, history, drawing, and music.

CURRICULUMS

For graduates of recognized four-year high schools, the following curriculums are offered:

I. Two-Year Curriculums (24 credits each) leading to a diploma:

1. For preparation of teachers for the grades. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year of the work entitles a student to recommendation for a second grade certificate without examination.
2. For preparation of special teachers of agriculture, art, home economics, manual arts, and music. This diploma entitles the holder to a special certificate in one of these subjects and to a first grade certificate. The completion of the first year of work entitles a student to recommendation for a second grade certificate without examination.
3. For the preparation of teachers of English in the seventh, eighth, and ninth grades and in junior high schools. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year's work entitles him to recommendation for a second grade certificate without examination.

II. Four-Year Curriculums (48 credits each) for preparation of the following:

1. Primary Teachers.
2. _____
3. Grammar Grade Teachers, High School Teachers, and Teachers of Special Subjects:

A. _____	G. Home Economics
B. Art and Design	H. Manual Arts
C. English	I. Mathematics
D. Foreign Language	J. _____
E. Geography	K. Science, (Biological)
F. History	L. Science (Physical)

In the four-year curriculums, the college has followed these principles:

1. Since the science and art of education should be emphasized in a *teachers* college, the student in every term of every year has one course in education (including psychology and practice teaching).

2. Since scholarship should be of high importance in a teachers *college*, a student receiving a degree should have attained some proficiency in a chosen branch of knowledge; therefore, in every term of every year, he has a course in the major subject of his choice.

3. Since no graduate of *any* college should be narrow in his education, every student elects another subject which he must continue for two years and also elects two more years of work in other subjects.

4. Since a teacher should have a good degree of scholarship in the English language, every student has two years' work in college English.

5. Since a teacher should view intelligently the material and social world, every student has one year's work in a laboratory science, and one in social science, hygiene, and public sanitation.

CREDIT

A *credit* is a term's work in a subject requiring preparation and reciting four periods ("hours") a week. A period ("hour") is fifty minutes. College classes do not regularly meet on Tuesdays, at 11:20; on Wednesdays, at 9:30; on Thursdays, at 10:25; on Fridays, at 7:25 and 8:10; on Saturdays in the afternoon. College chemistry requires three double periods and two single periods a week. Other sciences require six periods a week. Art, manual arts, and home economics courses, not requiring preparation require eight periods a week for a credit; the four-period courses are half credit courses and two are required therefore for a credit. A statement of the amount of credit is included in the description of each course. No credit toward graduation is given for fewer than three credits in piano or voice work; or in the *first year's* work in a foreign language; or for fewer than one and a half credits in the *first year's* work in elective art, home economics, manual arts, physical education.

Physical education, the use of the library, and penmanship are required in all curriculums, but are not a part of the total number of credits.

NUMBERING OF COURSES

Courses numbered 1-18 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the College.

MAJOR AND MINOR SUBJECTS

In four-year curriculums for graduates of four-year high schools, a student in a special curriculum takes twelve credits of work in a major subject and six in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, the only restriction being that they shall constitute two years' work in some one department and that the courses chosen shall be satisfactory to that department. Students will consult the department of the major subject as to choice of minor subjects and of electives.

ELECTIVES

There are three groups of electives: one for those in the Senior College, numbered 40 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the college. Students will consult the department of the major subject as to choice of electives and of minor subject.

DESCRIPTION OF CURRICULUMS

I. TWO-YEAR CURRICULUMS

24 Credits

1. FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Psychology 20, 21, 22	Reading 24
English 20, 21, 27, or 24 or 22	Drawing 24
Arithmetic 20, 21	Library 20
Botany 20 or Zoology 20	Physical Education
Geography 20	

SOPHOMORE YEAR

Education 20, 21	Geography 21 and an elec- tive or English 23 and
Teaching 20, 21, 22	Education 24
History 20, 21	Hygiene 20
Music 24	Physical Education
Manual Arts 24 or 25	

Notes: 1. The completion of the work of the freshman year entitles the student to recommendation for a second grade certificate without examination. The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a first grade certificate.

2. A credit is the amount of work done in a prepared subject reciting four periods a week for a term of twelve weeks.

3. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parentheses; but laboratory sciences have six or eight fifty-minute periods; art, manual arts, and home economics require eight periods a week for full credit.

4. Students who have had a year of geography in the Teachers College High School substitute elective credits for Geography 20, 21; but may take Geography 20 for elective credit. Students who are graduates of the Teachers College High School substitute an elective credit for Botany 20 or Zoology 20. Those who have not had in high school a year of botany or zoology with laboratory work are advised to take a second term of biology. This second term counts as an elective credit.

5. Physiology 20 or the equivalent is prerequisite to Hygiene 20. A student who has not had the prerequisite may take Physiology 20 and count it as elective.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year. In the ninth grade and above the fees regularly charged Teachers College students are paid.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the Freshman class of the College.

High School Music (1)

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teachers their plans for teaching the different subjects, do enough of the teaching to keep

the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in methods of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

In the seventh, eighth, and ninth grades, each of the teachers has department work in the three grades. A training teacher for history has charge of that work in grades five to eight inclusive. A training teacher for music has charge of the music in grades one to eight. A training teacher for drawing has charge of the drawing in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two terms of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first term the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second term, in the group of grades not chosen for the first term; and the third term, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first term the student makes plans for teach-

ing the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking the four-year course take one term of practice teaching in the Elementary School in their second year. Two terms of teaching, one in their major subject and one in their major or minor subject, are required of them in the Senior College. The College High School is the Training School for those who are preparing to teach in high schools.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

SENIOR COLLEGE

JUNIOR COLLEGE

HIGH SCHOOL

DESCRIPTION OF COURSES

AGRICULTURE

High School

Students enrolled in high school agriculture are required to do a special problem relating to the course at home or in the laboratory. Field trips to neighboring farms and to experiment fields are required.

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One credit. Fall term, even years.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One credit. Winter term, even years.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One credit. Spring term, even years.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One credit. Fall term, odd years.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One credit. Winter term, odd years.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One credit. Spring term, odd years.

Junior College

24. GENETICS. This is an introductory course in genetics. Emphasis is laid upon the application of genetic principles to the improvement of plants and animals. Consideration is given to some of the old theories of breeding, the physical basis of

heredity, Mendel's law and apparent exceptions thereto, pure line breeding, crossing, and grading.

Four hours a week. One credit. Summer term.

30. AGRONOMY. Farm crops. Requirements and cultural methods. Control of insect, weed, and disease enemies. Wheat, oats, alfalfa, and corn. Legumes, roots, and potato crop.

Four hours a week. One credit. Fall term, even years.

31. ELEMENTARY SOIL AND PLANT STUDIES.

Four hours a week. One credit. Winter term, even years.

32. HORTICULTURE. The farm garden. Study of the principles of gardening. Planting and care of the vegetable garden.

Four hours a week. One credit. Spring term, even years.

33. ANIMAL HUSBANDRY. Principles of livestock judging. Types and breeds of horses, beef cattle, sheep, and swine. Problems in production and marketing of livestock.

Four hours a week. One credit. Fall term, odd years.

34. ANIMAL HUSBANDRY. Principles of feeding. Classification of feed stuffs and nutrients. Feeding standards. Balanced rations. Compounding rations for common farm animals.

Four hours a week. One credit. Winter term, odd years.

37. DAIRY FARMING. Breeds, selection, management and housing of dairy cattle. Short history of development. Common ailments and their treatment. Milk and its products. Conditions affecting development. Systems, renting, cost of production, and methods of marketing.

Four hours a week. One credit. Spring term, odd years.

39. AGRICULTURAL EXTENSION. This course is planned primarily to meet the needs of country school teachers. It deals with the institutions of the country—school, home, and church. Surveys, projects, and suggestions for supervisors, superintendents, and directors.

Four hours a week. One credit. Summer term.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. Three

credits. Art 1, fall term, Art 2, winter term, Art 3, spring term.

College

20, 21, 22. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the two-year curriculum in art. Five hours a week. Three credits. Fall, winter, and spring terms.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. One credit. Every term.

25. METHOD IN DRAWING, GRADES I-IV. The course includes a discussion of the value of art education; its relation to other subjects and to industries; methods of teaching drawing in the lower grades; the ordering of supplies; the planning of lessons.

Four hours a week. One credit. Spring term, odd years.

26. METHOD IN DRAWING, Grades V-VIII. A study of the subject matter to be taught in the upper grades.

Four hours a week. One credit. Fall term.

27. HISTORY OF ORNAMENT.

Four hours a week. One credit. Winter term, even years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. One credit. Spring term, even years.

29. HISTORY OF ARCHITECTURE.

Four hours a week. One credit. Winter term, odd years.

30. LETTERING. A study of lettering for commercial and educational uses and for application to book-making, bulletins, advertising, and posters.

Eight hours a week. One credit. Fall term.

31. REPRESENTATION. The essentials of perspective and application to still life groups in charcoal, crayon, and ink.

Eight hours a week. One credit. Winter term.

32. DESIGN I. A study of the principles of design, color, and decorative applications; a training of the inventive faculty, basic to creative work. "Art in Every Day Life" by Goldstein is the text used.

Eight hours a week. One credit. Spring term.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. One credit. Fall term.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. One credit. Winter term.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. One credit. Spring term.

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in high school.

Four hours a week. One credit. Fall term.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. One credit. Winter term.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. One credit. Spring term.

43. STILL LIFE. Studies in charcoal, water color, and oil.

Eight hours a week. One credit. Fall term, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. One credit. Winter term, even years.

45. COMPOSITION. Pictorial and illustrative arrangement in line and color.

Eight hours a week. One credit. Spring term, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours a week. Two credits. Fall and winter terms, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. One credit. Spring term, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. One credit. Omitted 1927-1928, accepted, when offered, for Course 48.

EDUCATION, PSYCHOLOGY, TEACHING

EDUCATION

College

20. PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching and the school management course which follows.

Four hours a week. One credit. Fall, winter, and spring terms.

21. SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily programme, discipline, and the technique of teaching are discussed.

Four hours a week. One credit. Every term.

24. PRIMARY EDUCATION. The course deals with reading, number, dramatization, story telling, games and other activities belonging to a primary school.

Four hours a week. One credit. Spring term.

25. PRIMARY DRAWING AND HANDWORK.

Required in the second year of the curriculum for preparation of primary teachers and accepted for Manual Arts 24. Four hours a week. One credit. Omitted 1927-1928.

26. CHILD PHYSIOLOGY.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. One credit. Omitted 1927-1928.

27. FOLK GAMES AND PRIMARY MUSIC.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. One credit. Omitted 1927-1928.

40P. PRIMARY GRADE SUPERVISION.

Required in the curriculum for preparation of primary teachers. Four hours a week. One credit. Fall term.

45. See Psychology 45.

47. PHILOSOPHY OF EDUCATION.

Required in the junior year unless Psychology 47 is offered. Four hours a week. One credit. Winter term, even years, alternating with Psychology 47.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high school principal in organizing and administering schools. School law and finance as well as current educational problems will receive attention in this course.

Required in the junior year unless Psychology 44 is offered. Four hours a week. One credit. Fall term, even years, and summer term.

58. HISTORY OF INDUSTRIAL EDUCATION.

Required in the junior year of the curriculums in home economics and manual arts. Four hours a week. One credit. Spring term.

PSYCHOLOGY

College

20, 21, 22. INTRODUCTION TO PSYCHOLOGY. This course is intended to serve a double purpose: (a) to present the general facts concerning mental process, (b) to show the application of these facts to problems of learning and teaching. The general background is presented in the first two terms of work (Psychology 20 and 21) and includes a consideration of the following topics: the physiological basis of mental processes, the accumulation of experience by means of the sense organs; the development of perceptions, ideas, and concepts; the association of ideas; memory; imagination; reasoning; attention; instinct; feeling; emotion; will. The second purpose of the course is carried out by a discussion of the laws of learning as they are applied in the common branches; and by a series of observations in the Training School, followed by class discussion of the psychological principles involved.

Required in the freshman year. Four hours a week. Three credits. Psychology 20, fall, winter, and summer terms; Psychology 21, winter, spring, and summer terms. Psychology 22, spring and summer terms.

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurements of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Required. Four hours a week. One credit. Fall term, odd years, alternating with Education 48.

45. THE PSYCHOLOGY OF SECONDARY EDUCATION. The purpose of this course is to trace the psychological principles which are basic to the teaching of high school subjects. General types of learning are discussed, such as; motor learning, association learning, problem-solving, habit-formation. High school subjects are analyzed and the relations of the general types of

learning to particular subjects are pointed out. The general organization of the high school as it is determined by the nature of the adolescent student is touched upon.

Required. Four hours a week. One credit. Spring term.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. *Omitted 1927-1928.*

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups, such as the mob, the gang, clubs, classes, sects, nations, are studied with reference to their bearing upon education.

Required in the junior year unless Education 47 is offered. Four hours a week. One credit. Winter term, odd years, alternating with Education 47.

TEACHING

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curriculums. Five hours a week. One credit. Fall, winter, and spring terms.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. One credit for each course. Fall, winter, and spring terms.

30, 31, 32. Practice teaching may be elected in the second year of the two-year curriculum if permission is obtained.

Elective in the second year of the two-year curriculum. Five hours a week. Three credits, one each for Course 30, Course 31, Course 32. Fall, winter, and spring terms.

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two terms of practice teaching are required in the Senior College. At least one of these terms must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College in all curriculums; and substituted for Social Science 21 and Hygiene 20 by those who wish a two-year diploma in agriculture, art, home economics, manual arts or music. Two credits. Five hours a week. Fall, winter, and spring terms.

41 P, 42 P, 43 P. PRACTICE TEACHING IN PRIMARY GRADES.

Required in the Senior College in the curriculum for preparation of primary teachers. Five hours a week. Three credits. Fall, winter, and spring terms.

41 I, 42 I, 43 I. PRACTICE TEACHING IN INTERMEDIATE GRADES.

Required in the Senior College in the curriculum for preparation of intermediate teachers. Five hours a week. Three credits. Omitted 1927-1928.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. Three credits. English 1, fall term; English 2, winter term; English 3, spring term.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. Three credits. English 4, fall term; English 5, winter term; English 6, spring term.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, 3, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. Three credits. Course 7, fall term; Course 8, winter term; Course 9, spring term.

10, 11, 12 A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional

high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. Three credits. No credit for less than the year's work. English 10, fall term; English 11, winter term; English 12, spring term.

College

19. USAGE. Drill in the fundamentals of good form, oral and written.

Required of those whose work in English 20 is below standard, or whose work at any time in any subject shows that further drill is necessary. Four hours a week. Credit only toward removing conditions. Fall and winter terms.

20. COMPOSITION. A practical course, stressing the planning, outlining, and development of short units, analysis of well-written material, the sentence, and fundamentals of good form in speech and writing.

Required in the freshman year in all curriculums. Four hours a week. One credit. Every term.

21. COMPOSITION. A continuation of English 20, mostly concerned with clear exposition; larger units; some rhetorical theory.

Prerequisite: English 20. Required in the freshman year in all curriculums. Four hours a week. One credit. Winter, spring, and summer terms.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless Course 24 is taken; elective in any curriculum. Four hours a week. One credit. Spring and summer terms.

23. LITERATURE AND STORY-TELLING, Grades I-IV.

The study of stories suitable for telling to children; practice in selecting, adapting, and telling stories before the class.

Required in the second year of the curriculum for preparation of teachers for primary grades. Elective in any curriculum. Four hours a week. One credit. Spring term.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, and methods of teaching. This course

is especially recommended to students interested in intermediate, or upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless Course 22 is taken) and may be substituted for English 25 by students in a four-year curriculum with English as the major subject; elective in any curriculum. Four hours a week. One credit. Spring and summer terms.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in all special two-year curriculums and in the four-year curriculum. Elective in any curriculum. Four hours a week. One credit. Spring term.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

two-year curriculums and in the four-year curriculums. Elective in other curriculums. Four hours a week. One credit. Winter, mid-spring, and summer terms.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Required in the two-year English curriculum; elective in other curriculums; and alternative with English 22. Four hours a week. One credit. Spring term.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to 31. Four hours a week. Two credits. Course 30, fall term; Course 31, winter term.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Prerequisite: English 30, 31. Four hours a week. One credit. Spring term.

35. GREEK DRAMA. Origins and development of classical drama: Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. One credit. Fall term.

36. SHAKESPEARE. A study of the most important plays, with some attention to the beginning and development of English drama.

Four hours a week. One credit. Winter term.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. One credit. Spring term.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required of those whose major subject is English. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. Course 41, one credit; Course 42, one credit. Course 41, winter term; Course 42, spring term.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Fall and summer terms.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research, and opportunity for original work.

Prerequisite: Junior College required English. Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Winter term.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Spring and summer terms.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art.

Required in the English curriculum; elective in others. Four hours a week. Course 46, one credit; Course 47, one credit; Course 48, one credit. Fall, winter, and spring terms.

49, 50. MODERN PROSE. The essay and the short story. *Four hours a week. Two credits. Fall and winter terms.*

51. HISTORY OF THE ENGLISH LANGUAGE AND ADVANCED GRAMMAR. *Four hours a week. One credit. Spring term.*

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. The Phonetic Chardenal. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre.* Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. Three credits. French 1, fall term; French 2, winter term; French 3, spring term.

4, 5, 6. SECOND YEAR FRENCH. The Phonetic Chardenal. *L'Abbe Constantin. Le Voyage de M. Perrichon. Colomba.* Sight reading; conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. Three credits. French 4, fall term; French 5, winter term; French 6, spring term.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Three credits; no credit toward graduation for less than a year's work. Course 30, fall term; Course 31, winter term; Course 32, spring term.

33, 34, 35. ADVANCED FRENCH. Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Three credits. French 33, fall term; French 34, winter term; French 35, spring term, even years.

36, 37, 38. ADVANCED FRENCH. Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: One year of college French. Elective. Four hours a week. Three credits. French 36, fall term; French 37, winter term; French 38, spring term, odd years.

GERMAN

College

30, 31, 32. FIRST YEAR GERMAN.

Elective. Four hours a week. Three credits; no credit toward graduation for less than a year's work. German 30, fall term; German 31, winter term; German 32, spring term.

LATIN

High School

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. Elective. Five hours a week. Three credits. Latin 1, fall term; Latin 2, winter term; Latin 3, spring term.

4, 5, 6. SECOND YEAR LATIN. Caesar, Books I-IV with selections from the other books. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. Three credits. Latin 4, fall term; Latin 5, winter term; Latin 6, spring term.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. Three credits. Fall, winter, and spring terms, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI. Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. Three credits. Fall, winter, and spring terms, odd years.

College

30. Livy, Selections from Books I, XXI, and XXII.

Prerequisite: Four years of elementary Latin. Four hours a week. One credit. Fall term.

31. Cicero, De Amicitia, De Senectute, and De Officiis.

Prerequisite: Course 30. Four hours a week. One credit. Winter term.

32. Horace, Odes and Epodes.

Prerequisite: Course 31. Four hours a week. One credit. Spring term.

33. Virgil, Aeneid, Books VII-XII.

Prerequisite: Four years of elementary Latin. Four hours a week. One credit. Omitted 1927-1928.

34. Horace, Satires and Epistles.

Prerequisite: Course 33. Four hours a week. One credit. Omitted 1927-1928.

35. Plautus, Menaechmi, Mostellaria, and Captivi.

Prerequisite: Course 34. Four hours a week. One credit. Omitted 1927-1928.

40. The Teaching of Latin.

Prerequisite: Three years of college Latin. Four hours a week. One credit. Fall term.

41, 42. Practice Teaching in Latin.

Prerequisite: Latin 40. Five hours a week. Two credits. Winter and spring terms.

43. Ovid, Metamorphoses.

Four hours a week. One credit. Omitted 1927-1928.

44. Pliny, Letters.

Four hours a week. One credit. Omitted 1927-1928.

45. Latin Writing.

Four hours a week. One credit. Omitted 1927-1928.

46. Tacitus, Germania, Agricola, and selections from the annals and histories.

Four hours a week. One credit. Omitted 1927-1928.

47. Latin Poetry. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. One credit. Omitted 1927-1928.

48. Latin Drama. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. One credit. Omitted 1927-1928.

GEOGRAPHY

High School

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One credit. Fall and summer terms.

2. PHYSIOGRAPHY. A continuation of Course 1, taking up mathematical geography, a study of atmosphere and climate.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One credit. Winter and summer terms.

3. COMMERCIAL GEOGRAPHY.

Prerequisite: Course 2. Elective in the eleventh or twelfth year. Five hours a week. One credit. Spring term.

College

20. PRINCIPLES OF HUMAN GEOGRAPHY.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in Curriculums II, 1, and II, 2, of those who have not had Courses 1 and 2. Elective for all others. Four hours a week. One credit. Every term.

21. CLIMATOLOGY. A study of climate and its influence upon forms and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in Curriculum II, 2, who have not had Courses 1, 2, and 3 and who do not take Education 24. Elective for all others. Four hours a week. One credit. Every term.

22. GEOGRAPHY FOR THE GRADES. A course suggesting methods and devices for presenting the subject matter of geography to the grades. Stress is laid on the study of one or two of the continents for illustration and problems.

Required in Curriculum II, 2. Four hours a week. One credit. Omitted 1927-1928.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. One credit. Fall term, even years.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. One credit. Winter term, even years.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Elective. Four hours a week. One credit. Spring term, even years.

33. GEOGRAPHY OF ASIA.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Fall term, odd years.

34. AFRICA AND AUSTRALIA.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Winter term, odd years.

35. TROPICAL AMERICA.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Spring term, odd years.

36. GEOLOGY.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. One credit. Fall term.

HISTORY, SOCIOLOGY, GOVERNMENT,
AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.
Elective in the tenth year. Five hours a week. One credit. Fall term.

2. THE GREEKS AND GREEK CIVILIZATION.
Elective in the tenth year. Five hours a week. One credit. Winter term.

3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN INVASIONS.
Elective in the tenth year. Five hours a week. One credit. Spring term.

4. THE HISTORY OF ENGLAND TO 1400.
Required in the eleventh year. Five hours a week. One credit. Fall term.

5. THE HISTORY OF ENGLAND, 1400-1715.
Required in the eleventh year. Five hours a week. One credit. Winter term.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1715 TO THE PRESENT.
Required in the eleventh year. Five hours a week. One credit. Spring term.

7. AMERICAN HISTORY TO 1800.
Elective in the twelfth year. Five hours a week. One credit. Fall term.

8. THE HISTORY OF THE UNITED STATES, 1800-1865.
Elective in the twelfth year. Five hours a week. One credit. Winter term.

9. THE HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.
Elective in the twelfth year. Five hours a week. One credit. Spring term.

College

The requirement of History 20, 21 and also of social science in the Junior College may be fulfilled by selecting any two consecutive terms of either European or American history; of History 20, 21, 22, three consecutive terms.

30. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. One credit. Fall term.

31. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. One credit. Winter term.

32. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. One credit. Spring term.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1800.

Four hours a week. One credit. Fall term.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1800-1865.

Four hours a week. One credit. Winter term.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Four hours a week. One credit. Spring term.

36. GOVERNMENT AND ILLINOIS HISTORY.

Four hours a week. One credit. Summer term.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. One credit. Fall term.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. One credit. Winter term.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. One credit. Spring term.

40. THE TEACHING OF HISTORY.

Required. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HISTORY.

Required. Five hours a week. One credit. Course 41, winter term; Course 42, spring term.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Three credits. Every year.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Three credits. Every year.

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One credit. Fall term.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One half credit. First half of the winter term.

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. One credit. Fall term.

44. THE NATIONAL GOVERNMENT.

Four hours a week. One credit. Winter term.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. One credit.

Spring term.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter term, and Economics 2, spring term, complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One and one-half credits.

Economics 1a, second half of the winter term; Economics 2, spring term.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the two-year curriculum in Manual Arts. Four hours a week. One credit. Winter term.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. One credit. Fall term.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. One credit. Winter term.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. One credit. Spring term.

HOME ECONOMICS

High School

I. DOMESTIC ART

4. ELEMENTARY TEXTILE STUDY. Discussion of materials as to cost, widths, wearing qualities, and adaptation to various garments. Pattern drafting, making of simple cotton garments. Use of sewing machine. Pressing and folding of garments.

Elective. Ten hours a week. One credit. Fall term.

5. SEWING. Study of commercial pattern, testing and altering. Making of garments requiring fine handsewing and machine sewing. Care and repair of clothing.

Prerequisite: Domestic Art 4. Elective. Ten hours a week. One credit. Winter term.

6. CLOTHING SELECTION. Study of clothing budget. Elementary costume design and principles of clothing selection. Planning the high school girls' wardrobe. Making of simple dresses of cotton, wool, and silk.

Prerequisite: Domestic Art 5. Elective. Ten hours a week. One credit. Spring term.

II. DOMESTIC SCIENCE

4. FOOD STUDY. Preservation of foods. Classification, selection, and preparation of foods. Classification and study of cooking processes.

Elective. Ten hours a week. One credit. Fall term.

5. FOODS. Principles involved in preparation of all classes of foods. Experiments. Food study continued.

Prerequisite: Domestic Science 4. Elective. Ten hours a week. One credit. Winter term.

6. THE PREPARATION AND SERVING OF MEALS. Marketing. Menu planning. Study of the cost of meals and of the food budget. Meal planning and table service.

Prerequisite: Domestic Science 5. Elective. Ten hours a week. One credit. Spring term.

College

Note: The four-year curriculum in home economics (See Curriculum II. 3. G) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. DOMESTIC ART

30. TEXTILES.

Prerequisite: Art 30, 31, 32 unless the student is taking Art 30, 31, 32. Eight hours a week. One credit. Summer and fall terms.

31. CLOTHING I.

Prerequisite: Course 30. Eight hours a week. One credit. Winter term.

32. GARMENT MAKING.

Prerequisite: Course 31. Eight hours a week. One credit. Spring term.

33. COSTUME DESIGN.

Prerequisite: Course 32. Eight hours a week. One credit. Fall term, odd years.

34. CLOTHING II.

Prerequisite: Course 33. *Eight hours a week. One credit. Winter term, odd years.*

35. ADVANCED DRESSMAKING AND MILLINERY.

Prerequisite: Course 34. *Eight hours a week. One credit. Spring term, odd years.*

II. DOMESTIC SCIENCE

30. FOOD STUDY.

Prerequisite: Chemistry 30, 31, 32 unless the student is taking Chemistry 30. *Eight hours a week. One credit. Fall term, odd years.*

31. FOODS I.

Prerequisite: Course 30. *Eight hours a week. One credit. Winter term, odd years.*

32. FOODS II.

Prerequisite: Course 31. *Eight hours a week. One credit. Spring term, odd years.*

33. EXPERIMENTAL COOKING.

Prerequisite: Course 32. *Eight hours a week. One credit. Fall term, even years.*

34. DIETETICS.

Prerequisite: Course 33 and Chemistry 33, 34, 35 unless the student is registered for Chemistry 33, 34, 35. *Eight hours a week. One credit. Winter term, even years.*

35. MEAL PLANNING AND TABLE SERVICE.

Prerequisite: Course 33. *Eight hours a week. One credit. Spring term, even years.*

III. HOME ECONOMICS

20, 21, 22. PRACTICE TEACHING IN HOME ECONOMICS.

Required in the sophomore year of the two-year curriculum in home economics. Five hours a week. Three credits. Fall, winter, and spring terms.

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Senior standing in the home economics curriculum. *Four hours a week. One credit. Fall term.*

41, 42. PRACTICE TEACHING IN HIGH SCHOOL HOME ECONOMICS.

Prerequisite: Home Economics 40. *Five hours a week. Two credits. Winter and spring terms.*

Note: Candidates for the degree in the four-year curriculum in home economics regularly take one course in the teaching of high school domestic art and one in the teaching of high school domestic science.

43. HOUSEHOLD PHYSICS. See Manual Arts 39.

44. HOUSE PLANNING AND FURNISHING. Art 44 is accepted as a substitute for Home Economics 44.

Prerequisite: Junior standing in the home economics or art curriculum. Eight hours a week. One credit. Winter term, even years.

45. HOUSEHOLD MANAGEMENT.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. One credit. Spring term.

46. HOME NURSING AND CHILD CARE.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. One credit. Spring term.

47. INDUSTRIAL HISTORY. See Manual Arts 58.

Prerequisite: Junior standing in the home economics or manual arts curriculum. Four hours a week. One credit. Spring term.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall and winter terms.

20. THE USE OF THE LIBRARY.

Freshmen who have completed Library XI are excused from all but the last four lessons of Library 20.

Required in the spring term of the freshman year. One hour a week. Every term except the second summer term.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One half credit. Fall term.

2. MECHANICAL DRAWING. A continuation of Manual

Arts 1. Seven plates are considered a term's work. Two and three view working drawings will be the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One half credit. Winter term.

3. MECHANICAL DRAWING. Eight plates are required this term. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One half credit. Spring term.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools will be given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One half credit. Fall term.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One half credit. Winter term.

6. WOODWORK. The jointer plane is studied and a piece of furniture may be developed in which the surface is built up by the use of this tool. Household repair is emphasized. Broken furniture may be brought from home and mended in the school shop.

Elective. Five hours a week. One half credit. Spring term.

7. MACHINE WOODWORK. Beginning machine woodwork-ing processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Course 3 and Course 6. Elective. Ten hours a week. One credit. Fall term.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Course 7. Elective. Ten hours a week. One credit. Winter term.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter term is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Course 7. Elective. Ten hours a week. One credit. Spring term.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20, 21, 22. PRACTICE TEACHING IN MANUAL ARTS.

Required in the sophomore year in the two-year curriculum in Manual Arts. Five hours a week. Three credits.

23. THE TEACHING OF MANUAL ARTS.

Required in the two-year curriculum in Manual Arts. Four hours a week. One credit. Winter term.

24. PRIMARY GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Manual Arts 25 or Education 25 is taken; required also in the four-year primary and art curriculums. Four hours a week with outside work. One credit. Winter term.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Course 24 is offered; required also in the four-year curriculum for preparation of teachers of the intermediate grades. Four hours a week with outside work. One credit. Fall and spring terms.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Manual Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. One half credit. Fall and summer terms.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Course 31, one half credit; Course 32, one half credit. Course 31, winter term; Course 32, spring term; both courses, summer term.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures,

demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Four hours a week. One half credit. Fall and summer terms.

34, 35. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33; also Course 34 to Course 35. Four hours a week. Course 34, one half credit; Course 35, one half credit. Course 34, winter term; Course 35, spring term.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. Two credits. Winter, spring, and summer terms.

39. HOUSEHOLD MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists in the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers. Required of all students majoring in Manual Arts. A valuable course for home economics students.

Eight hours a week. One credit. Fall and summer terms.

40. THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS.

Prerequisite: Senior standing in the industrial arts curriculum. Four hours a week. One credit. Omitted 1927-1928.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Five hours a week. Two credits. Omitted 1927-1928.

43. SHEET METAL WORK.

Eight hours a week. One credit. Fall term.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. One credit. Spring term.

46. PATTERN MAKING.

Eight hours a week. One credit. Fall term.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. One credit. Fall and winter terms.

48. MACHINE SHOP.

Eight hours a week. One credit. Every term.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. One half credit for each course.

Every term.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. One half credit for each course.

Every term.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. One credit. Winter and spring terms.

54. ADVANCED MACHINE SHOP.

Eight hours a week. One credit. Every term.

55, 56. CARPENTRY.

Eight hours a week. Two credits. Carpentry 55, winter term; Carpentry 56, spring term.

57. AUTOMOBILE REPAIR II.

Eight hours a week. One credit. Spring term.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. One credit. Spring term.

59, 60, 61. PRINTING I, II, AND III.

Eight hours a week. One credit for each course. Printing I, every term; Printing II, winter and spring terms; Printing III, spring term.

MATHEMATICS

High School

1. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One credit. Fall and summer terms.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs;

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One credit. Winter and summer terms.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One credit. Spring and summer terms.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One credit. Fall term.

5. GEOMETRY 2. Chapters V, VI, VII, and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One credit. Winter term.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One credit. Spring term.

7. SOLID GEOMETRY 4, Chapters XII-XVI.

Prerequisite: Geometry 3. Five hours a week. One credit. Fall and summer terms.

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One credit. Winter term.

9. ALGEBRA 5. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 4. Elective. Five hours a week. One credit. Spring term.

College

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. One credit. Every term including the summer term.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and

proportion, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. One credit. Winter, spring, and summer terms.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Prerequisite: One year of high school algebra and plane geometry. Required of those whose major subject is mathematics and who have had solid geometry in high school. Four hours a week. One credit. Fall term.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and developments, and conic sections.

Students take Manual Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two terms. One credit for Manual Arts 30 and 31. Fall, winter, and summer terms.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Geometry 28 instead of Geometry 30.

Prerequisite: Geometry 3. Four hours a week. One credit. Fall term.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. One credit. Fall term.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. One credit. Winter term.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. One credit. Fall and summer terms.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Four hours a week. One credit. Winter term.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Course 34. Four hours a week. One credit. Spring term.

36. ALGEBRA. Theory of equations including elementary transformations, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. One credit. Spring term.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Two credits. Winter and spring terms.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Three credits. Course 43, fall term; Course 44, winter term; Course 45, spring term.

MUSIC

Musical Organizations

THE COLLEGE CHORUS. This chorus is composed of one hundred fifty or two hundred students who meet at half past nine on Wednesdays to learn something about correct singing habits and to study choral numbers for a concert which is a part of the annual music festival.

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the College year, College men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE GIRLS' GLEE CLUB. This club is open to all College girls. There is one rehearsal a week. The club gives an annual concert.

THE COLLEGE ORCHESTRA. The orchestra consists of eighteen or twenty pieces. It rehearses once a week and plays at

morning exercises occasionally, as well as at other public gatherings.

High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes preparation.

Elective in the tenth, eleventh, or twelfth years. Five hours a week. Three credits (no credit for less than the whole year's work).

Public School Music

20, 21, 22, PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: II Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Three credits. Fall, winter, and spring terms.

24. PUBLIC SCHOOL MUSIC. This course is offered in two sections: Section I, Elementary Sight Singing. Students who have had no musical training in the elementary or high school should enroll in this section. Students completing only the work of this section are not recommended for positions requiring music teaching.

Section II, Sight Singing and Lower Grade Methods. Syllable singing of one and two-part songs in both modes, using intermediate tones and fairly complicated rhythmic combinations. The second six weeks is devoted to the study of methods of teaching public school music in the first six grades with observation in the Training School. Students completing Section II of Music 24 with a grade of A or B are recommended for music teaching in the lower grades and may take practice teaching in music in the Training School.

Prerequisite: The equivalent of Section I of Music 24 or examination by the instructor before enrollment.

Required (either Section I or Section II) in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. One credit. Fall and winter terms.

33. SIGHT SINGING AND ELEMENTARY THEORY. Two, three, and four-part singing. Major, minor, and chromatic scales with some original composition.

Prerequisite: Section II of Music 24 (or the equivalent). Four hours a week. One credit. Winter term.

34. PRIMARY MUSIC METHODS. The teaching of rote songs. How to help monotones. The development and care of the child voice. Repertoire of children's songs. The work of the first three grades is studied intensively.

Four hours a week. One credit. Spring and summer terms.

35. UPPER GRADE METHODS. Methods of teaching sight singing, music appreciation, and original composition in grades four to eight inclusive.

Prerequisite: Music 34. Four hours a week. One credit. Fall and summer terms.

36. ELEMENTARY HARMONY. This course includes a review of scales. Intervals; triads; simple four-part writing.

Four hours a week. One credit. Winter term.

37. MUSIC APPRECIATION. The course aims to acquaint the student with some of the best music—piano, vocal, and orchestral. It is organized around the study of the varying forms into which musical compositions are cast from the folk song to the symphony. While some knowledge of music is an advantage to members of the class, such knowledge is not a prerequisite.

Four hours a week. One credit. Spring term.

INSTRUMENTAL MUSIC

I. PIANO

In beginning classes in piano, from two to four pupils are admitted to one hour lessons in each class, while only two pupils receive instruction at the same time in the more advanced classes.

College

30, 31, 32. PIANO, FIRST YEAR. The course has to do with hand culture, touch, notation, rhythm, and ear training.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32 or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

43, 44, 45. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

46, 47, 48. PIANO, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

II. VIOLIN

Omitted 1927-1928.

VOICE TRAINING

Special stress is laid on correct breathing, correct placing of the singing and speaking voice, distinct enunciation and artistic interpretation, development and control of the emotional faculties, physical and mental development, tone quality and registers.

College

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

43, 44, 45. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

46, 47, 48. VOICE TRAINING, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon black-board writing.

Four hours a week. One-fourth of a credit. Summer term.

24. This course gives a more extended study of penmanship and methods of teaching it in the grades.

Required in Curriculum II, 2. Four hours a week with preparation. One credit. Omitted 1927-1928.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required of first year students in all curriculums. Two hours a week. Every term.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required of second year students in all curriculums. Two hours a week. Every term.

College

First Year's Work. See above.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

Football:	Basketball:	Baseball:
Practice (8 hours a week)	Practice (6)	Practice (8)
Theory (1 hour a week)	Theory (1)	Theory (1)
Gymnastics:	Gymnastics:	Track:
Practice (2 hours a week)	Practice (2)	Practice (4)
	Theory (1)	

Elective. Three credits. No credit toward graduation for less than a full year's work. One-fourth of a credit for each term of theory work to which one hour a week is given. Fall, winter, and spring terms.

36, 37, 38. ATHLETIC COACHING. Second Year.

Football:	Basketball:	Baseball:
Practice (8)	Practice (6)	Practice (6)
Theory (1)	Theory (1)	Track:
Gymnastics:	Gymnastics:	Practice (4)
Practice (2)	Theory (1)	Theory (1)
Theory (1)	Practice (2)	Organization and Administration of Physical Educa- tion (1)

Elective. Three credits. No credit toward graduation for less than a full year's work. One-fourth of a credit for each term of theory work to which one hour a week is given. Fall, winter, and spring terms.

41, 42, 43, 44. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Coaching 41; basketball, Coaching 42; baseball, Coaching 43; track, Coaching 44.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and senior classification. Registration for one of these courses is made only upon the recommendation of Mr. Lantz.

Elective. Five hours a week. One credit for each of the three courses.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week, for two years is required both in the high school and in the college, outdoor sports in the fall and spring terms, marching, gymnastics, and apparatus work in the winter term.

Students who in the opinion of the medical adviser are not physically fit to take the regular work have archery in the fall and spring terms, and corrective exercises and applied hygiene in the winter term in the case of all whose physical condition indicates the need of individual work.

Folk dancing may be taken in the winter term instead of marching, gymnastics, and apparatus work by students who are not in the restricted work referred to in the last paragraph.

READING

College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum and in four-year

curriculums II, 1 and II, 2. Four hours a week with preparation. One credit. Every term.

SCIENCE (BIOLOGICAL)

HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two credits. Winter and spring terms.

College

20. PHYSIOLOGY. Similar to Course 1, 2, but more advanced with special attention to the digestive system, the nervous system, and sense organs.

Required in the two-year curriculum of those who have not had high school physiology. Ten hours a week. One credit. First summer term.

20. HYGIENE AND SANITATION.

Required in all curriculums. Four hours a week. One credit. Every term.

BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades and general science; and those who complete the four years' work are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as numerous specimens of the other groups of plants.

High School

1. MORPHOLOGY OF THE LOWER PLANTS. Bacteria, algae, fungi, moss-plants, and fern-plants.

Prerequisite: Botany 3. Required in the tenth year. Five sixty-minute periods a week. One credit. Winter term.

2. MORPHOLOGY OF SEED PLANTS. Origin and development of the highest plant groups; orders and common families of flowering plants.

Prerequisite: Botany 1. Required in the tenth year. Five sixty-minute periods a week. One credit. Spring term.

3. PROCESSES AND ADJUSTMENTS OF PLANTS. Ordinary activities of plants and common relations to environment. Physiological experiments, study of structure as modified by varied exposure to external conditions, and of specialized parts of plants.

Required in the tenth year. Five sixty-minute periods a week. One credit. Fall term.

College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems and roots. It includes also the effects of environment factors on these processes and structures.

Required in the two-year curriculum, unless Zoology 20 is taken or the student is a graduate of the Teachers College High School. Elective in other curriculums. Every term. Six hours a week. One credit.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. One credit. Winter term.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with this a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. One credit. Spring term.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems, the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. One credit. Spring term.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. One credit. Fall term.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. One credit. Winter term.

32. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30 or the equivalent. Elective. Six hours a week. One credit. Spring term.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in biological science unless Zoology 40 is substituted. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in biological science unless Zoology 41, 42 is substituted. Five hours a week. Course 41, one credit; Course 42, one credit. Winter and spring terms.

43, 44, 45. ADVANCED BOTANY. These courses are arranged to meet the needs of individual students who have had five terms (five credits), or the equivalent, of botany, and who wish to go on in some special field. The student may choose the field in which he wishes to work, but is required to consult the instructor before registering for any of these courses.

Prerequisite: Botany 20, 21, 22, 30, and 32 or the equivalent of these five courses; and permission of the instructor. Six hours a week (to be arranged with the instructor). One credit for each term's work.

ZOOLOGY

High School

1. **ELEMENTARY INVERTEBRATE ZOOLOGY.** Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Fall term.

2. **ELEMENTARY VERTEBRATE ZOOLOGY.** Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds, and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Winter term.

3. **FIELD ZOOLOGY.** Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Spring term.

College

20. **ANIMAL BIOLOGY.** A consideration of fundamental biological laws, based upon animal material.

Required in the two-year curriculum, unless Botany 20 is taken or the student is a graduate of the Teachers College High School. Six hours a week. One credit. Fall, spring, and summer terms.

20, 21, 22. **ELEMENTARY ZOOLOGY.**

Elective. Six hours a week. Three credits. Course 20, fall term; Course 21, winter term; Course 22, spring term.

23. **ANIMAL BEHAVIOR AND ANIMAL GEOGRAPHY.** The responses of animals to the various factors of the environment are studied. The effect of these responses on the distribution of animals and the special adaptations of animals to the various geographic regions are also considered.

Elective. Six hours a week. One credit. Winter term.

30, 31, 32. **ADVANCED ZOOLOGY AND SPECIAL METHODS.** A study of fresh-water animals and their environment. Much

attention is given to the common and important species of aquatic vertebrates with a view to familiarizing students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoology 20, 21, or 1, 2. Elective. Six hours a week. Three credits. Course 30, fall term; Course 31, winter term; Course 32, spring term, even years.

33, 34, 35. **ADVANCED ZOOLOGY.** A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoology 20, 21, or 1, 2. Elective. Six hours a week. One credit. Course 33, fall term; Course 34, winter term; Course 35, spring term, odd years.

40. **METHOD IN HIGH SCHOOL ZOOLOGY.** The course includes methods of teaching zoology and also the collection and preparation of material for demonstration and laboratory in high school zoology.

Prerequisite: Two years' work in college zoology. Required in the senior year in the four-year curriculum in biological science unless Botany 40 is substituted. Four hours a week. One credit. Fall term.

41, 42. **PRACTICE TEACHING IN HIGH SCHOOL ZOOLOGY.**

Prerequisite: Zoology 40. Required in the senior year in the four-year curriculum in biological science unless Botany 41, 42 is substituted. Five hours a week. Course 41, one credit; Course 42, one credit. Winter and spring terms.

43, 44, 45. **ADVANCED ZOOLOGY.** This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investigations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisite: Two years of work in zoology or biology, and permission of the instructor. Six hours a week (to be arranged with the instructor). One credit for each term's work. Course 43, fall term; Course 44, winter term; Course 45, spring term.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. Fall term.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology. Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Mechanics; heat, sound, light, electricity.

Prerequisite: Geometry 1, 2, 3. Required or elective in the twelfth year. Seven hours a week. Three credits. Course 1, fall term; Course 2, winter term; Course 3, spring term.

College

20, 21. COLLEGE PHYSICS FOR MANUAL ARTS STUDENTS. The topics studied in Physics 20 are mechanics and heat; in Physics 21, magnetism and electricity. These courses include the same essential principles as Physics 30, 31, but with the difference that where it is possible the applications and problems as well as the laboratory work are related to manual arts.

Required in manual arts curriculums. Six hours a week. One credit for Physics 20; one credit for Physics 21. Physics 20, fall term; Physics 21, winter term.

30. COLLEGE PHYSICS. MECHANICS.

Six hours a week. One credit. Fall term.

31. COLLEGE PHYSICS. ELECTRICITY.

Six hours a week. One credit. Winter term.

32. COLLEGE PHYSICS. HEAT AND SOUND.

Six hours a week. One credit. Spring term.

33. MECHANICS AND HEAT.

Six hours a week. One credit. Fall term.

34. LIGHT.

Six hours a week. One credit. Winter term.

35. ELECTRICAL MEASUREMENTS.

Six hours a week. One credit. Spring term.

36. ELECTRICITY.

Six hours a week. One credit. Spring term.

40. THE TEACHING OF PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Five hours a week. Two credits. Winter and spring terms.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. Three credits.

Course 1, fall term; Course 2, winter term; Course 3, spring term.

College

30, 31a. GENERAL INORGANIC CHEMISTRY.

Elective. Eight hours a week. One and one-half credits. Course 30, fall term; Course 31a, first half of the winter term.

31b, 32. QUALITATIVE ANALYSIS.

Eight hours a week. One and one-half credits. Course 31b, second half of the winter term; Course 32, spring term.

33, 34a. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. One and one-half credits. Course 33, fall term; Course 34a, first half of the winter term.

34b, 35. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. One and one-half credits. Course 34b, the second half of the winter term; Course 35, spring term.

PART III
LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, *by Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, *by Francis G. Blair, B. S.*
3. The Causal Idea of History, *by Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, *by W. M. Evans, Litt. D.*
5. The School Garden, *by Otis W. Caldwell, Ph. D.*
6. Manual Training, *by Caroline A. Forbes.*
7. The School Library, *by Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, *by E. H. Taylor, B. S.*
9. Reading in the Grades, *by Katharine Gill.*
10. The Relation of the Home and School, *by Charlotte May Slocum.*
11. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), *by Thomas L. Hankinson, B. S.*
13. Physics in the High School, *by Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, *by Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, *by Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, *by Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, *by Isabel McKinney, A. M.*
20. The School Garden II, *by Otis W. Caldwell, Ph. D.*
23. Some Problems in Education, *by John M. Coulter, Ph. D.*
26. Education and Utility, *by W. C. Bagley, Ph. D.*
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), *by Katharine Gill.*
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, *by Alice M. Christiansen.*

- 37. Views of the Buildings and Grounds.
- 38. Arguments for Vocational Guidance, *by E. E. Lewis, A. M.*
- 41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature *by DeWitt C. Sprague, Ph. B.*
- 44. Alumni Register, 1900-1913.
- 46. Material on Geography (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
- 50. Lists of Material (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
- 53. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
- 54. Material on Geography (which may be obtained free or at small cost), Revised Edition, *by Mary Josephine Booth, A. B., B. L. S.*
- 57. An Outline for the Teaching of Agriculture in the Seventh and Eighth Grades, *by Carl Colvin, B. S.*
- 58. An Inquiry into the Methods by Which the State Normal Schools Are Controlled, *by Clifford Chesley Hubbard, A. M.*
- 61. Reading Aloud: War-Time Suggestions, *by John M. Clapp, A. M.*
- 62. Campus Reflections.
- 65. New Poetry and the Composition Class, *by Earl R. K. Daniels, A. B.*
- 66. Training Departments in State Normal Schools in the United States, *by Lester M. Wilson, Ph. D.*
- 69. Material on Geography (which may be obtained free or at small cost), Second Revised Edition, *by Mary J. Booth, A. B., B. L. S.*
- 70. Report of the Committee of Fifteen.
- 73. List of Books for the First Six Grades, *by Mary J. Booth.*
- 74. Course of Study in English for the First Six Grades, *by Isabel McKinney, A. M.*
- 77. Alumni Register, 1900-1921.
- 78. Material on Geography (which may be obtained free or at small cost), Third Revised Edition, *by Mary J. Booth, A. B., B. L. S.*
- 82. Twenty-fifth Anniversary Letter to Alumni.
- 85. Teaching Children to Read, *by Anna Holden Morse.*
- 86. Lincoln-Douglas Debate at Charleston, *by S. E. Thomas, A. M.*

CORRESPONDENCE

All inquiries should be addressed to the president of the college.

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in the schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

EDUCATION has been an important factor in the increase of wealth and in its more equitable distribution. Education has expanded the boundaries of human freedom. Education has extended the rule of reason and restricted the rule of superstition.

These achievements are all to the credit of the schools; but the schools cannot stop with these. If education would increase wealth, it must provide safeguards against the moral hazards that increased wealth brings. If education would enthrone freedom and reason and dethrone authority and superstition, it must provide effective substitutes for those controls of conduct that authority and superstition once supplied.

WILLIAM CHANDLER BAGLEY

THE COLLEGE CALENDAR, 1928-1929

FALL TERM, 1928, TWELVE WEEKS

STATE OF ILLINOIS
DEPARTMENT OF REGISTRATION AND EDUCATION
THE NORMAL SCHOOL BOARD

EX-OFFICIO MEMBERS

A. M. SHELTON, Director of Registration and Education,
Springfield, *Chairman*

FRANCIS G. BLAIR, *Superintendent of Public Instruction*,
Springfield, *Secretary*

APPOINTED MEMBERS

1923-1929

Elmer T. Walker, Macomb

Ernest E. Cole, Chicago

J. B. Loebner, Chicago

1925-1931

John C. Allen, Monmouth

Frank M. Hewitt, Carbondale

H. M. Mason, Oglesby

1927-1933

Edgar B. Still, DeKalb

Mrs. M. K. Northam, Evanston

Charles E. McMorris, Marshall

Under the provisions of the Civil Administrative Code for consolidation of State agencies under the direction of the Governor the five State Normal Schools of Illinois are controlled by a single board consisting of eleven members; the Director of Registration and Education, who is *ex-officio* chairman, the Superintendent of Public Instruction, who is *ex-officio* secretary, and nine members appointed by the Governor for terms of six years.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

FACULTY, 1927-1928

³ Winter and spring terms, 1927-1928.

⁴ Resigned January 1, 1928.

PART 1
GENERAL INFORMATION

The Eastern Illinois State Teachers College is a TEACHERS COLLEGE, Class A, in the American Association of Teachers Colleges, and a COLLEGE, List A, in the North Central Association of Colleges and Secondary Schools.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickle Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Missouri by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became the Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 1, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were seventeen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1927 one hundred and eight students were graduated from the Junior College and fifteen from the Senior College.

During the summer of 1901, a special term of six weeks was established for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer term. A mid-winter term of six weeks has been offered since 1922.

"In order to equalize the advantages of the State Normal schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle

the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

In 1907, the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 except the assembly room which it still lacks.

In 1907, the power of conferring degrees was granted to this institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building completed in 1928 is used for home economics (Smith Hughes), and for manual and industrial arts.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds were laid out by one of the most skillful landscape gardeners in the country and are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the secondary colleges and normal schools of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, the music and art rooms, class rooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains class rooms and a laboratory for high school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For table board, \$5.50 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. This deposit is credited to the student, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, erected in 1928, furnishes excellent facilities for students who

wish to specialize in manual arts and home economics for grade and high school positions and for the preparation of teachers in these subjects for the Smith-Hughes' Vocational Schools. Shops are provided for practice in all kinds of hand and machine wood work, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of class rooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing room, fitting rooms, a lecture room, a large dining room, a unit kitchen, a foods class room and teachers' rooms, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

LIBRARY.—The library now contains about 32,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of over one hundred fifty-five periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room to which all students of the Teachers College and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, school room libraries are provided. The library has a dictionary catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculum as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves, moreover, as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake, and a forest plantation of six thousand trees, all of which are within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped with lights that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopical slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopical slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included

for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

FEES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a term.

A fee of \$5.00 a term for registration and other incidentals is paid by all above the eighth year.

Textbooks are rented to students at a uniform price of \$1.00 a term. Students wishing to own the books may buy them at the college textbook library.

A student activity fee of \$2.25 a term, covering athletic recreation, and The Teachers College News, is paid by all above the eighth year.

A fee of \$5.00 a term is paid for piano or voice lessons. Students pay for materials they use in art, home economics, and manual arts.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration; and an additional fee of \$1.00, if a change in program is made after the third day of the term.

The original transcript of a student's record, including a carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving the college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each term of twelve weeks."

(Signature of student)

Date.....

BOARD AND ROOM

Board and room can be obtained in private families for from \$5.00 to \$7.50 a week. Students renting rooms and keeping house can materially reduce this amount. Room without board can be obtained for from \$1.50 to \$2.50 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with double board and privileges of laundry, costs \$7.50 a week. For single board, \$5.50 a week is charged. Students are not required to furnish anything.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the Bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano and voice lessons.

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards when it is possible four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the years 1927-1929, but the Association hopes to offer these scholarships again for the year 1929-1930. The receivers of the award are members of the freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English. The award for 1928-1929 goes to Ella Mae Jackson.

THE TEACHERS COLLEGE HIGH SCHOOL SCHOLARSHIP PRIZE.—

The 1927 graduating class of the Teachers College High School has established a fund of \$125.00, the interest from which

is to be used each year for a scholarship prize to be given to the member of the graduating class of that year who has maintained the highest standard of scholarship throughout his or her four years in the Teachers College High School.

The first award was made to Claude Pierson Kellam of the high school graduating class of 1928.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carother Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of season tickets and single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Devereux Players, Tony Sarg's Marionettes.

The college has a complete motion picture equipment, which enables the entertainment course to show good motion pictures as a part of the season's programme.

The entertainment course for 1927-28 was as follows:

Upton Close, lecturer.

Arthur Kraft, tenor, recital.

Alma Peterson, soprano, recital.

Minneapolis Symphony Orchestra.

Steindel Trio, consisting of Isador Berger, violinist; Moissaye Boguslawski, pianist; and Bruno Steindel, cellist.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation by the school. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." The major production of the year for each is the commencement play. Other programmes are presented during the year if suitable talent is available. The plans in view under the new plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.

2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.

3. To encourage familiar acquaintance with the artists of the theatre of all times.

4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—A four-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Mondays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left as a class memorial equipment for a room devoted to the uses of "The News" and the "Warbler." At present a temporary room on the third floor is being used, but when the Practical Arts Building is completed these publications hope to have a room adjoining the printing department.

RECREATION.—A committee consisting of five members of the faculty and a student from each Teachers College class has charge of student recreations which are not solely class affairs. The latter are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall,

there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

DOMAFIAN ART CLUB.—The Domafian Art Club is a student organization for those whose major subject is home economics, manual arts, or fine arts, and for those in other curriculums who are interested in the work of the club. The purpose is to learn more about each special field than can be learned in the classroom. Exhibitions, lectures, and visits to studios, museums, and art galleries are a part of the work of the club.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall term of 1927-28 to further interest in that field, to increase knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Any one who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of forty-eight students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall term, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. The club does not meet regularly. The meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram but is not in college is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring term of each school year.

DELTA LAMBDA SIGMA.—During the winter term of 1927-28 the Beta Chapter of the Delta Lambda Sigma fraternity was organized under the direction of the Alpha Chapter of the Indiana State Normal School at Terre Haute.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to coöperate actively with the school in every possible way.

In order that members may derive the greatest benefit from the fraternity, plans are being made to have a fraternity house in which the members may live and enjoy with one another the true feeling of fellowship.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee of one

lar is charged each student as part of the students' activities

This fee is payable at the beginning of each term. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the college grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The East-Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The teachers of the Teachers College encourage the students to form and sustain intimate relations with the churches.

THE CHRISTIAN ASSOCIATIONS.—The Young Men's and the Young Women's Christian Associations have organizations here in flourishing condition. Committees from the associations meet with students at trains and assist them in finding boarding places. Social gatherings under the auspices of the associations are held during the year.

THE STUDENT COUNCIL.—The Student Council was organized in the spring of 1920 as a means of communication between the faculty and students, and as a permanent organization through which the students might express their point of view on college affairs.

The Council now consists of eleven members: one from each class of the High School, four from the Junior College, and two from the Senior College. The editor of the "Teachers College News" has a seat in the Council, but has not the right to vote. The term of office is one year. Elections take place each term, being so arranged that there is a majority of old members after each election. The constitution provides for a president and any other officer that the Council finds necessary.

The constitution is worded in such a way that the Council may take an increasing part in the control of student affairs.

THE STUDENT BOARD OF CONTROL.—The Student Board of Control was established in the spring term, 1926, by a majority vote of the four college classes for the purpose of maintaining a high standard of student conduct. The Board consists of sixteen members, four from each class, elected for one year by a majority

vote of the respective classes at an election held on Wednesday of the fourth week of the fall term.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way and all former students or teachers, living in or near Chicago will be notified of these meetings if they send their names to the president, Miss Flora E. Balch, '05, Evanston, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day. Returning graduates attend morning exercises at ten o'clock and the alumni dinner in the evening. It is customary to have in the afternoon a ball game between members of the regular team and players on former teams.

The officers of the association are:

Mr. Roscoe Farrar, '03, President and Chairman of the Executive Committee.

Miss Mary Mansfield, '14, Vice-President.

Miss Esther McCrory, '10, Secretary and Treasurer.

Executive Committee

Miss Leah T. Todd, '16.

Mrs. Errett Warner, '25.

Miss Kathryn Sellars, '26.

Mr. Ernest Freeman, '03.

Mr. Grove Butler, '13.

Standing Committee for Advancing the Interests of the College

Miss Florence Sutton, '21 and '23 (term expires in 1929).

Mr. Alonzo F. Goldsmith, '13 and '24 (term expires in 1930).

Mr. Bruce Corzine, '13 (term expires in 1931).

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and help graduates in securing desirable positions, the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their present location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

By the Illinois certificating law, in force July 1, 1914, as amended in 1919, certificates may be issued to those who have done a required amount of work in a recognized normal school or its equivalent.

A provisional certificate valid for one year may be issued without examination to persons who have completed two years' work in a recognized normal school, or one year of such work if the candidate is a graduate of the tenth grade. A provisional certificate is not renewable and cannot be issued the second time to the same person.

A second grade elementary school certificate, valid for two years in the first eight grades of the common schools of the county and in the ninth and tenth grades when endorsed for the same by the county superintendent, *may at the option of the county superintendent*, be issued without examination to persons who have completed the junior year's work in a recognized normal school or its equivalent. This certificate is renewable on evidence satisfactory to the county superintendent of six months' successful teaching or twelve weeks' professional training, and a second time if in the period following the date of issue the holder shall have acquired eighteen weeks' professional training in any recognized school provided for such training. Graduation from a recognized high school (two-year, three-year, or four-year) or an equivalent preparation is required for admission to the examination for second grade certificate.

A first grade elementary school certificate, valid for three years in the first ten grades of the common schools of the county and in the high school when endorsed for the same by the county superintendent, *shall be issued* to graduates of a recognized normal school, or from an institution offering an equivalent preparation, provided the applicant has had one year of successful practice teaching and applies for the certificate within three years after graduation.

A second grade certificate is valid for teaching only. A first grade certificate is valid for supervision in all positions where the principal or superintendent teaches one-half or more of the time.

A high school certificate, valid for three years in the high schools of the county, and renewable indefinitely for periods of three years on evidence satisfactory to the county superintendent of successful teaching or supervision and professional growth as the following requirements: (1) graduation from a recognized high school, or an equivalent preparation; (2) a certificate showing the completion of at least two years' successful work in any recognized higher institution of learning; and (3) an examination in English, pedagogy, and six high school subjects, three majors and three minors, chosen from a list prescribed by the examining board: *Provided, however*, that graduates of a recog-

nized normal school, college, or university may offer within three years after graduation, certified credits in lieu of examination in the above subjects accompanied by faculty recommendation of ability to teach in the high school.

The law contains also provision for supervisory, kindergarten primary, and special certificates issued by a county superintendent. The Superintendent of Public Instruction is empowered to grant four-year elementary school, high school, and supervisory certificates which shall at the time of their expiration become valid and be endorsed for life upon evidence of successful teaching or supervision satisfactory to the Superintendent of Public Instruction.

A first and second grade elementary school certificate, a high school certificate, a supervisory certificate, a kindergarten-primary certificate, or a special certificate is valid in the county of issue, and in any county of the state when endorsed by the county superintendent of such county, upon evidence of successful teaching, certified by the county superintendent in whose county the teaching has been done.

All certificates, whether state or county, must be annually registered and endorsed, and a fee of one dollar must be paid

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College.

The Junior College.

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

TERMS

The regular college year consists of three terms of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the district. The mid-spring term coincides with the second half of the spring term.

A summer term of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer term of 1929 begins on Saturday June 8, and closes on Friday, August 30. It consists of two half terms of six weeks each, the first half term closing Friday, July 19. Students may attend either half term or both half terms.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the unit they have already earned give them the right to enter.

4. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the*

Registrar of the Teachers College. This should be done before the date of entering.

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred on those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. A two-year diploma is granted also in art, English, home economics, manual arts, and music. Four-year curriculums prepare teachers for high schools, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work required for a diploma or degree.*

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education and not less than one year of college work in Greek, Latin, French, or German.

Students planning to do graduate work at the University of Illinois should see that their records satisfy the foreign language requirement.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each term and on April 15. A statement of the courses necessary for the completion of his work is given to each of these students in the fall term and is used by him in making his programmes for succeeding terms. The list of candidates for graduation is based on the checking of April 15. A student who is not more than four credits behind the class at that time may participate in commencement exercises with the class and receive his diploma at the close of the summer term if he completes the work by that time. It is possible to earn two credits in each half of the summer term.

SCHOLARSHIP

I. Beginning with the college year 1926-1927, grades are expressed in letters as follows:

- A, Excellent3 grade points
- B, Good2 grade points
- C, Fair1 grade point
- D, Poor0 grade points
- E, Condition0 grade points
(incomplete work)
- F. Failure—1 grade point

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors are announced for each term in the month after the beginning of the next regular term; in December for the fall term in March for the winter term; in October for the spring term and for the preceding year.

The announcement is made at morning exercises on Saturday morning and printed in the next issue of the "Teachers College News."

V. The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of five credits.

VI. A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

VII. A student failing in three courses (three credits) in any term or in one-half of his courses (two credits) in two consecutive terms is dropped from the college.

VIII. No freshman in a four-year curriculum may register for extra work in his first term.

No sophomore may register for extra work in the first term in which he is taking practice teaching.

No student whose average is below B in the preceding term may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

CURRICULUMS

For graduates of recognized four-year high schools, the following curriculums are offered:

I. Two-Year Curriculums (24 credits each) leading to diploma:

1. For preparation of teachers for the grades. The diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year of the work entitles a student to recommendation for a second grade certificate without examination.
2. For preparation of special teachers of art, home economics, manual arts, and music. This diploma entitles the holder to a special certificate in one of these subjects and to a first grade certificate. The completion of the first year of work entitles a student to recommendation for a second grade certificate without examination.
3. For the preparation of department teachers of English in the upper grades. It is open to students well-prepared in English, especially those who have had some experience in teaching. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year's work entitles him to recommendation for a second grade certificate without examination.

II. Four-Year Curriculums (48 credits each) for preparation of the following:

1. Primary Teachers.
2. Grammar Grade Teachers, High School Teachers and Teachers of Special Subjects:

A. Art and Design	F. Home Economics
B. English	G. Manual Arts
C. Foreign Language	H. Mathematics
D. Geography	I. Science, (Biological)
E. History and Social Science	J. Science (Physical)

In the four-year curriculums, the college has followed these principles:

1. Since the science and art of education should be emphasized in a *teachers* college, the student in every term of every year has one course in education (including psychology and practice teaching).

2. Since scholarship should be of high importance in a teachers college, a student receiving a degree should have attained some proficiency in a chosen branch of knowledge; therefore, in every term of every year, he has a course in the major object of his choice.

3. Since no graduate of *any* college should be narrow in education, every student elects another subject which he must continue for two years and also elects two more years work in other subjects.

4. Since a teacher should have a good degree of scholarship in the English language, every student has two years' work in college English.

5. Since a teacher should view intelligently the material and social world, every student has one year's work in a laboratory science, and one in social science, hygiene, and public sanitation.

CREDIT

A teachers college *credit* is a term's work in a subject requiring preparation and reciting four periods ("hours") a week, regular work being sixteen hours a week. A period ("hour") fifty minutes. A teachers college credit is equivalent to 2 semester hours or 4 term hours ("quarter" hours). College classes do not regularly meet on Tuesdays, at 11:20; on Wednesdays, at 9:30; on Thursdays, at 10:25; on Fridays, at 10:25 and 8:10; on Saturdays in the afternoon. For classes in each without fee or credit, held in the free periods, see Class Instruction in Voice.

College chemistry requires three double periods and two single periods a week. Other sciences require six periods a week. Art, manual arts, and home economics courses, not requiring preparation, require eight periods a week for a credit; the four-period courses are half credit courses and two are required therefore for a credit.

A statement of the amount of credit is included in the description of each course. No credit toward graduation is given for fewer than three credits in piano or voice work; or the *first year's* work in a foreign language; or for fewer than one and a half credits in the *first year's* work in elective art, home economics, manual arts, physical education.

Physical education, the use of the library, and penmanship are required in all curriculums, but are not a part of the total number of credits.

NUMBERING OF COURSES

Courses numbered 1-18 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the College.

MAJOR AND MINOR SUBJECTS

In four-year curriculums for graduates of four-year high schools, a student in a special curriculum takes twelve credits of work in a major subject and six in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, the only restriction being that they shall constitute two years' work in some one department and that the courses chosen shall be satisfactory to the department. Students will consult the department of the major subject as to choice of minor subjects and of electives.

ELECTIVES

There are three groups of electives: one for those in the Senior College, numbered 40 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the college. Students will consult the department of the major subject as to choice of electives and of minor subject.

DESCRIPTION OF CURRICULUMS

I. TWO-YEAR CURRICULUMS

24 Credits

1. FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Psychology 20, 21, 22	Reading 24
English 20, 21, 27, or 24 or 22	Drawing 24
Arithmetic 20, 21	Library 20
Botany 20 or Zoology 20	Physical Education
Geography 20	

SOPHOMORE YEAR

Education 20, 21	Geography 21 and English 26 or English 23 and Education 24
Teaching 20, 21, 22	Hygiene 20
History 20, 21	Physical Education
Music 24	
Manual Arts 24 or 25	

Notes: 1. The completion of the work of the freshman year entitles the student to commendation for a second grade certificate without examination. The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a first grade certificate.

2. A credit is the amount of work done in a prepared subject reciting four periods a week for a term of twelve weeks.

3. Each subject has four fifty-minute periods a week unless otherwise indicated a number in parentheses; but laboratory sciences have six or eight fifty-minute periods; art, manual arts, and home economics require eight periods a week for full credit.

4. Students who have had Geography 2 in the Teachers College High School substitute an elective credit for Geography 21. Students who are graduates of the Teachers College High School substitute an elective credit for Botany 20 or Zoology 20. Students who had Art 1, 2, 3 in the Teachers College High School take Art 30 or Art 25 Art 26 instead of Drawing 24.

5. Physiology 20 or the equivalent is prerequisite to Hygiene 20. A student who has not had the prerequisite may take Physiology 20 and count it as elective.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year. In the ninth grade and above the fees regularly charged Teachers College students are paid.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College.

Electives

The high school curriculum includes ten required and six elective units. One unit of physical science is required. Those who wish to have both physics and chemistry take one in the eleventh year and the other in the twelfth year.

Electives are in two groups. All electives may be chosen from Group I; not more than four units may be chosen from Group II.

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teachers their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in methods of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

In the seventh, eighth, and ninth grades, each of the teachers has department work in the three grades. A training teacher for history has charge of that work in grades five to eight inclusive. A training teacher for music has charge of the music in grades one to eight. A training teacher for drawing has charge of the drawing in grades one to eight. The teachers in other departments of the Teachers College have in some cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two terms of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. In the first term the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second term, in the group of grades not chosen for the first term; and the third term, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first term the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the

student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking the four-year course take one term of practice teaching in the Elementary School in their second year. Two terms of teaching, one in their major subject and one in their major or minor subject, are required of them in the Senior College. The College High School is the Training School for those who are preparing to teach in high schools.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

HIGH SCHOOL

DESCRIPTION OF COURSES

AGRICULTURE

High School

Students enrolled in high school agriculture are required to do a special problem relating to the course at home or in the laboratory. Field trips to neighboring farms and to experimental fields are required.

1. FARM CROPS. A study of our principal farm crop culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One credit. Fall term.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One credit. Winter term.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One credit. Spring term.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One credit. Fall term.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One credit. Winter term.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One credit. Spring term.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. Three credits. Art 1, fall term, Art 2, winter term, Art 3, spring term.

College

20, 21, 22. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the two-year curriculum art. Five hours a week. Three credits. Fall, winter, and spring terms.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. One credit. Every term.

25. METHOD IN DRAWING, GRADES I-IV. The course includes a discussion of the value of art education; its relation to other subjects and to industries; methods of teaching drawing in the lower grades; the ordering of supplies; the planning of lessons.

Four hours a week. One credit. Spring term.

26. METHOD IN DRAWING, GRADES V-VIII. A study of the subject matter to be taught in the upper grades.

Four hours a week. One credit. Fall term.

27. HISTORY OF ORNAMENT.

Four hours a week. One credit. Winter term, even years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. One credit. Spring term, even years.

29. HISTORY OF ARCHITECTURE.

Four hours a week. One credit. Winter term, odd years.

30. LETTERING. A study of lettering for commercial and educational uses and for application to book-making, bulletins, advertising, and posters.

Eight hours a week. One credit. Fall term.

31. REPRESENTATION. The essentials of perspective and application to still life groups in charcoal, crayon, and ink.

Eight hours a week. One credit. Winter term.

32. DESIGN I. A study of the principles of design, color, and decorative applications; a training of the inventive faculty, basic to creative work. "Art in Every Day Life" by Goldstein is the text used.

Eight hours a week. One credit. Spring term.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. One credit. Fall term.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. One credit. Winter term.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. One credit. Spring term.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. Paper work, weaving, woodwork, simple basketry, knotting, clay, and other mediums used in the lower grades.

Required in the freshman year of the art curriculum. Eight hours a week. One credit. Fall term.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. More advanced work in woodworking, basketry, clay, and other mediums.

Required in the freshman year of the art curriculum. Eight hours a week. One credit. Winter term.

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in high school.

Required in the senior year of those whose major subject is art. Four hours a week. One credit. Fall term.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. One credit. Winter term.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. One credit. Spring term.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. One credit. Fall term, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. One credit. Winter term, even years.

45. COMPOSITION. Pictorial and illustrative arrangement in line and color.

Eight hours a week. One credit. Spring term, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours a week. Two credits. Fall and winter terms, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. One credit. Spring term, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. One credit. Fall term.

50. STILL LIFE II. More advanced work in still life, using
 1 paints.
Eight hours a week. One credit. Spring term.

EDUCATION, PSYCHOLOGY, TEACHING

EDUCATION

College

20. PRINCIPLES OF EDUCATION. Through discussion of the
 nature and aims of education, foundations are laid for notions
 of educational values, selection of the curriculum, methods of
 teaching and the school management course which follows.

*Four hours a week. One credit. Fall, winter, and spring
 terms.*

21. SCHOOL MANAGEMENT. This course accompanies the
 course in practice teaching and interprets the management of
 the Training School. Classroom social relations, routine, the
 daily programme, discipline, and the technique of teaching are
 discussed.

Four hours a week. One credit. Every term.

24. PRIMARY EDUCATION. The course deals with reading,
 number, dramatization, story telling, games and other activities
 belonging to a primary school.

Four hours a week. One credit. Spring term.

25. PRIMARY DRAWING AND HANDWORK.

*Required in the second year of the curriculum for prepara-
 tion of primary teachers and accepted for Manual Arts 24. Four
 hours a week. One credit. Fall term. See Art 36.*

26. CHILD PHYSIOLOGY.

*Required in the second year of the curriculum for prepara-
 tion of primary teachers. Four hours a week. One credit.
 Omitted 1928-1929.*

27. FOLK GAMES AND PRIMARY MUSIC.

*Required in the second year of the curriculum for prepara-
 tion of primary teachers. Four hours a week. One credit.
 Omitted 1928-1929.*

- 40P. PRIMARY GRADE SUPERVISION.

*Required in the curriculum for preparation of primary
 teachers. Four hours a week. One credit. Fall term.*

45. See Psychology 45.

47. PHILOSOPHY OF EDUCATION.

*Required in the junior year unless Psychology 47 is offered.
 Four hours a week. One credit. Winter term, even years,
 alternating with Psychology 47.*

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is
 an introductory course for students who desire a knowledge of

problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high school principal in organizing and administering schools. School law and finance as well as current educational problems will receive attention in this course.

Required in the junior year unless Psychology 44 is offered. Four hours a week. One credit. Fall term, even years, and summer term.

58. HISTORY OF INDUSTRIAL EDUCATION.

Required in the junior year of the curriculums in home economics and manual arts. Four hours a week. One credit. Spring term.

PSYCHOLOGY

College

20, 21, 22. INTRODUCTION TO PSYCHOLOGY. This course is intended to serve a double purpose: (a) to present the general facts concerning mental process, (b) to show the application of these facts to problems of learning and teaching. The general background is presented in the first two terms of work (Psychology 20 and 21) and includes a consideration of the following topics: the physiological basis of mental processes; the accumulation of experience by means of the sense organs; the development of perceptions, ideas, and concepts; the association of ideas; memory; imagination; reasoning; attention; instinct; feeling; emotion; will. The second purpose of this course is carried out by a discussion of the laws of learning as they are applied in the common branches; and by a series of observations in the Training School, followed by class discussion of the psychological principles involved.

Required in the freshman year. Four hours a week. Three credits. Psychology 20, fall, winter, and summer terms. Psychology 21, winter, spring, and summer terms. Psychology 22, spring and summer terms.

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurement of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for

development through practice of some skill in the application of tests and the employment of scales.

Required. Four hours a week. One credit. Fall term, odd years, alternating with Education 48.

45. THE PSYCHOLOGY OF SECONDARY EDUCATION. The purpose of this course is to trace the psychological principles which are basic to the teaching of high school subjects. General types of learning are discussed, such as; motor learning, association learning, problem-solving, habit-formation. High school subjects are analyzed and the relations of the general types of learning to particular subjects are pointed out. The general organization of the high school as it is determined by the nature of the adolescent student is touched upon.

Required. Four hours a week. One credit. Spring term.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. *Omitted 1928-1929.*

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups, such as the mob, the gang, clubs, classes, sects, nations, are studied with reference to their bearing upon education.

Required in the junior year unless Education 47 is offered. Four hours a week. One credit. Winter term, odd years, alternating with Education 47.

TEACHING.

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the heading Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curriculums. Five hours a week. One credit. Fall, winter, and spring terms.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. One credit for each course. Fall, winter, and spring terms.

30, 31, 32. Practice teaching may be elected in the second year of the two-year curriculum if permission is obtained.

Elective in the second year of the two-year curriculum. Five hours a week. Three credits, one each for Course 30, Course 31, Course 32. Fall, winter, and spring terms.

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT

Two terms of practice teaching are required in the Senior College. At least one of these terms must be in the major subject. These courses are listed under the same number (41,42) in the description of courses in each department.

Required in the Senior College in all curriculums; or substituted for Social Science 21 and Hygiene 20 by those who wish a two-year diploma in agriculture, art, home economics, manual arts, or music. Two credits. Five hours a week. Fall, winter, and spring terms.

41 P, 42 P, 43 P. PRACTICE TEACHING IN PRIMARY GRADES

Required in the Senior College in the curriculum for preparation of primary teachers. Five hours a week. Three credits. Fall, winter, and spring terms.

41 I, 42 I, 43 I. PRACTICE TEACHING IN INTERMEDIATE GRADES.

Required in the Senior College in the curriculum for preparation of intermediate teachers. Five hours a week. Three credits. Omitted 1928-1929.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. Three credits. English 1, fall term; English 2, winter term; English 3, spring term.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. Three credits. English 4, fall term; English 5, winter term; English 6, spring term.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTLAND

Although the students are expected to get a fair idea of the history of this period of literature, the class work is directed

ed mainly to the literature itself. In making the selections study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 10. Required in the eleventh year. Five hours a week. Three credits. English 7, fall term; English 8, winter term; English 9, spring term.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. Three credits. No credit for less than the average work. English 10, fall term; English 11, winter term; English 12, spring term.

College

USAGE. Drill in the fundamentals of good form, oral and written.

Required of those whose work in English 20 is below standard, or whose work at any time in any subject shows that further drill is necessary. Four hours a week. Credit only toward removing conditions.

20. COMPOSITION. A practical course, stressing the planning, outlining, and development of short units, analysis of well-written material, the sentence, and fundamentals of good form in speech and writing.

Required in the freshman year in all curriculums. Four hours a week. One credit. Every term.

21. COMPOSITION. A continuation of English 20, mostly concerned with clear exposition; larger units; some rhetorical theory.

Prerequisite: English 20. Required in the freshman year in all curriculums. Four hours a week. One credit. Winter, spring, and summer terms.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken; elective in any curriculum. Four hours a week. One credit. Spring and summer terms.

23. LITERATURE AND STORY-TELLING, GRADES I-IV.

The study of stories suitable for telling to children; practice in selecting, adapting, and telling stories before the class.

Required in the second year of the curriculum for preparation of teachers for primary grades. Elective in any curriculum. Four hours a week. One credit. Spring term.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, or upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 is taken) and may be substituted for English 25 by students in a four-year curriculum with English as the major subject; elective in any curriculum. Four hours a week. One credit. Spring and summer terms.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography, and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in all special two-year curriculums and in the four-year curriculum. Elective in any curriculum. Four hours a week. One credit. Spring term.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections of the two-year curriculum and in the two-year English curriculum. Four hours a week. One credit. Every term.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Required in the two-year English curriculum; elective in other curriculums; and alternative with English 22. Four hours a week. One credit. Spring term.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to 31. Four hours a week. Two credits. English 30, fall term; English 31, winter term.

32. ADVANCED COMPOSITION. An elective course in writing or those interested in this form of art. Essays, stories, plays, and poems may be attempted, according to individual or class decision. It may be substituted for any elective English course.

Prerequisite: English 20 and 21. Elective. Four hours a week. One credit. Spring term.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Prerequisite: English 30, 31. Four hours a week. One credit. Spring term.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. One credit. Fall term.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. One credit. Winter term.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. One credit. Spring term.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. English 41, one credit; English 42, one credit. English 41, winter term; English 42, spring term.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Fall and summer terms.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and

21. The course is intended to give both an introduction to the methods of research, and opportunity for original work.

Prerequisite: Junior College required English. Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Winter term.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required in the first year of the Senior College in all curriculums. Four hours a week. One credit. Spring and summer terms.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets as they illustrate this art.

Required in the English curriculum; elective in others. Four hours a week. English 46, one credit; English 47, one credit; English 48, one credit. Fall, winter, and spring terms.

49, 50. MODERN ENGLISH PROSE. The development of English prose in types other than the novel, chiefly the essay and the short story.

Four hours a week. Two credits. Fall and winter terms.

51. HISTORY OF THE ENGLISH LANGUAGE AND ADVANCED GRAMMAR.

Four hours a week. One credit. Spring term.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. *The Phonetic Chardeneau*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. Three credits. French 1, fall term; French 2, winter term; French 3, spring term.

4, 5, 6. SECOND YEAR FRENCH. *The Phonetic Chardeneau: L'Abbe Constantin. Le Voyage de M. Perrichon. Colomb*. Sight reading; conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. Three credits. French 4, fall term; French 5, winter term; French 6, spring term.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Three credits; no credit toward graduation for less than a year's work. Course 30, fall term; Course 31, winter term; Course 32, spring term.

33, 34, 35. ADVANCED FRENCH. Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year college French. Elective. Four hours a week. Three credits. French 33, fall term; French 34, winter term; French 35, spring term, even years.

36, 37, 38. ADVANCED FRENCH. Dramas of Marivaux and Moliere. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: One year of college French. Elective. Four hours a week. Three credits. French 36, fall term; French 37, winter term; French 38, spring term, odd years.

GERMAN

College

30, 31, 32. FIRST YEAR GERMAN.

Elective. Four hours a week. Three credits; no credit toward graduation for less than a year's work. German 30, fall term; German 31, winter term; German 32, spring term.

33, 34, 35. SECOND YEAR GERMAN. Review of grammar. Reading of German short story classics. Shorter German poetry and folksongs.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Three credits. Odd years.

36, 37, 38. THIRD YEAR GERMAN. Longer and more advanced German stories and a few plays by standard authors. German 38 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Three credits. Even years.

LATIN

High School

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. *Elective.* Five hours a week. Three credits. Latin 1, fall term; Latin 2, winter term; Latin 3, spring term.

4, 5, 6. SECOND YEAR LATIN. Caesar, Books I-IV with selections from the other books. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. Three credits. Latin 4, fall term; Latin 5, winter term; Latin 6, spring term.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. *Elective.* Five hours a week. Three credits. Fall, winter, and spring terms, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI. Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. *Elective.* Five hours a week. Three credits. Fall, winter, and spring terms, odd years.

College

30. LIVY, SELECTIONS FROM BOOKS I, XXI, AND XXII.

Prerequisite: Four years of high school Latin. Four hours a week. One credit. Fall term, odd years.

31. CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Course 30. Four hours a week. One credit. Winter term, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Course 31. Four hours a week. One credit. Spring term, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high school Latin. Four hours a week. One credit. Fall term, even years, and 1928-1929.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Course 33. Four hours a week. One credit. Winter term, even years, and 1928-1929.

35. PLAUTUS, MENAECHEMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Course 34. Four hours a week. One credit. Spring term, even years, and 1928-1929.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN LATIN.

Prerequisite: Latin 40. Five hours a week. Two credits. Winter and spring terms.

43. OVID, METAMORPHOSES.

Four hours a week. One credit. Fall term, even years, beginning 1929-1930.

44. PLINY, LETTERS.

Four hours a week. One credit. Winter term, even years, beginning 1929-1930.

45. LATIN WRITING.

Four hours a week. One credit. Spring term, even years, beginning 1929-1930.

46. TACITUS, GERMANIA, AGRICOLA, AND SELECTIONS FROM THE ANNALS AND HISTORIES.

Four hours a week. One credit. Fall term, odd years, beginning 1930-1931.

47. LATIN POETRY. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. One credit. Winter term, odd years, beginning 1930-1931.

48. LATIN DRAMA. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. One credit. Spring term, odd years, beginning 1930-1931.

GEOGRAPHY

High School

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One credit. Fall and summer terms.

2. PHYSIOGRAPHY. A continuation of Course 1, taking up mathematical geography, a study of atmosphere and climate.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One credit. Winter and summer terms.

3. COMMERCIAL GEOGRAPHY.

Prerequisite: Course 2. *Elective in the eleventh or twelfth year. Five hours a week. One credit. Spring term.*

College

20. PRINCIPLES OF HUMAN GEOGRAPHY.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and the two-year English curriculum. Elective for all others. Four hours a week. One credit. Every term.

21. CLIMATOLOGY. A study of climate and its influence upon form and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for all others. Four hours a week. One credit. Winter, spring and summer terms.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. *Elective. Four hours a week. One credit. Fall term.*

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. *Elective. Four hours a week. One credit. Winter term.*

32. GEOGRAPHY OF EUROPE.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. *Elective. Four hours a week. One credit. Spring term.*

36. GEOLOGY.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. *Four hours a week. One credit. Spring term.*

40. THE TEACHING OF GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Two credits. Winter and spring terms.

43. PHYSIOGRAPHY.

Prerequisite: Geography 30, 31, 32. *Four hours a week. One credit. Fall term.*

44. TRANSPORTATION.

Prerequisite: Geography 30, 31, 32. *Four hours a week. One credit. Winter term.*

45. URBAN GEOGRAPHY.

Prerequisite: Geography 30, 31, 32. *Four hours a week. One credit. Spring term.*

HISTORY, SOCIOLOGY, GOVERNMENT, AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.
Elective in the tenth year. Five hours a week. One dit. Fall term.
2. THE GREEKS AND GREEK CIVILIZATION.
Elective in the tenth year. Five hours a week. One dit. Winter term.
3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN
INVASIONS.
Elective in the tenth year. Five hours a week. One dit. Spring term.
4. THE HISTORY OF ENGLAND TO 1400.
Required in the eleventh year. Five hours a week. One dit. Fall term.
5. THE HISTORY OF ENGLAND, 1400-1715.
Required in the eleventh year. Five hours a week. One dit. Winter term.
6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE,
5 TO THE PRESENT.
Required in the eleventh year. Five hours a week. One dit. Spring term.
7. AMERICAN HISTORY TO 1800.
Elective in the twelfth year. Five hours a week. One dit. Fall term.
8. THE HISTORY OF THE UNITED STATES, 1800-1865.
Elective in the twelfth year. Five hours a week. One dit. Winter term.
9. THE HISTORY OF THE UNITED STATES, 1865 TO THE
PRESENT.
Elective in the twelfth year. Five hours a week. One dit. Spring term.

College

The requirement of History 20, 21 and also of social science the Junior College may be fulfilled by selecting any two consecutive terms of either European or American history; of history 20, 21, 22, three consecutive terms.

30. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF
THE FOURTH CENTURY TO 1500.
Four hours a week. One credit. Fall term.
31. THE HISTORY OF EUROPE, 1500-1815.
Four hours a week. One credit. Winter term.

32. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. One credit. Spring term.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY
1800.

Four hours a week. One credit. Fall term.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF
UNITED STATES, 1800-1865.

Four hours a week. One credit. Winter term.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF
UNITED STATES, 1865 TO THE PRESENT.

Four hours a week. One credit. Spring term.

36. GOVERNMENT AND ILLINOIS HISTORY.

Four hours a week. One credit. Summer term.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. One credit. Fall term.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. One credit. Winter term.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. One credit. Spring term.

40. THE TEACHING OF HISTORY.

*Required in the senior year of those whose major subject
history. Four hours a week. One credit. Fall term.*

41, 42. PRACTICE TEACHING IN HISTORY.

*Required. Five hours a week. One credit. Course
winter term; Course 42, spring term.*

43, 44, 45. ENGLISH HISTORY. A fundamental course in
political and social institutions of England.

Four hours a week. Three credits. Every year.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Three credits. Every year.

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

*Required in the twelfth year. Five hours a week.
credit. Fall term.*

2a. THE NATIONAL GOVERNMENT.

*Required in the twelfth year. Five hours a week.
half credit. First half of the winter term.*

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. One credit. Fall term, even years.

44. THE NATIONAL GOVERNMENT.

Four hours a week. One credit. Winter term, even years.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. One credit. Winter term, even years.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter term, and Economics 2, spring term, complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One and one-half credits. Economics 1a, second half of the winter term; Economics 2, spring term.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the two-year curriculum in Manual Arts. Four hours a week. One credit. Spring term.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. One credit. Fall term.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. One credit. Winter term.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. One credit. Spring term.

HOME ECONOMICS

High School

I. DOMESTIC ART

4. ELEMENTARY TEXTILE STUDY. Discussion of materials to cost, widths, wearing qualities, and adaptation to various garments. Pattern drafting, making of simple cotton garments. Use of sewing machine. Pressing and folding of garments.

Elective. Ten hours a week. One credit. Fall term, odd years.

5. SEWING. Study of commercial pattern, testing altering. Making of garments requiring fine handsewing machine sewing. Care and repair of clothing.

Prerequisite: Domestic Art 4. Elective. Ten hours a week. One credit. Winter term, odd years.

6. CLOTHING SELECTION. Study of clothing budget. elementary costume design and principles of clothing selection. Planning the high school girl's wardrobe. Making of simple dresses of cotton, wool, and silk.

Prerequisite: Domestic Art 5. Elective. Ten hours a week. One credit. Spring term, odd years.

II. DOMESTIC SCIENCE

4. FOOD STUDY. Preservation of foods. Classification, selection, and preparation of foods. Classification and study of cooking processes.

Elective. Ten hours a week. One credit. Fall term, even years.

5. FOODS. Principles involved in preparation of all classes of foods. Experiments. Food study continued.

Prerequisite: Domestic Science 4. Elective. Ten hours a week. One credit. Winter term, even years.

6. THE PREPARATION AND SERVING OF MEALS. Market shopping. Menu planning. Study of the cost of meals and of the food budget. Meal planning and table service.

Prerequisite: Domestic Science 5. Elective. Ten hours a week. One credit. Spring term, even years.

College

Note: The four-year curriculum in home economics (Curriculum II. 3. F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. DOMESTIC ART

30. TEXTILES.

Prerequisite: Art 30, 31, 32 unless the student is taking Art 30, 31, 32. Eight hours a week. One credit. Summer or fall terms.

31. CLOTHING I.

Prerequisite: Course 30. Eight hours a week. One credit. Winter term.

32. GARMENT MAKING.

Prerequisite: Course 31. Eight hours a week. One credit. Spring term.

33. COSTUME DESIGN.

Prerequisite: Course 32. Eight hours a week. One credit. Winter term.

34. CLOTHING II.

Prerequisite: Course 33. Eight hours a week. One credit. Winter term.

35. ADVANCED DRESSMAKING AND MILLINERY.

Prerequisite: Course 34. Eight hours a week. One credit. Spring term.

II. DOMESTIC SCIENCE

30. FOOD STUDY.

Prerequisite: Chemistry 30, 31, 32 unless the student is taking Chemistry 30. Eight hours a week. One credit. Fall term.

31. FOODS I.

Prerequisite: Course 30. Eight hours a week. One credit. Winter term.

32. FOODS II.

Prerequisite: Course 31. Eight hours a week. One credit. Spring term.

33. EXPERIMENTAL COOKING.

Prerequisite: Course 32. Eight hours a week. One credit. Winter term.

34. DIETETICS.

Prerequisite: Course 33 and Chemistry 23, 24, 25 unless student is registered for Chemistry 23, 24, 25. Eight hours a week. One credit. Winter term.

35. MEAL PLANNING AND TABLE SERVICE.

Prerequisite: Course 33. Eight hours a week. One credit. Spring term.

III. HOME ECONOMICS

20, 21, 22. PRACTICE TEACHING IN HOME ECONOMICS.

Required in the sophomore year of the two-year curriculum in home economics. Five hours a week. Three credits. Fall, Winter, and Spring terms.

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Senior standing in the home economics curriculum. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL HOME ECONOMICS.

Prerequisite: Home Economics 40. Five hours a week. Two credits. Winter and Spring terms.

NOTE: Candidates for the degree in the four-year curriculum in home economics regularly take one course in the teach-

ing of high school domestic art and one in the teaching of high school domestic science.

43. HOUSEHOLD PHYSICS. See Manual Arts 39.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. One credit. Fall term.

44. HOUSE PLANNING AND FURNISHING. Art 44 is accepted as a substitute for Home Economics 44 if necessary.

Prerequisite: Junior standing in the home economics art curriculum. Eight hours a week. One credit. Winter term.

45. HOUSEHOLD MANAGEMENT.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. One credit. Winter term.

46. HOME NURSING AND CHILD CARE.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. One credit. Spring term.

47. INDUSTRIAL HISTORY. See Manual Arts 58.

Prerequisite: Junior standing in the home economics manual arts curriculum. Four hours a week. One credit. Spring term.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wise expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of college. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall term, every year and winter term, odd years.

20. THE USE OF THE LIBRARY.

Freshmen who have completed Library XI are excused from all but the last four lessons of Library 20.

Required in the freshman year. One hour a week. Every term except the second summer term.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on

im line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into the one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One half credit. Fall term.

2. MECHANICAL DRAWING. A continuation of Manual Arts 1. Seven plates are considered a term's work. Two and three view working drawings are the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One half credit. Winter term.

3. MECHANICAL DRAWING. Eight plates are required this term. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One half credit. Spring term.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools is given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One half credit. Fall term.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One half credit. Winter term.

6. WOODWORK. The jointer plane is studied and a piece of furniture may be developed in which the surface is built up by the use of this tool. Household repair is emphasized. Broken furniture may be brought from home and mended in the school shop.

Elective. Five hours a week. One half credit. Spring term.

7. MACHINE WOODWORK. Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Course 3 and Course 6. Elective. Ten hours a week. One credit. Fall term.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Course 7. Elective. Ten hours a week. One credit. Winter term.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter term is completed in workmanlike style. Wood turning is studied and a desk lamp developed. The work includes the making of a wire shade frame.

Prerequisite: Course 7. Elective. Ten hours a week. One credit. Spring term.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20, 21, 22. PRACTICE TEACHING IN MANUAL ARTS.

Required in the sophomore year in the two-year curriculum in Manual Arts. Five hours a week. Three credits.

23. THE TEACHING OF MANUAL ARTS.

Required in the two-year curriculum in Manual Arts. Four hours a week. One credit. Winter term.

24. PRIMARY GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, wood work, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Manual Arts 25 or Education 25 is taken; required also in the four-year primary and art curriculums. Four hours a week with outside work. One credit. Winter term.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Course 24 is offered; required also in the four-year curriculum for preparation of teachers of the intermediate grades. Four hours a week with outside work. One credit. Fall and spring terms.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Manual Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. One hour credit. Fall and summer terms.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lecture and demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Course 31, one half credit; Course 32, one half credit. Course 31, winter term; Course 32, spring term; both courses, summer term.

33. **ELEMENTARY WOODWORK.** Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking course 30. Four hours a week. One half credit. Fall and summer terms.

34, 35. **JOINERY AND ADVANCED WOODWORK.** A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33; also Course 34 to Course 35. Four hours a week. Course 34, one half credit; Course 35, one half credit. Course 34, winter term; Course 35, spring term.

36, 37. **FURNITURE AND CABINET CONSTRUCTION.** The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. Two credits. Winter, spring, and summer terms.

39. **HOUSEHOLD MECHANICS.** The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists in the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers.

Required of all students whose major subject is Manual Arts and accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. One credit. Fall and summer terms.

40. **THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS.**

Prerequisite: Senior standing in the industrial arts curriculum. Four hours a week. One credit. Omitted 1928-1929. See Manual Arts 23).

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Five hours a week. Two credits. Omitted 1928-1929. (See Manual Arts 20, 21, 22).

43. SHEET METAL WORK.

Eight hours a week. One credit. Fall term.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. One credit. Spring term.

46. PATTERN MAKING.

Eight hours a week. One credit. Fall term.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. One credit. Fall and winter terms.

48. MACHINE SHOP.

Eight hours a week. One credit. Every term.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. One half credit for each course. Every term.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. One half credit for each course. Every term.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. One credit. Winter and spring terms.

54. ADVANCED MACHINE SHOP.

Eight hours a week. One credit. Every term.

55, 56. CARPENTRY.

Eight hours a week. Two credits. Carpentry 55, winter term; Carpentry 56, spring term.

57. AUTOMOBILE REPAIRS II.

Eight hours a week. One credit. Spring term.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. One credit. Spring term.

59, 60, 61. PRINTING I, II AND III.

Eight hours a week. One credit for each course. Printing I, every term; Printing II, winter and spring terms; Printing III, spring term.

MATHEMATICS

High School

1. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One credit. Fall and summer terms.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One credit. Winter and summer terms.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One credit. Spring and summer terms.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and V.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One credit. Fall term.

5. GEOMETRY 2. Chapters V, VI, VII, and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One credit. Winter term.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One credit. Spring term.

7. SOLID GEOMETRY 4. Chapters XII-XVI.

Prerequisite: Geometry 3. Five hours a week. One credit. Spring and summer terms.

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One credit. Fall term.

9. ALGEBRA 5. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 4. Elective. Five hours a week. One credit. Winter term.

College

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in

the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. One credit. Every term including the summer term.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentages and its application to practical business problems, ratio and proportion, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the student with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. One credit. Winter, spring, and summer terms.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Prerequisite: One year of high school algebra and plane geometry. Required of those whose major subject is mathematics and who have had solid geometry in high school. Four hours a week. One credit. Fall term.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and cross sections.

Students take Manual Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two terms. One credit for Manual Arts 30 and 31. Fall, winter, and summer terms.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Geometry 28 instead of Geometry 30.

Prerequisite: Geometry 3. Four hours a week. One credit. Fall term.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3, Four hours a week. One credit, II term.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. One credit. Winter term.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. One credit. Fall and summer terms.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Four hours a week. One credit. Winter term.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Course 34. Four hours a week. One credit. Spring term.

36. ALGEBRA. Theory of equations including elementary transformations, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. One credit. Spring term.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Four hours a week. Two credits. Winter and spring terms.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Three credits. Course 43, fall term; Course 44, winter term; Course 45, spring term, odd years.

MUSIC

Musical Organizations

THE COLLEGE CHORUS. This chorus is composed of one hundred fifty or two hundred students who meet at half past nine on Wednesdays to learn something about correct singing habits and to study choral numbers for a concert.

THE COLLEGE MEN'S GLEE CLUB. During the first year of the College year, College men may try for a place in the club. The club meets twice a week and appears in public several times during the year, giving the annual concert and the March.

THE COLLEGE GIRLS' GLEE CLUB. This club is open to all College girls. There is one rehearsal a week. The club gives an annual concert.

THE COLLEGE ORCHESTRA. The orchestra consists of eight or twenty pieces. It rehearses once a week and plays at many of the exercises occasionally as well as at other public gatherings.

THE BAND. The band is open to all students who show sufficient ability on any band instrument. The band owns several instruments which are available for student use. Application to play one of these should be made in writing to the director of the band. The student should state what instrument he plays, how long he has played, and with what organization.

CLASS INSTRUCTION IN MUSIC

VIOLIN, CLARINET, CORNET. These classes are open to beginners only and meet twice a week for one period with credit. The time is arranged by the class and instructor. Instruments are free of charge. Instruments may be rented. Enrollment is limited to fifteen pupils in each class.

VOICE. This class meets four times a week. The purpose is to give free instruction without credit in the correct use of the speaking and singing voice, including breath control, relaxation, enunciation, and the development of resonance.

High School Music

1, 2, 3. The object of this course is to train pupils who are experienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes' preparation.

Elective in the tenth, eleventh, or twelfth years. Four hours a week. Three credits (no credit for less than the whole year's work).

- Notes.—1. The high school girls' glee club is composed of girls, chosen from the high school, who meet twice a week.
2. Chorus, twice a week, is required in the ninth year.

Public School Music

20, 21, 22. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Three credits. Fall, winter, and spring terms.

24. PUBLIC SCHOOL MUSIC. This course is offered in two sections: Section I, Music 24a, Elementary Sight Singing. Students who have had no musical training in the elementary high school should enroll in this section. Students completing the work of this section are not recommended for positions requiring music teaching.

Section II, Music 24 (or 24b), Sight Singing and Lower Grade Methods. Syllable singing of one and two-part songs in both modes, using intermediate tones and fairly complicated rhythmic combinations. The second six weeks is devoted to the study of methods of teaching public school music in the first six grades with observation in the Training School. Students completing Section II of Music 24 with a grade of A or B are recommended for music teaching in the lower grades and may do practice teaching in music in the Training School.

Prerequisite: The equivalent of Section I of Music 24 and examination by the instructor before enrollment.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. One credit. Fall and winter terms.

33. SIGHT SINGING AND ELEMENTARY THEORY. Two, three, and four-part singing. Major, minor, and chromatic scales with some original composition.

Prerequisite: Music 24 (or the equivalent). Four hours a week. One credit. Winter term.

34. PRIMARY MUSIC METHODS. The teaching of rote songs. How to help monotones. The development and care of the child voice. Repertoire of children's songs. The work of the first three grades is studied intensively.

Four hours a week. One credit. Spring and summer terms.

35. UPPER GRADE METHODS. Methods of teaching singing, music appreciation, and original composition in grades four to eight inclusive.

Prerequisite: Music 34. Four hours a week. One credit. Fall and summer terms.

36. ELEMENTARY HARMONY. This course includes a view of scales. Intervals; triads; simple four-part writing.

Four hours a week. One credit. Winter term.

37. MUSIC APPRECIATION. The course aims to acquaint the student with some of the best music—piano, vocal, and orchestral. It is organized around the study of the various forms into which musical compositions are cast from the folk song to the symphony. While some knowledge of music is an advantage to members of the class, such knowledge is not a prerequisite.

Four hours a week. One credit. Spring term.

INSTRUMENTAL MUSIC

I. PIANO

In piano instruction two or three students are assigned each fifty minute period.

College

30, 31, 32. PIANO, FIRST YEAR.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

43, 44, 45. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

46, 47, 48. PIANO, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

II. VIOLIN

College

30, 31, 32. VIOLIN, FIRST YEAR.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

33, 34, 35. VIOLIN, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in instrumental music. Every term.

VOICE TRAINING

College

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

43, 44, 45. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

46, 47, 48. VOICE TRAINING, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. One and a half credits. No credit toward graduation for fewer than three credits in vocal music. Every term.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon black-board writing.

Four hours a week. One fourth of a credit. Summer term.

24. This course gives a more extended study of penmanship and methods of teaching it in the grades.

Required in Curriculum II, 2. Four hours a week with preparation. One credit. Omitted 1928-1929.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required of first year students in all curriculums. Two hours a week. Every term.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required of second year students in all curriculums. Two hours a week. Every term.

College

First Year's Work. See above.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

Football:	Basketball:	Baseball:
Practice (8 hours a week)	Practice (6)	Practice (8)
Theory (1 hour a week)	Theory (1)	Theory (1)
Gymnastics:	Gymnastics:	Track:
Practice (2 hours a week)	Practice (2)	Practice (4)
	Theory (1)	

Elective. Three credits. No credit toward graduation for less than a full year's work. One-fourth of a credit for each term of theory work to which one hour a week is given. Fall, winter, and spring terms.

36, 37, 38. ATHLETIC COACHING. Second Year.

Football:	Basketball:	Baseball:
Practice (8)	Practice (6)	Practice (6)
Theory (1)	Theory (1)	Track:
Gymnastics:	Gymnastics:	Practice (4)
Practice (2)	Theory (1)	Theory (1)
Theory (1)	Practice (2)	Organization and Administration of Physical Education (1)

Elective. Three credits. No credit toward graduation for less than a full year's work. One-fourth of a credit for each term of theory work to which one hour a week is given. Fall, winter, and spring terms.

41, 42, 43, 44. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Coaching 41; basketball, Coaching 42; baseball, Coaching 43; track, Coaching 44.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and senior classification. Registration for one of these courses is made only upon the written recommendation of the director of physical education and the written consent of the teacher of the student's major subject. It is to be substituted for practice teaching in the major subject.

Elective. Five hours a week. One credit for each of the courses.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week, for two years is required both in the high school and in the college, outdoor sports in the fall and spring terms, marching, gymnastics, and apparatus work in the winter term.

Students who in the opinion of the medical adviser are not physically fit to take the regular work have archery in the fall and spring terms, and corrective exercises and applied hygiene in the winter term in the case of all whose physical condition indicates the need of individual work.

Folk dancing may be taken in the winter term instead of marching, gymnastics, and apparatus work by students who are not in the restricted work referred to in the last paragraph.

READING

College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum and in four-year curriculums II, 1 and II, 2. Four hours a week with preparation. One credit. Every term.

BIOLOGICAL SCIENCE

HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two credits. Winter and spring terms.

College

20. PHYSIOLOGY. Similar to Course 1, 2, but more advanced with special attention to the digestive system, the nervous system, and sense organs.

Required in the two-year curriculum of those who have not had high school physiology. Eight hours a week. One credit. First summer term.

20. HYGIENE AND SANITATION.

Required in all curriculums. Four hours a week. One credit. Every term.

BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, natural study in the grades, and general science; and those who complete the four years' work are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as numerous specimens of the other groups of plants.

High School

1, 2, 3. GENERAL BOTANY. This is a course in general botany for high school students. It is organized in such a way that the students may obtain exact information about the life processes of plants that may be applied to plant culture. Students

nts have the opportunity of learning to know a large number of plants at sight, and to understand something of their physical and chemical structure.

Required in the tenth year unless Zoölogy 1, 2, 3 is substituted. Five sixty-minute periods a week. Three credits. Botany 1, fall term; Botany 2, winter term; Botany 3, spring term.

Note: Students who had Botany 3, 1, 2 in the Teachers College High School should take Botany 30, 31 instead of Botany 1, 2, 3.

College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environmental factors on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 20 is taken or the student is a graduate of the Teachers College High School. Elective in other curriculums. Six hours a week. One credit. Every term.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. One credit. Winter term.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with this a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. One credit. Spring term.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems, the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. One credit. Spring term.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. One credit. Fall term.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. One credit. Winter term.

32. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had one year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30 or the equivalent. Elective. Six hours a week. One credit. Spring term.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in biological science unless Zoölogy 40 is substituted. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in biological science unless Zoölogy 40 or 42 is substituted. Five hours a week. Course 41, one credit. Course 42, one credit. Winter and spring terms.

43, 44, 45. ADVANCED BOTANY. These courses are arranged to meet the needs of individual students who have had five terms (five credits), or the equivalent, of botany, and who wish to go on in some special field. The student may choose the field in which he wishes to work, but is required to consult the instructor before registering for any of these courses.

Prerequisite: Botany 20, 21, 22, 30, and 32 or the equivalent of these five courses; and permission of the instructor. Six hours a week (to be arranged with the instructor). One credit for each term's work.

ZOOLOGY

High School

1. ELEMENTARY INVERTEBRATE ZOOLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Fall term.

2. ELEMENTARY VERTEBRATE ZOOLOGY. Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds, and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Winter term.

3. FIELD ZOOLOGY. Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One credit. Spring term.

College

20. ANIMAL BIOLOGY. A consideration of fundamental biological laws, based upon animal material.

Required in the two-year curriculum, unless Botany 20 is taken or the student is a graduate of the Teachers College High School. Six hours a week. One credit. Fall, spring, and summer terms.

20, 21, 22. ELEMENTARY ZOOLOGY.

Elective. Six hours a week. Three credits. Course 20, fall term; Course 21, winter term; Course 22, spring term.

23. ANIMAL BEHAVIOR AND ANIMAL GEOGRAPHY. The responses of animals to the various factors of the environment are studied. The effect of these responses on the distribution of animals and the special adaptations of animals to the various geographic regions are also considered.

Elective. Six hours a week. One credit. Winter term.

30, 31, 32. ADVANCED ZOÖLOGY AND SPECIAL METHODS. A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarizing students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Three credits. Course 30, fall term; Course 31, winter term; Course 32, spring term, even years.

33, 34, 35. ADVANCED ZOÖLOGY. A study of insects. Deal with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. One credit. Course 33, fall term; Course 34, winter term; Course 35, spring term, odd years.

40. METHOD IN HIGH SCHOOL ZOÖLOGY. The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in biological science unless Botany 40 is substituted. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in biological science unless Botany 41, 42 is substituted. Five hours a week. Course 41, one credit; Course 42, one credit. Winter and spring terms.

43, 44, 45. ADVANCED ZOÖLOGY. This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investigations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisite: Two years of work in zoölogy or biology, and permission of the instructor. Six hours a week (to be arranged with the instructor). One credit for each term's work. Course 43, fall term; Course 44, winter term; Course 45, spring term.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. Fall term.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology. Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Mechanics; heat, sound, light, electricity.

Prerequisite: Geometry 1, 2, 3. Required or elective in twelfth year. Seven hours a week. Three credits. Course 1, fall term; Course 2, winter term; Course 3, spring term.

College

20, 21. COLLEGE PHYSICS FOR MANUAL ARTS STUDENTS. Topics studied in Physics 20 are mechanics and heat; in Physics 21, magnetism and electricity. These courses include the same essential principles as Physics 30, 31, but with the difference that where it is possible the applications and problems as well as the laboratory work are related to manual arts.

Required in manual arts curriculums. Six hours a week. One credit for Physics 20; one credit for Physics 21. Physics 20, fall term; Physics 21, winter term.

30. COLLEGE PHYSICS. MECHANICS.

Six hours a week. One credit. Fall term.

31. COLLEGE PHYSICS. ELECTRICITY.

Six hours a week. One credit. Winter term.

32. COLLEGE PHYSICS. HEAT AND SOUND.

Six hours a week. One credit. Spring term.

33. MECHANICS AND HEAT.

Six hours a week. One credit. Fall term.

34. LIGHT.

Six hours a week. One credit. Winter term.

35. ELECTRICAL MEASUREMENTS.

Six hours a week. One credit.

36. ELECTRICITY.

Six hours a week. One credit. Spring term.

40. THE TEACHING OF PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Four hours a week. One credit. Fall term.

41, 42. PRACTICE TEACHING IN PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum of physical science. Five hours a week. Two credits. Winter and spring terms.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. Three credits.

Chemistry 1, fall term; Chemistry 2, winter term; Chemistry 3, spring term.

College

23, 24. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Required in the junior year of the Smith-Hughes Home Economics Curriculum. Six hours a week. Two credits. Fall and winter terms.

25. PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Required in the junior year of the Smith-Hughes Home Economics Curriculum. Six hours a week. One credit. Spring term.

30, 31a. GENERAL INORGANIC CHEMISTRY.

Elective. Eight hours a week. One and one-half credits. Chemistry 30, fall term; Chemistry 31a, first half of the winter term.

31b, 32. QUALITATIVE ANALYSIS.

Eight hours a week. One and one-half credits. Chemistry 31b, second half of the winter term; Chemistry 32, spring term.

33, 34a. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. One and one-half credits. Chemistry 33, fall term; Chemistry 34a, first half of the winter term.

34b, 35. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. One and one-half credits. Chemistry 34b, the second half of the winter term; Chemistry 35, spring term.

PART III
LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory in the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, by Thomas H. Briggs, Jr., A. B.
2. Method of Teaching, by Francis G. Blair, B. S.
3. The Causal Idea of History, by Roswell C. McCrea, Ph. D.
4. Some of the Objects of Studying English Grammar, W. M. Evans, Litt. D.
5. The School Garden, by Otis W. Caldwell, Ph. D.
6. Manual Training, by Caroline A. Forbes.
7. The School Library, by Florence M. Beck, B. L. S.
8. Graphic Arithmetic, by E. H. Taylor, B. S.
9. Reading in the Grades, by Katharine Gill.
10. The Relation of the Home and School, by Charlotte M. Slocum.
11. Bird Study in the Rural School, by Thomas L. Hankinson, B. S.
12. Bird Study in the Rural School (Second Edition), by Thomas L. Hankinson, B. S.
13. Physics in the High School, by Albert B. Crowe, A. M.
14. Some Suggestions for the Teaching of Geography in the Grades, by Annie L. Weller, B. S.
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, by Clara M. Snell.
16. English Composition in Secondary Schools—Topic: Correct English, by Florence V. Skeffington, A. B.
17. The Study of Literature in the Upper Grades, by Isabel C. Kinney, A. M.
20. The School Garden II, by Otis W. Caldwell, Ph. D.
23. Some Problems in Education, by John M. Coulter, Ph. D.
26. Education and Utility, by W. C. Bagley, Ph. D.
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), by Katharine Gill.

32. The Annual Invitation Athletic and Oratorical M
held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, *by A*
M. Christiansen.
37. Views of the Buildings and Grounds.
38. Arguments for Vocational Guidance, *by E. E. Leu*
A. M.
41. English Literature in Secondary Schools: The R
of the Drama in England; Outlines for the Study of Literatu
by DeWitt C. Sprague, Ph. B.
44. Alumni Register, 1900-1913.
46. Material on Geography (which may be obtained f
or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
50. Lists of Material (which may be obtained free or
small cost), *by Mary Josephine Booth, A. B., B. L. S.*
53. Bird Study in the Rural School, *by Thomas L. Ha*
inson, B. S.
54. Material on Geography (which may be obtained f
or at small cost), Revised Edition, *by Mary Josephine Booth,*
B., B. L. S.
57. An Outline for the Teaching of Agriculture in t
Seventh and Eighth Grades, *by Carl Colvin, B. S.*
58. An Inquiry into the Methods by Which the State N
mal Schools Are Controlled, *by Clifford Chesley Hubbard, A.*
61. Reading Aloud: War-Time Suggestions, *by John*
Clapp, A. M.
62. Campus Reflections.
65. New Poetry and the Composition Class, *by Earl R.*
Daniels, A. B.
66. Training Departments in State Normal Schools in t
United States, *by Lester M. Wilson, Ph. D.*
69. Material on Geography (which may be obtained fr
or at small cost), Second Revised Edition, *by Mary J. Boot*
A. B., B. L. S.
70. Report of the Committee of Fifteen.
73. List of Books for the First Six Grades, *by Mary*
Booth.
74. Course of Study in English for the First Six Grad
by Isabel McKinney, A. M.
77. Alumni Register, 1900-1921.
78. Material on Geography (which may be obtained fr
or at small cost), Third Revised Edition, *by Mary J. Boot*
A. B., B. L. S.
82. Twenty-fifth Anniversary Letter to Alumni.
85. Teaching Children to Read, *by Anna Holden Morse.*

86. Lincoln-Douglas Debate at Charleston, *by S. E. Thomas, M.*
89. Trees and Shrubs of the Campus, *by Ernest L. Stover, D.*
93. An Analysis of the Student Body for the Year 1925-6, *by Ralph Haefner.*
98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*

CORRESPONDENCE

School officials who are looking for teachers may obtain full confidential information in regard to the qualifications, character and experience of former students who are candidates for positions in their schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

STATE OF ILLINOIS
DEPARTMENT OF REGISTRATION AND EDUCATION

THE NORMAL SCHOOL BOARD

EX-OFFICIO MEMBERS

MICHAEL F. WALSH, *Director of Registration and Education,*
Springfield, *Chairman*
FRANCIS G. BLAIR, *Superintendent of Public Instruction,*
Springfield, *Secretary*

APPOINTED MEMBERS

1923-1929

Elmer T. Walker, Macomb
Ernest E. Cole, Chicago
J. B. Loebner, Chicago

1925-1931

John C. Allen, Monmouth
Frank M. Hewitt, Carbondale
N. M. Mason, Oglesby

1927-1933

Edgar B. Still, DeKalb
Mrs. M. K. Northam, Evanston
Charles E. McMorris, Marshall

Under the provisions of the Civil Administrative Code for the consolidation of State agencies under the direction of the Governor, the five State Normal Schools of Illinois are controlled by a single board consisting of eleven members: the Director of Registration and Education, who is *ex-officio* chairman, the Superintendent of Public Instruction, who is *ex-officio* secretary, and nine members appointed by the Governor for terms of six years.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

FACULTY, 1928-1929

Livingston C. Lord.....	President
A. M., Harvard University; LL. D., University of Illinois

Names of teachers with the exception of training teachers are printed in the order of their engagement.

¹ Leave of absence 1928-1929.

² Fall and winter quarters.

³ Spring quarter.

PART I
GENERAL INFORMATION

The Eastern Illinois State Teachers College is a TEACHERS COLLEGE, Class A, in the American Association of Teachers Colleges, and a COLLEGE, List A, in the North Central Association of Colleges and Secondary Schools.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickle Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were seventeen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1928 one hundred and two students were graduated from the Junior College and twenty-four from the Senior College.

During the summer of 1901, a six weeks' session was offered for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence at Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1912 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building completed in 1929 is used for home economics (Smith-Hughes) and for manual and industrial arts.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the

secondary colleges and normal schools of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, class rooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains class rooms and a laboratory for high school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For table board, \$5.50 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. This deposit is credited to the student, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, furnishes excellent facilities for students who wish to specialize in manual arts and home economics for grade and high school positions and for the preparation of teachers in these subjects for the Smith-Hughes' Vocational Schools. Shops are provided for practice in all kinds of hand and machine woodwork, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of class rooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a large dining room, a unit kitchen, a foods class room and teachers' rooms, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 1,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 34,000 books and pamphlets. The reference books, bound periodicals, and research books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room to which all students of the Teachers College and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculums and explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimental and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake, and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped that each student has light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes.

occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly 700 hundred mounted birds and mammals and over three hundred specimens of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

FEES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

A fee of \$5.00 a quarter for registration and other incidentals is paid by all above the eighth year.

Textbooks are rented to students at a uniform price of \$1.50 a quarter. Students wishing to own the books may buy them at the textbook library.

A student activity fee of \$3.25 a quarter, covering athletics, recreation, and *The Teachers College News*, is paid by all college students and \$2.25 by high school students.

A fee of \$5.00 a quarter is paid for voice, piano, or other instrument lessons. Students pay for materials they use in art, home economics, and manual arts.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration and an additional fee of \$1.00, if a change in programme is made after the third day of the quarter.

The original transcript of a student's record, including one carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

(Signature of student)

Date.....

BOARD AND ROOM

Board and room can be obtained in private families for from \$7.00 to \$7.50 a week. Students renting rooms and keeping houses can materially reduce this amount. Room without board can be obtained for from \$2.00 to \$3.00 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week, payable each six weeks in advance (\$45.00 at the beginning of each six weeks). For table board, \$5.50 a week is charged, payable each six weeks in advance (\$33.00 at the beginning of each six weeks). Students are not required to furnish anything.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the Bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano, voice, or instrument lessons.

LINDLEY SCHOLARSHIPS.—"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards when it is possible four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the years 1927-1929, but the Association hopes to offer these scholarships again for the year 1929-1930. The receivers of the award are members of the Freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English. The award for 1929-1930 goes to Kermit Chancil Dehl.

THE TEACHERS COLLEGE HIGH SCHOOL SCHOLARSHIP PRIZE.—The 1927 graduating class of the Teachers College High School established a fund of \$125.00, the interest from which is used each year for a scholarship prize to be given to the member of the graduating class of that year who has maintained the highest standard of scholarship throughout his or her four years in the Teachers College High School.

The second award was made to Frances Hale Weir of the high school graduating class of 1929.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help

him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of season tickets and single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Devereux Players, Tony Sarg's Marionettes.

The entertainment course for 1928-29 was as follows: Irene and Moissaye Boguslawski, Two-Piano Recital; Carl Sandburg; Lecture-Recital; Stratford Players, Julius Caesar; William V. Granville, Dramatic Recital; Cleveland Symphony Orchestra; Charles Crawford Gorst, Lecture on Birds.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." The major production of the year for each is the commencement play. Other programmes are presented during the year if suitable talent is available. The high school organization is called "The Footlights Club."

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.
2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.

3. To encourage familiar acquaintance with the artists of the theatre of all times.

4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—A six-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Mondays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A committee consisting of five members of the faculty and a student from each Teachers College class has charge of student recreations which are not solely class affairs. The latter are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

DOMAFIAN ART CLUB.—The Domafian Art Club is a students' organization for those whose major subject is home economics, manual arts, or fine arts, and for those in other curriculums who are interested in the work of the club. The purpose is to learn more about such special field than can be learned in the class room. Exhibitions, lectures, and visits to studios, museums, and art galleries are a part of the work of the club.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Any one who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of forty-eight students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming

regular members. The initiation for new members is held during the spring quarter of each school year.

DELTA LAMBDA SIGMA.—During the winter term of 1927-28, the Beta Chapter of the Delta Lambda Sigma fraternity was organized under the direction of the Alpha Chapter of the Indiana State Normal School at Terre Haute.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to coöperate actively with the school in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty appointed by the president; two students, elected by the students and the athletic coach. An athletic fee of two dollars is charged each college student and one dollar, each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The teachers of the Teachers College encourage the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Board of Control was merged with the old Student Council in the fall quarter of the year 1928-1929. The new Student Council was organized as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council now consists of eleven members: four from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice president, secretary, treasurer, and historian.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Mr. Herman Cooper, '13, 312 Washington Blvd., Oak Park, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day. Returning graduates attend morning exercises at ten o'clock and the alumni dinner in the evening. It is customary to have in the afternoon a ball game between members of the regular team and players on former teams.

The officers of the association are:

Mr. Gordon A. Cook, '26, President and Chairman of the Executive Committee.

Mr. William H. Green, '27, Vice-President.

Mrs. Marguerite Holaday Bainbridge, '07, Secretary and Treasurer.

Executive Committee

Mr. H. Maurice Sullivan, '28.

Miss Myrtle N. Dunlap, '23.

Miss G. Cleo Jeffries, '28.

Mr. Wayne E. Isley, '29.

Mr. Ralph E. Edwards, '27.

Standing Committee for Advancing the Interests of the College

Mrs. Florence Sutton Ogg, '21 and '23 (term expires in 1929).

Mr. Alonzo F. Goldsmith, '13 and '24 (term expires in 1930).

Mr. Bruce Corzine, '13 (term expires in 1931).

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College.

The Junior College.

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the district.

A summer quarter of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer quarter of 1930 begins on Saturday, June 7, and closes on Friday, August 29. It consists of two sessions of six weeks each, the first closing Friday, July 18. Students may attend either or both sessions.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the Registrar.*

of the Teachers College. This should be done before the date of entering.

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. A two-year diploma is granted also in English, manual arts, and music. Four-year curriculums prepare teachers for high schools, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education and not less than one year of college work in Greek, Latin, French, or German.

Students planning to do graduate work at the University of Illinois should see that their records satisfy the foreign language requirement.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than sixteen quarter hours (four "credits") behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer quarter if he completes the work by that time. It is possible to earn sixteen quarter hours (four "credits") in the summer quarter.

SCHOLARSHIP

I. Grades are expressed in letters as follows:

- A, Excellent3 grade points
- B, Good2 grade points
- C, Fair1 grade point
- D, Poor, but passing*.....0 grade points
- E, Condition0 grade points
(incomplete work)
- F, Failure—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the spring quarter and for the preceding year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

V. The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of five credits.

VI. A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

VII. A student failing in three courses, twelve quarter hours (three "credits") in any quarter or in one-half of his work, six quarter hours (two "credits") in each of two consecutive quarters is dropped from the college.

VIII. No freshman in a four-year curriculum may register for extra work in his first quarter.

No sophomore may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as facilities permit. It is especially urged that such aid be sought if the college may be able to give in improving present teaching in elementary schools. A skillful teacher in visiting schools and talking with teachers is able to be of great assistance to those of experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

CURRICULUMS

For graduates of recognized four-year high schools, the following curriculums are offered:

I. Two-year Curriculums, 96 quarter hours (24 "credits") each, leading to a diploma:

1. For preparation of teachers for the grades. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year of the work entitles a student to recommendation for a second grade certificate without examination provided his grades satisfy the requirement for admission to practice teaching.
2. For preparation of special teachers of manual arts and music. This diploma entitles the holder to a special certificate in one of these subjects and to a first grade certificate. The completion of the first year of work entitles a student to recommendation for a second grade certificate without examination provided his grades satisfy the requirement for admission to practice teaching.
3. For the preparation of department teachers of English in the upper grades. It is open to students well-prepared in English, especially those who have had some experience in teaching. This diploma entitles the holder to a first grade elementary school certificate without examination. The completion of the first year's work entitles him to recommendation for a second grade certificate without examination provided his grades satisfy the requirement for admission to practice teaching.

II. Four-Year Curriculums, 192 quarter hours (48 "credits") each, for preparation of the following:

1. Primary Supervisors and Training Teachers.
2. Grammar Grade Teachers, High School Teachers, Teachers of Special Subjects:
 - A. Art and Design
 - B. English
 - C. Foreign Language
 - D. Geography
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)
 - G. Manual Arts
 - H. Mathematics
 - I. Science (Biological)
 - J. Science (Physical)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

A Teachers College "credit" is equivalent to four quarter hours and one-half semester hours.

Instrumental music or voice work may be used for elective credit to the extent of 12 quarter hours (3 "credits," two years' work). A student may count toward graduation more than 12 quarter hours (three "credits") of instrument or voice work.

Credit is allowed for physical education, coaching theory (33, 34, 36, 37, 38), and for Library 20 at the rate of one quarter hour (one-fourth of a "credit") for each quarter's work.

Credit is allowed for dramatics, College News, glee club, quartette, orchestra, and band at the rate of one quarter hour (one-fourth of a "credit") to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in physical education, library use, dramatics, College News, glee club, quartette, orchestra, or band is in excess of the 12 quarter hours (24 "credits") required for a diploma and of the 48 quarter hours (48 "credits") required for a degree.

The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 1-19 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count toward the Junior College.

MAJOR AND MINOR SUBJECTS

In four-year curriculums for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours (twelve "credits") of work in a major subject and 24 quarter hours (six "credits") in a minor subject, in some cases specified by the depart-

ment of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, 36, Trigonometry 33, Analytics 34, 35.

In music only public school music may be used as the minor subject, the courses required being Music 32, 33, 34, 35, 36, 37.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject.

ELECTIVES

There are three groups of electives: one for those in the Senior College, numbered 43 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the college. Students should consult the department of the major subject as to choice of electives and of minor subject.

Two years' work in piano, violin, or voice may be used for elective credit (12 quarter hours), but not more than 12 quarter hours in these courses may be offered by a student for credit toward graduation except in the two-year music curriculum in which twenty-four quarter hours are required, twelve in piano and twelve in voice work.

Music 32, 33, 34 or Music 35, 36, 37 may be used for elective credit.

DESCRIPTION OF CURRICULUMS

I. TWO-YEAR CURRICULUMS

96 quarter hours (24 "credits")

1. FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Reading 24
English 20, 21, 27, or 24 or 22	Drawing 24
Arithmetic 20, 21	Library 20
Botany 20 or Zoology 20	Physical Education
Geography 20	

SOPHOMORE YEAR

Education 23, 24 (20, 21)	Geography 21 and English 26 or
Teaching 20, 21, 22	English 23 and Education 25
History (two consecutive courses)	(24)
Music 24	Hygiene 20
Manual Arts 24 or 25 (or Art 36 or Art 37)	Physical Education

Notes: 1. The completion of the work of the freshman year entitles the student to recommendation for a second grade certificate without examination provided the student satisfies requirements for admission to practice teaching. The completion of the sophomore year in this curriculum entitles the student to the diploma of Junior College and to a first grade certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parentheses; but laboratory sciences have six or eight fifty-minute periods; art, manual arts, and home economics require eight periods a week for full credit.

3. Students who are graduates of the Teachers College High School substitute Botany 22 for Botany 20.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year. In the high school the fees are \$8.75 for each quarter (12 weeks).

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College.

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teachers their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

In the seventh, eighth, and ninth grades, each of the teachers does department work in the three grades. A training teacher for history has charge of that work in grades five to eight inclusive. A training teacher for music has charge of the music in grades one to eight. A training teacher for drawing has charge of the drawing in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two quarters of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining the Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking a four-year curriculum take one quarter of practice teaching in the Elementary Training School in their second year. Two quarters of teaching, one in the major subject and one in the minor subject, are required of them in the Senior College. The College High School is the Training School for those who are preparing to teach in high schools.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

DESCRIPTION OF COURSES

AGRICULTURE

High School

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One-third of a unit (one "credit").
Fall quarter, even years.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One-third of a unit (one "credit").
Winter quarter, even years.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One-third of a unit (one "credit").
Spring quarter, even years.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One-third of a unit (one "credit").
Fall quarter, odd years.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One-third of a unit (one "credit").
Winter quarter, odd years.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One-third of a unit (one "credit").
Spring quarter, odd years.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. One unit (three "credits"). Art 1, fall quarter, Art 2, winter quarter, Art 3, spring quarter.

College

20. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the four-year curriculum in art. Five hours a week. Four quarter hours (one "credit"). Fall, winter, or spring quarter.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours (one "credit"). Every quarter.

25. METHOD IN DRAWING, GRADES I-IV. The course includes a discussion of the value of art education; its relation to other subjects and to industries; methods of teaching drawing in the lower grades; the ordering of supplies; the planning of lessons.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

26. METHOD IN DRAWING, GRADES V-VIII. A study of the subject matter to be taught in the upper grades.

Four hours a week. Four quarter hours (one "credit"). Fall quarter.

27. HISTORY OF ORNAMENT AND OF ARCHITECTURE.

Four hours a week. Four quarter hours (one "credit"). Winter quarter, odd years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours (one "credit"). Winter quarter, even years.

29. ADVANCED PERSPECTIVE.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

30. REPRESENTATION. Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

31. POSTER WORK. Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours (one "credit"). Winter quarter.

32. DESIGN I. Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours (one "credit"). Winter quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. Paper work, weaving, woodwork, simple basketry, knotting, clay, and other mediums used in the lower grades.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. More advanced work in woodworking, basketry, clay, and other mediums.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours (one "credit"). Winter quarter.

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. Four quarter hours (one "credit"). Winter quarter.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. Four quarter hours (one "credit"). Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours (one "credit"). Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course the fundamentals of interior decoration. Emphasis is placed on color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and materials used in interiors.

Eight hours a week. Four quarter hours (one "credit"). Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations, and rooms in perspective.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours each a week. Eight quarter hours (two "credits"). Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

EDUCATION AND TEACHING

I. EDUCATION

College

Note:—Beginning with the fall quarter, 1928-29, a change was made in the content of the three courses in education required of freshmen and called "Psychology 20, 21, 22." The new courses are now listed as Education 20, 21, 22.

Those who have had the old "Psychology 20" should complete the year's work by taking the new Education 20 and 22. Those who have had the old "Psychology 20, 21" complete the year's work by taking Education 22.

Students who have not had the old "Psychology 20, 21, 22" take the new courses in education listed here as "Education 20, 21, 22."

20. AN INTRODUCTION TO EDUCATION. This course is intended to provide the student with a general view of the more important phases of a teacher's work. The meaning and the interrelation of the

Following matters form the subject matter of the course: the organization of public education; the teacher's relation to other school officials; school property; the materials of education; methods of using school material; the learning process; qualifications of teachers; the purpose of public education. The succeeding courses in education deal in greater detail with the several topics introduced in this beginning course.

Four hours a week. Four quarter hours (one "credit"). Fall, winter, and summer quarters.

21. AN INTRODUCTION TO EDUCATIONAL PSYCHOLOGY. This course uses the discussion on the learning process of the preceding course as its point of departure and introduces the student to the forms of student behavior by which man adapts himself to the world. The material of the course includes: the physical basis of behavior; the instinctive equipment of man; the emotions; the laws of learning and their economical application; the organization of experiences into percepts and ideas; transfer of training; individual differences; intelligence; the interrelation of various forms of behavior.

Four hours a week. Four quarter hours (one "credit"). Winter, spring, and summer quarters.

22. THE PSYCHOLOGY OF ELEMENTARY SCHOOL SUBJECTS. This course makes an analysis of the material used in elementary education with a view to understanding the learning problems involved. The special psychology of the following subjects is considered: reading, arithmetic, handwriting, spelling, history, geography, nature study, music, drawing. Some attention will be given to the diagnosis of special difficulties in these subjects and the appropriate remedial measures.

Four hours a week. Four quarter hours (one "credit"). Spring and summer quarters.

23 (20). PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching and the school management course which follows.

Four hours a week. Four quarter hours (one "credit"). Every quarter.

24 (21). SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily programme, discipline, and the technique of teaching are discussed.

Four hours a week. Four quarter hours (one "credit"). Every quarter.

25 (24). PRIMARY EDUCATION. The course deals with reading, number, dramatization, story telling, games and other activities belonging to a primary school.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

26. PRIMARY DRAWING AND HANDWORK. See Art 25 and Art 30.

27. CHILD PHYSIOLOGY.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. Four quarter hours (one "credit"). Omitted 1929-1930.

28. FOLK GAMES AND PRIMARY MUSIC.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. Four quarter hours (one "credit"). Omitted 1929-1930.

40. METHODS IN THE MAJOR SUBJECT.

Prerequisite: Three years of work in the major subject. Required in four-year curriculums. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. HIGH SCHOOL PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT. See Teaching 41, 42.

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurements of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Required or elective. Four hours a week. Four quarter hours (one "credit"). Summer quarter and fall quarter, even years.

45. THE PSYCHOLOGY OF SECONDARY EDUCATION. The purpose of this course is to trace the psychological principles which are basic to the teaching of high school subjects. General types of learning are discussed, such as: motor learning, association learning, problem-solving, habit-formation. High school subjects are analyzed and the relations of the general types of learning to particular subjects are pointed out. The general organization of the high school as it is determined by the nature of the adolescent student is touched upon.

Required. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. Omitted 1929-1930.

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups,

such as the mob, the gang, clubs, classes, sects, nations, are studied with reference to their bearing upon education.

Required or elective in the junior year. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of problems of educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high school principal in organizing and administering schools. School law and finance as well as current educational problems receive attention in this course.

Required or elective in the junior year. Four hours a week. Four quarter hours (one "credit"). Fall quarter, odd years, and summer quarter.

49. PHILOSOPHY OF EDUCATION.

Required or elective in the junior year. Four hours a week. Four quarter hours (one "credit"). Omitted 1929-1930.

58. HISTORY OF INDUSTRIAL EDUCATION.

Required in the junior year of the curriculums in home economics and manual arts. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

II. TEACHING

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curriculums. Five hours a week. Four quarter hours (one "credit"). Fall, winter, and spring quarters.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours (one "credit") for each course. Fall, winter, and spring quarters.

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. Five hours a week. Four quarter hours (two "credits"). Fall, winter, and spring quarters.

41 P, 42 P, 43 P. PRACTICE TEACHING AND SUPERVISION IN PRIMARY GRADES.

Required in the Senior College in the curriculum for preparation of primary teachers. Five hours a week. Four quarter hours (three "credits"). Fall, winter, and spring quarters.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. One unit (three "credits"). English 1, fall quarter; English 2, winter quarter; English 3, spring quarter.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. One unit (three "credits"). English 4, fall quarter; English 5, winter quarter; English 6, spring quarter.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, 3, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. One unit (three "credits"). English 7, fall quarter; English 8, winter quarter; English 9, spring quarter.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative,

eric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. One unit (three "credits"). No credit for less than the year's work. English 10, fall quarter; English 11, winter quarter; English 12, spring quarter.

College

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curriculums. Four hours a week. Four quarter hours (one "credit") for each course. Every quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, epic,—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours (one "credit"). Spring and summer quarters.

23. LITERATURE AND STORY-TELLING, GRADES I-IV.

The study of stories suitable for telling to children; practice in selecting, adapting, and telling stories before the class.

Required in the second year of the curriculum for preparation of teachers for primary grades. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and accepted for English 25 by students in a four-year curriculum with English as the major subject. Four hours a week. Four quarter hours (one "credit"). Spring and summer quarters.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature,

including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in all special two-year curriculums and in the four-year curriculum. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year, of the two-year curriculum and in the two-year English curriculum. Four hours a week. Four quarter hours (one "credit"). Every quarter.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Required in the two-year English curriculum; elective in other curriculums; and alternative with English 22. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary to furnish him with standards of judgment.

Prerequisite: English 30 to 31. Four hours a week. Eight quarter hours (two "credits"). English 30, fall quarter; English 31, winter quarter.

32. ADVANCED COMPOSITION. An elective course in writing for those interested in this form of art. Essays, stories, plays, and poems may be attempted, according to individual or class decision. It may be substituted for any elective English course.

Prerequisite: English 20 and 21. Elective. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Prerequisite: English 30, 31. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours (one "credit"). Winter quarter.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. English 41, four quarter hours (one "credit"); English 42, four quarter hours (one "credit"). English 41, winter quarter; English 42, spring quarter.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curriculums. Four hours a week. Four quarter hours (one "credit"). Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research, and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curriculums. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curriculums. Four hours a week. Four quarter hours (one "credit"). Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art.

Required in the English curriculum; elective in others. Four hours a week. English 46, four quarter hours (one "credit"); English 47, four quarter hours (one "credit"); English 48, four quarter hours (one "credit"). Fall, winter, and spring quarters.

49, 50. MODERN ENGLISH PROSE. The development of English prose in types other than the novel, chiefly the essay and the short story.

Four hours a week. Eight quarter hours (two "credits"). Fall and winter quarters.

51. HISTORY OF THE ENGLISH LANGUAGE AND ADVANCED GRAMMAR.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. *The Phonetic Chardenal*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. One unit (three "credits"). French 1, fall quarter; French 2, winter quarter; French 3, spring quarter.

4, 5, 6. SECOND YEAR FRENCH. *The Phonetic Chardenal. L'Abbe Constantin. Le Voyage de M. Perrichon. Colomba*. Sight reading conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. One unit (three "credits"). French 4, fall quarter; French 5, winter quarter; French 6, spring quarter.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours (three "credits"), no credit toward graduation for less than a year's work. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter.

33, 34, 35. ADVANCED FRENCH. Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Twelve quarter

hours (three "credits"). French 33, fall quarter; French 34, winter quarter; French 35, spring quarter, even years.

36, 37, 38. ADVANCED FRENCH. Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: One year of college French. *Elective.* Four hours a week. Twelve quarter hours (three "credits"). French 36, fall quarter; French 37, winter quarter; French 38, spring quarter, odd years.

GERMAN

College

30, 31, 32. FIRST YEAR GERMAN.

Elective. Four hours a week. Twelve quarter hours (three "credits"), no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. SECOND YEAR GERMAN. Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German 30, 31, 32, or the equivalent. *Elective.* Four hours a week. Twelve quarter hours (three "credits"), even years.

36, 37, 38. THIRD YEAR GERMAN. Longer and more advanced German stories and a few plays by standard authors. German 38 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. *Elective.* Four hours a week. Twelve quarter hours (three "credits"), odd years.

LATIN

High School

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. *Elective.* Five hours a week. One unit (three "credits"). Latin 1, fall quarter; Latin 2, winter quarter; Latin 3, spring quarter.

4, 5, 6. SECOND YEAR LATIN. Caesar, Books I-IV with selections from the other books. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. One unit (three "credits"). Latin 4, fall quarter; Latin 5, winter quarter; Latin 6, spring quarter.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin ele-

ment in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. *Elective.* Five hours a week. One unit (three "credits"). Fall, winter, and spring quarters, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-V. Greek and Roman mythology, poetical construction, figures, prosody. Virgil's debt to Homer, the memorizing of selected lines and passage sight translation.

Prerequisite: Latin 4, 5, 6. *Elective.* Five hours a week. One unit (three "credits"). Fall, winter, and spring quarters, odd years.

College

30. LIVY, SELECTIONS FROM BOOKS I, XXI, AND XXII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours (one "credit"). Fall quarter, odd years.

31. CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Course 30. Four hours a week. Four quarter hours (one "credit"). Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Course 31. Four hours a week. Four quarter hours (one "credit"). Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours (one "credit"). Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Course 33. Four hours a week. Four quarter hours (one "credit"). Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Course 34. Four hours a week. Four quarter hours (one "credit"). Spring quarter, even years.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN LATIN.

Prerequisite: Latin 40. Five hours a week. Eight quarter hours (two "credits"). Winter and spring quarters.

43. OVID, METAMORPHOSES.

Four hours a week. Four quarter hours (one "credit"). Fall quarter, even years.

44. PLINY, LETTERS.

Four hours a week. Four quarter hours (one "credit"). Winter quarter, even years.

45. LATIN WRITING.

Four hours a week. Four quarter hours (one "credit"). Spring quarter, even years.

46. TACITUS, GERMANIA, AGRICOLA, AND SELECTIONS FROM THE ANNALS AND HISTORIES.

Four hours a week. Four quarter hours (one "credit"). Fall quarter, odd years.

47. LATIN POETRY. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. Four quarter hours (one "credit"). Winter quarter, odd years.

48. LATIN DRAMA. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. Four quarter hours (one "credit"). Spring quarter, odd years.

GEOGRAPHY

High School

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit (one "credit"). Fall quarter.

2. PHYSIOGRAPHY AND COMMERCIAL GEOGRAPHY. The first half of this quarter's work is a continuation of Geography I. The second half begins the work in Commercial Geography.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit (one "credit"). Winter quarter.

3. COMMERCIAL GEOGRAPHY, continued.

Prerequisite: Course 2. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit (one "credit"). Spring quarter.

College

20. PRINCIPLES OF HUMAN GEOGRAPHY.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in the two-year English curriculum. Elective for all others. Four hours a week. Four quarter hours (one "credit"). Every quarter.

21. CLIMATOLOGY. A study of climate and its influence upon form and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades and in the two-year English curriculum. Elective for others. Four hours a week. Four quarter hours (one "credit"). Every quarter.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Elective. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

36. GEOLOGY.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

40. THE TEACHING OF GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours (two "credits"). Winter and spring quarters.

43. PHYSIOGRAPHY.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

44. TRANSPORTATION.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours (one "credit"). Spring quarter, odd years.

46. URBAN GEOGRAPHY.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours (one "credit"). Spring quarter, even years.

HISTORY, SOCIOLOGY, GOVERNMENT, AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One-third of a unit (one "credit"). Fall quarter.

2. THE GREEKS AND GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One-third of a unit (one "credit"). Winter quarter.

3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN INVASIONS.

Elective in the tenth year. Five hours a week. One-third of unit (one "credit"). Spring quarter.

4. THE HISTORY OF ENGLAND TO 1400.

Required in the eleventh year. Five hours a week. One-third of unit (one "credit"). Fall quarter.

5. THE HISTORY OF ENGLAND, 1400-1715.

Required in the eleventh year. Five hours a week. One-third of unit (one "credit"). Winter quarter.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1715 TO THE PRESENT.

Required in the eleventh year. Five hours a week. One-third of unit (one "credit"). Spring quarter.

7. AMERICAN HISTORY TO 1800.

Elective in the twelfth year. Five hours a week. One-third of unit (one "credit"). Fall quarter.

8. THE HISTORY OF THE UNITED STATES, 1800-1865.

Elective in the twelfth year. Five hours a week. One-third of unit (one "credit"). Winter quarter.

9. THE HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Elective in the twelfth year. Five hours a week. One-third of unit (one "credit"). Spring quarter.

College

The history requirement in the Junior College may be fulfilled by selecting any two consecutive terms of either European or American history or Ancient history.

30. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours (one "credit"). Fall quarter.

31. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours (one "credit"). Winter quarter.

32. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1800.

Four hours a week. Four quarter hours (one "credit"). Fall quarter.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1800-1865.

Four hours a week. Four quarter hours (one "credit"). Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

36. GOVERNMENT AND ILLINOIS HISTORY.

Four hours a week. Four quarter hours (one "credit"). Summer quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours (one "credit"). Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours (one "credit"). Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required. Five hours a week. Four quarter hours (one "credit"). Course 41, winter quarter; Course 42, spring quarter

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours (three "credits"). Fall, winter, and spring quarters.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Twelve quarter hours (three "credits"). Summer quarter (Course 43).

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-third of a unit (one "credit"). Fall quarter.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-sixth of a unit (one-half "credit"). First half of the winter quarter.

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours (one "credit"). Fall quarter, even years.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours (one "credit"). Winter quarter, even years.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. Four quarter hours (one "credit"). Spring quarter, even years.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter term, and Economics 2, spring term, complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One-half unit (one and one-half "credits"). Economics 1a, second half of the winter quarter; Economics 2, spring quarter.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the two-year curriculum in Manual Arts. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

HOME ECONOMICS

High School

I. DOMESTIC ART

4. ELEMENTARY TEXTILE STUDY. Discussion of materials as to cost, widths, wearing qualities, and adaptation to various garments. Pattern drafting, making of simple cotton garments. Use of sewing machine. Pressing and folding of garments.

Elective. Ten hours a week. One-third of a unit (one "credit"). Fall quarter, odd years.

5. SEWING. Study of commercial pattern, testing and altering. Making of garments requiring fine handsewing and machine sewing. Care and repair of clothing.

Prerequisite: Domestic Art 4. Elective. Ten hours a week. One-third of a unit (one "credit"). Winter quarter, odd years.

6. CLOTHING SELECTION. Study of clothing budget. Elementary costume design and principles of clothing selection. Planning the high school girl's wardrobe. Making of simple dresses of cotton, wool, and silk.

Prerequisite: Domestic Art 5. Elective. Ten hours a week. One-third of a unit (one "credit"). Spring quarter, odd years.

II. DOMESTIC SCIENCE

4. FOOD STUDY. Preservation of foods. Classification, selection and preparation of foods. Classification and study of cooking processes.

Elective. Ten hours a week. One-third of a unit (one "credit"). Fall quarter, even years.

5. FOODS. Principles involved in preparation of all classes of foods. Experiments. Food study continued.

Prerequisite: Domestic Science 4. Elective. Ten hours a week. One-third of a unit (one "credit"). Winter quarter, even years.

6. THE PREPARATION AND SERVING OF MEALS. Marketing. Menu planning. Study of the cost of meals and of the food budget. Meal planning and table service.

Prerequisite: Domestic Science 5. Elective. Ten hours a week. One-third of a unit (one "credit"). Spring quarter, even years.

College

Note: The four-year curriculum in home economics (See Curriculum II. 3. F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. DOMESTIC ART

30. TEXTILES.

Prerequisite: Art 30, 31, 32 unless the student is taking Art 30, 31, 32. Eight hours a week. Four quarter hours (one "credit"). Summer and fall quarters.

31. CLOTHING I.

Prerequisite: Course 30. Eight hours a week. Four quarter hours (one "credit"). Winter quarter.

32. GARMENT MAKING.

Prerequisite: Course 31. Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

33. COSTUME DESIGN.

Prerequisite: Course 32. Eight hours a week. Four quarter hours (one "credit"). Fall quarter, even years.

34. CLOTHING II.

Prerequisite: Course 33. Eight hours a week. Four quarter hours (one "credit"). Winter quarter, even years.

35. ADVANCED DRESSMAKING AND MILLINERY.

Prerequisite: Course 34. Eight hours a week. Four quarter hours (one "credit"). Spring quarter, even years.

II. DOMESTIC SCIENCE

30. FOOD STUDY.

Prerequisite: Chemistry 30, 31, 32 unless the student is taking Chemistry 30. Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

31. FOODS I.

Prerequisite: Course 30. Eight hours a week. Four quarter hours (one "credit"). Winter quarter.

32. FOODS II.

Prerequisite: Course 31. Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

33. EXPERIMENTAL COOKING.

Prerequisite: Course 32. Eight hours a week. Four quarter hours (one "credit"). Fall quarter, odd years.

34. DIETETICS.

Prerequisite: Course 33 and Chemistry 23, 24, 25 unless the student is registered for Chemistry 23, 24, 25. Eight hours a week. Four quarter hours (one "credit"). Winter quarter, odd years.

35. MEAL PLANNING AND TABLE SERVICE.

Prerequisite: Course 33. Eight hours a week. Four quarter hours (one "credit"). Spring quarter, odd years.

III. HOME ECONOMICS

20. PRACTICE TEACHING IN HOME ECONOMICS.

Required in the sophomore year of the Smith-Hughes curriculum in home economics. Five hours a week. Four quarter hours (one "credit"). Fall quarter.

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Senior standing in the home economics curriculum. Four hours a week. Four quarter hours (one "credit"). Spring quarter, senior year.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL HOME ECONOMICS

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours (two "credits"). Winter and spring quarters, senior year.

43. HOUSEHOLD PHYSICS. See Manual Arts 39.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

45. HOUSEHOLD MANAGEMENT.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

46. HOME NURSING AND CHILD CARE.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

47. INDUSTRIAL HISTORY. See Manual Arts 58.

Prerequisite: Junior standing in the home economics or manual arts curriculum. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall quarter every year, and winter quarter, odd years.

20. THE USE OF THE LIBRARY.

Freshmen who have completed Library XI are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One-sixth of a unit (one half 'credit'). Every quarter.

2. MECHANICAL DRAWING. A continuation of Manual Arts 1. Seven plates are considered a quarter's work. Two and three view working drawings are the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One-sixth of a unit (one-half 'credit'). Every quarter.

3. MECHANICAL DRAWING. Eight plates are required this quarter. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One-sixth of a unit (one-half 'credit'). Every quarter.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools is given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One-sixth of a unit (one-half 'credit'). Every quarter.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One-sixth of a unit (one-half 'credit'). Every quarter.

6. BENCH METAL WORK. The elements of sheet metal work are taken up in this course. Pupils make several sheet metal problems. Mild steel or wrought iron articles also are made.

Elective. Five hours a week. One-sixth of a unit (one-half "credit"). Spring quarter.

7. MACHINE WOODWORK. Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Course 3 and Course 6. Elective. Ten hours a week. One-third of a unit (one "credit"). Fall quarter.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Course 7. Elective. Ten hours a week. One-third of a unit (one "credit"). Winter quarter.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter quarter is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Course 7. Elective. Ten hours a week. One-third of a unit (one "credit"). Spring quarter.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20, 21, 22. PRACTICE TEACHING IN MANUAL ARTS.

Required in the sophomore year in the curriculums in Manual Arts. Five hours a week. Twelve quarter hours (three "credits").

23. THE TEACHING OF MANUAL ARTS.

Required in the curriculums in Manual Arts. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

24. PRIMARY GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reeds and raffia), clay work.

Required in the two-year curriculum unless Manual Arts Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours (one "credit"). Spring and summer quarters.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Manual Arts Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours (one "credit"). Fall and summer quarters.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, ortho-

graphic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Manual Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. Two quarter hours (one-half "credit"). Every quarter.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Two quarter hours (one-half "credit") for each course. Every quarter.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Four hours a week. Two quarter hours (one-half "credit"). Every quarter.

34. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33. Four hours a week. Two quarter hours (one half "credit"). Every quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Course 34. Four hours a week. Two quarter hours (one half "credit"). Spring quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. Eight quarter hours for the two courses (two "credits"). Winter, spring, and summer quarters.

39. HOUSEHOLD MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists in the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers.

Required of all students whose major subject is Manual Arts and accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. Four quarter hours (one "credit"). Fall and summer quarters.

40. THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS. See Manual Arts 23.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS. See Manual Arts 21, 22.

43. SHEET METAL WORK.

Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

46. PATTERN MAKING.

Eight hours a week. Four quarter hours (one "credit"). Fall quarter.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. Four quarter hours (one "credit"). Fall and winter quarters.

48. MACHINE SHOP.

Eight hours a week. Four quarter hours (one "credit"). Every quarter.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. Two quarter hours (one half "credit") for each course. Every quarter.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. Two quarter hours (one half "credit") for each course. Every quarter.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. Four quarter hours (one "credit"). Winter and spring quarters.

54. ADVANCED MACHINE SHOP.

Eight hours a week. Four quarter hours (one "credit"). Every quarter.

55, 56. CARPENTRY.

Eight hours a week. Eight quarter hours (two "credits") for two courses. Carpentry 55, winter quarter; Carpentry 56, spring quarter.

57. AUTOMOBILE REPAIRS II.

Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

59, 60, 61. PRINTING I, II AND III.

Eight hours a week. Four quarter hours (one "credit") for each course. Printing I, every quarter; Printing II, winter and spring quarters; Printing III, spring quarter.

MATHEMATICS

High School

1. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One-third of a unit (one "credit"). Fall quarter.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One-third of a unit (one "credit"). Winter quarter.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One-third of a unit (one "credit"). Spring quarter.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One-third of a unit (one "credit"). Fall quarter.

5. GEOMETRY 2. Chapters V, VI, VII, and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One-third of a unit (one "credit"). Winter quarter.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One-third of a unit (one "credit"). Spring quarter.

7. SOLID GEOMETRY 4. Chapters XII-XVI. Solid Geometry is begun in the second half of Mathematics 9 (Algebra 5). Algebra 4, Algebra 5, Geometry 4 give credit for one-half unit each in Algebra and Geometry.

Prerequisite: Geometry 3 and the second half of Algebra 5. Five hours a week. One-third of a unit (one "credit"). Spring quarter.

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include

complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One third of a unit (one "credit"). Fall quarter.

9. ALGEBRA 5. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability. In the second half of this quarter, Solid Geometry is begun.

Prerequisite: Algebra 4. Elective. Five hours a week. One third of a unit (one "credit"). Winter quarter.

College

20. ARITHMETIC. This course includes notation and numeration the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours (one "credit"). Every quarter.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours (one "credit"). Winter, spring, and summer quarters.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Prerequisite: One year of high school algebra and plane geometry. Required of those whose major subject is mathematics and who have had solid geometry in high school. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students take Manual Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two terms. Four quarter hours (one "credit") for Manual Arts 30 and 31. Every quarter.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, 21, Geometry 28. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Geometry 28 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours (one "credit"). Fall and summer quarters.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Course 34. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

36. ALGEBRA. Theory of equations including elementary transformations, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. Four quarter hours (one "credit"). Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours (two "credits"). Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Twelve quarter hours (three "credits"). Course 43, fall quarter; Course 44, winter quarter; Course 45, spring quarter, odd years.

MUSIC

Musical Organizations

THE COLLEGE CHORUS. This chorus is composed of one hundred fifty or two hundred students who meet at half past nine on Wednesdays to learn something about correct singing habits and to study choral numbers for a concert.

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the College year, College men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE GIRLS' GLEE CLUB. This club is open to all College girls. There is one rehearsal a week. The club gives an annual concert.

THE COLLEGE ORCHESTRA. The orchestra consists of eighteen or twenty pieces. It rehearses once a week and plays at morning exercises occasionally as well as at other public gatherings.

THE BAND. The band is open to all students who show sufficient ability on any band instrument. The band owns instruments available for student use. Application to play one of these should be made in writing to the director of the band. The student should state what instrument he plays, how long he has played, and with what organizations.

CLASS INSTRUCTION IN MUSIC

VIOLIN, CLARINET, CORNET. These classes are open to beginners only and meet twice a week for one period with one quarter hour credit for each quarter. The time is arranged by the class and instructor. Lessons are free of charge. Instruments may be rented. Enrollment is limited to fifteen pupils in each class.

VOICE. This class meets four times a week. The purpose is to give free instruction without credit in the correct use of the speaking and singing voice, including breath control, relaxation, enunciation, and the development of resonance.

High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes' preparation.

Elective in the tenth, eleventh, or twelfth years. Five hours a week. One unit (three "credits"). No credit for less than the whole year's work.

Notes.—1. The high school girls' glee club is composed of 20 girls, chosen from the high school, who meet twice a week.

2. Chorus, twice a week, is required in the ninth year.

Public School Music

20, 21, 22. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Twelve quarter hours (three "credits"). Fall, winter, and spring quarters.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours (one "credit"). Fall, winter, and summer quarters.

32. SIGHT SINGING. Sight singing of one- and two-part songs in both modes using intermediate tones and fairly complicated rhythmic combinations.

Required in the first year of the two-year curriculum in public school music and substituted for Music 24 by those who have had the equivalent of Music 24. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

33. SIGHT SINGING AND ELEMENTARY THEORY. Two, three, and four-part singing. Major, minor, and chromatic scales with some original composition.

Prerequisite: Music 32 (or the equivalent). Four hours a week. Four quarter hours (one "credit"). Winter quarter.

34. PRIMARY MUSIC METHODS. The teaching of rote songs. How to help monotones. The development and care of the child voice. Repertoire of children's songs. The work of the first three grades is studied intensively.

Prerequisite: Music 33 or the equivalent. Four hours a week. Four quarter hours (one "credit"). Spring and summer quarters.

35. UPPER GRADE METHODS. Methods of teaching sight singing, music appreciation, and original composition in grades four to eight inclusive.

Prerequisite: Music 34. Four hours a week. Four quarter hours (one "credit"). Fall and summer quarters.

36. ELEMENTARY HARMONY. This course includes a review of scales. Intervals; triads; simple four-part writing.

Prerequisite: Music 33. Four hours a week. Four quarter hours (one "credit"). Winter quarter.

37. MUSIC APPRECIATION. The course aims to acquaint the student with some of the best music—piano, vocal, and orchestral. It is organized around the study of the varying forms into which musical compositions are cast from the folk song to the symphony. While some knowledge of music is an advantage to members of the class, such knowledge is not a prerequisite.

Four hours a week. Four quarter hours (one "credit"). Spring quarter.

INSTRUMENTAL MUSIC

I. PIANO

In piano instruction, two or three students are assigned to each fifty minute period.

Elective credit in instrumental music to the extent of twelve quarter hours (three "credits") may be used toward graduation.

College

30, 31, 32. PIANO, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours (one and a half "credits") for the year's work. Every quarter.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits") for the year's work. Every quarter.

43, 44, 45. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits"). Every quarter.

46, 47, 48. PIANO, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits"). Every quarter.

II. VIOLIN

College

30, 31, 32. VIOLIN, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours (one and a half "credits") for the year's work. Every quarter.

33, 34, 35. VIOLIN, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits"). Every quarter.

VOICE TRAINING

Elective credit in voice training to the extent of twelve quarter hours (three "credits") may be used for credit toward graduation.

College

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours (one and a half "credits") for the year's work. Every quarter.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits"). Every quarter.

43, 44, 45. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits"). Every quarter.

46, 47, 48. VOICE TRAINING, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. Six quarter hours (one and a half "credits"). Every quarter.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Five hours a week. One quarter hour (one fourth of a "credit") Summer quarter.

24. This course gives a more extended study of penmanship and methods of teaching it in the grades.

Required in Curriculum II, 2. Four hours a week with preparation. Four quarter hours (one "credit"). Omitted 1929-1930.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required in the first year. Two hours a week. Every quarter.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required in the second year. Two hours a week. Every quarter.

College

Note: Credit earned in physical education or in coaching 33, 34, 35; 36, 37, 38 is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

First Year's Work. See above.

One quarter hour (one-fourth of a "credit") for each quarter's work.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

36, 37, 38. ATHLETIC COACHING. Second year.

Elective. One quarter hour (one-fourth of a "credit") for each quarter's work to which one hour a week is given. Fall, winter, and spring quarters.

41, 42, 43, 44. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Coaching 41; basketball, Coaching 42; baseball, Coaching 43; track, Coaching 44.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and senior classification. Registration for one of these courses is made only upon the written recommendation of the director of physical education and the written consent of the teacher of the student's major subject if it is to be substituted for practice teaching in the major subject.

Elective. Ten hours a week. Four quarter hours (one "credit") for each of the courses, but no credit toward graduation for more than one for the same student.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week for two years, is required both in the high school and in the college. A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

Note: Credit earned in these courses is in addition to the 96 quarter hours (24 "credits") and to the 192 quarter hours (48 "credits") required for a diploma or a degree.

Hockey and archery are offered in the fall and spring quarters; gymnastics and individual work in the winter quarter. College students may take folk dancing or clog dancing in the winter quarter instead of gymnastics.

HOCKEY I. Lectures on playing, coaching, and refereeing the game and practice in playing. At the end of the spring quarter there is an interclass tournament. Only students who are physically fit are admitted to this course.

Two hours a week. One quarter hour (one-fourth of a "credit") for each quarter's work. Fall and spring quarters.

HOCKEY II. Lectures and practice in refereeing and coaching as well as in playing the game.

Prerequisite: Hockey I. Two hours a week. One quarter hour (one-fourth of a "credit") for each quarter's work. Fall and spring quarters.

ARCHERY. Lectures and practice in target shooting. Students who are not physically fit to do regular work take this course. At the end of the spring quarter there is an interclass tournament.

Two hours a week. One quarter hour (one-fourth of a "credit") for each quarter's work. Fall and spring quarters.

GYMNASTICS I. Marching, floor work, and apparatus work. For apparatus work, the class is divided into squads, and each squad elects a leader to direct its activities.

Students who took archery in the fall quarter take a restricted type of gymnastics in the winter quarter.

Two hours a week. One quarter hour (one-fourth of a "credit") for each quarter's work. Winter quarter.

GYMNASTICS II.

Prerequisite: Gymnastics I. Two hours a week. One quarter hour (one-fourth of a "credit"). Winter quarter.

FOLK DANCING. Folk dances, singing games, and rhythm plays are taught for use in the grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour (one-fourth of a "credit"). Winter quarter.

CLOG DANCING. Clog and character dances are taught for use in the upper grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour (one-fourth of a "credit"). Winter quarter.

INDIVIDUAL WORK. This course deals with the correction of abnormal conditions such as faults of posture, lateral curvature of the spine, round shoulders, ptosis, weak and flat feet.

Two hours a week. One quarter hour (one-fourth of a "credit") for each quarter's work. Winter quarter.

READING

College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours (one "credit"). Every quarter.

BIOLOGICAL SCIENCE

HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two-thirds of a unit. Winter and spring quarters.

College

20. PHYSIOLOGY. Similar to Course 1, 2, but more advanced with special attention to the digestive system, the nervous system, and sense organs.

Required in the two-year curriculum of those who have not had high school physiology. Eight hours a week. Four quarter hours (one "credit"). First half of the summer quarter.

20. HYGIENE AND SANITATION.

Required in all curriculums. Four hours a week. Four quarter hours (one "credit"). Every quarter.

BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four years' work are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as numerous specimens of the other groups of plants.

High School

1, 2, 3. GENERAL BOTANY. This is a course in general botany for high school students. It is organized in such a way that the students may obtain exact information about the life processes of plants that may be applied to plant culture. Students have the opportunity of learning to know a large number of plants at sight, and to understand something of their physical and chemical structure.

Required in the tenth year unless Zoölogy 1, 2, 3 is substituted. Five sixty-minute periods a week. One unit (three "credits"). Botany 1, fall quarter; Botany 2, winter quarter; Botany 3, spring quarter.

Note: Students who had Botany 1, 2, 3 in the Teachers College High School should take Botany 30, 31, 22, instead of Botany 20, 21, 22.

College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment factors on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 20 or Botany 21 or 22 is taken. Elective in other curriculums. Six hours a week. Four quarter hours (one "credit"). Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours (one "credit"). Winter quarter.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with this a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours (one "credit"). Spring quarter.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems; the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. Four quarter hours (one "credit"). Spring quarter.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours (one "credit"). Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours (one "credit"). Winter quarter.

32. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30 or the equivalent. Elective. Six hours a week. Four quarter hours (one "credit"). Spring quarter.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in biological science unless Zoölogy 40 is substituted. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in biological science unless Zoölogy 41, 42 is substituted. Five hours a week. Course 41, four quarter hours (one "credit"); Course 42, four quarter hours (one "credit"). Winter and spring quarters.

43, 44, 45. ADVANCED BOTANY. These courses are arranged to meet the needs of individual students who have had five quarters (twenty quarter hours), or the equivalent, of botany, and who wish to go on in some special field. The student may choose the field in which he wishes to work, but is required to consult the instructor before registering for any of these courses.

Prerequisite: Botany 20, 21, 22, 30, and 32 or the equivalent of these five courses; and permission of the instructor. Six hours a week (to be arranged with the instructor). Four quarter hours (one "credit") for each quarter's work.

ZOÖLOGY

High School

1. ELEMENTARY INVERTEBRATE ZOÖLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit (one "credit"). Fall quarter.

2. ELEMENTARY VERTEBRATE ZOÖLOGY. Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds, and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit (one "credit"). Winter quarter.

3. FIELD ZOÖLOGY. Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field

or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit (one "credit"). Spring quarter.

College

20. ANIMAL BIOLOGY. A consideration of fundamental biological laws, based upon animal material.

Required in the two-year curriculum, unless Botany 20 or 22 is taken. Six hours a week. Four quarter hours (one "credit"). Every quarter.

20, 21, 22. ELEMENTARY ZOÖLOGY.

Elective. Six hours a week. Twelve quarter hours (three "credits"). Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter.

30, 31, 32. ADVANCED ZOÖLOGY AND SPECIAL METHODS. A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarizing students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours (three "credits"). Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter, even years.

33, 34, 35. ADVANCED ZOÖLOGY. A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours (three "credits"). Course 33, fall quarter; Course 34, winter quarter; Course 35, spring quarter, odd years.

40. METHOD IN HIGH SCHOOL ZOÖLOGY. The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in biological science unless Botany 40 is substituted. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.

Prerequisite: Zoölogy 40. *Required in the senior year in the four-year curriculum in biological science unless Botany 41, 42 is substituted. Five hours a week. Course 41, four quarter hours, (one "credit"); Course 42, four quarter hours (one "credit"), winter and spring quarters.*

43, 44, 45. ADVANCED ZOÖLOGY. This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investigations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisite: Two years of work in zoölogy or biology, and permission of the instructor. Six hours a week (to be arranged with the instructor). Four quarter hours (one "credit") for each quarter's work. Course 43, fall quarter; Course 44, winter quarter; Course 45, spring quarter.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. One-third of a unit (one "credit"). Fall quarter.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology, Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Mechanics; heat, sound, light, electricity.

Prerequisite: Geometry 1, 2, 3. *Required or elective in the twelfth year. Seven hours a week. One unit (three "credits"). Course 1, fall quarter; Course 2, winter quarter; Course 3, spring quarter.*

College

20, 21. COLLEGE PHYSICS FOR MANUAL ARTS STUDENTS. The topics studied in Physics 20 are mechanics and heat; in Physics 21, magnetism and electricity. These courses include the same essential principles as Physics 30, 31, but with the difference that where it is possible the applications and problems as well as the laboratory work are related to manual arts.

Required in manual arts curriculums. Six hours a week. One credit for Physics 20; one credit for Physics 21. Physics 20, fall quarter; Physics 21, winter quarter.

30, 31, 32. FIRST YEAR OF COLLEGE PHYSICS. Mechanics and heat; electricity and magnetism; light and sound.

Seven hours a week. Four quarter hours (one "credit") for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

33, 34, 35. SECOND YEAR OF COLLEGE PHYSICS. Mechanics and heat; electricity and magnetism; light and sound.

Prerequisite: Physics 30, 31, 32. Four hours a week. Four quarter hours (one "credit") for each course. Physics 33, fall quarter; Physics 34, winter quarter; Physics 35, spring quarter, even years.

36, 37, 38. THIRD YEAR OF COLLEGE PHYSICS. Mechanics and heat; electricity and magnetism; light and sound.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours (one "credit") for each course. Physics 36, fall quarter; Physics 37, winter quarter; Physics 38, spring quarter, odd years.

39. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 21 or 31. Eight hours a week. Four quarter hours (one "credit"). Spring quarter.

40. THE TEACHING OF PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Four hours a week. Four quarter hours (one "credit"). Fall quarter.

41, 42. PRACTICE TEACHING IN PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Five hours a week. Four quarter hours (one "credit") for each course. Winter and spring quarters.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. One unit (three "credits"). Chemistry 1, fall quarter; Chemistry 2, winter quarter; Chemistry 3, spring quarter.

College

23, 24. ORGANIC CHEMISTRY. See Chemistry 36, 37.

Prerequisite: Chemistry 30, 31, 32. Required in the junior or senior year of the Smith-Hughes Home Economics curriculum. Eight hours a week. Five quarter hours (one and one-fourth "credits") for each course. Fall and winter quarters, odd years.

25. FOOD AND PHYSIOLOGICAL CHEMISTRY. See Chemistry 38.
Prerequisite: Chemistry 36, 37. *Required in the junior or senior year of the Smith-Hughes Home Economics Curriculum. Eight hours a week. Five quarter hours (one and one-fourth "credits"). Spring quarter, odd years.*
- 30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.
Elective. Eight hours a week. Five quarter hours (one and one-fourth "credits") for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.
32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.
Prerequisite: Chemistry 30, 31. *Eight hours a week. Five quarter hours (one and one-fourth "credits"). Spring quarter.*
33. QUALITATIVE ANALYSIS, Continued.
Prerequisite: Chemistry 30, 31, 32. *Eight hours a week. Five quarter hours (one and one-fourth "credits"). Fall quarter.*
- 34, 35. QUALITATIVE ANALYSIS.
Prerequisite: Chemistry 30, 31, 32. *Eight hours a week. Five quarter hours (one and one-fourth "credits") for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter.*
- 36, 37. ORGANIC CHEMISTRY.
Prerequisite: Chemistry 30, 31, 32. *Eight hours a week. Five quarter hours (one and one-fourth "credits") for each course. Chemistry 36, fall quarter; Chemistry 37, winter quarter, odd years.*
38. FOOD AND PHYSIOLOGICAL CHEMISTRY.
Prerequisite: Chemistry 36, 37. *Eight hours a week. Five quarter hours (one and one-fourth "credits"). Spring quarter, odd years.*

PART III

LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory in the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, by *Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, by *Francis G. Blair, B. S.*
3. The Causal Idea of History, by *Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, by *W. M. Evans, Litt. D.*
5. The School Garden, by *Otis W. Caldwell, Ph. D.*
6. Manual Training, by *Caroline A. Forbes.*
7. The School Library, by *Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, by *E. H. Taylor, B. S.*
9. Reading in the Grades, by *Katharine Gill.*
10. The Relation of the Home and School, by *Charlotte May Slocum.*
11. Bird Study in the Rural School, by *Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), by *Thomas L. Hankinson, B. S.*
13. Physics in the High School, by *Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, by *Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, by *Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, by *Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, by *Isabel McKinney, A. M.*
20. The School Garden II, by *Otis W. Caldwell, Ph. D.*
23. Some Problems in Education, by *John M. Coulter, Ph. D.*
26. Education and Utility, by *W. C. Bagley, Ph. D.*
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), by *Katharine Gill.*
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, by *Alice M. Christiansen.*

37. Views of the Buildings and Grounds.
38. Arguments for Vocational Guidance, by *E. E. Lewis, A. M.*
41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature, by *DeWitt C. Sprague, Ph. B.*
44. Alumni Register, 1900-1913.
46. Material on Geography (which may be obtained free or at small cost), by *Mary Josephine Booth, A. B., B. L. S.*
50. Lists of Material (which may be obtained free or at small cost), by *Mary Josephine Booth, A. B., B. L. S.*
53. Bird Study in the Rural School, by *Thomas L. Hankinson, B. S.*
54. Material on Geography (which may be obtained free or at small cost), Revised Edition, by *Mary Josephine Booth, A. B., B. L. S.*
57. An Outline for the Teaching of Agriculture in the Seventh and Eighth Grades, by *Carl Colvin, B. S.*
58. An Inquiry into the Methods by Which the State Normal Schools Are Controlled, by *Clifford Chesley Hubbard, A. M.*
61. Reading Aloud: War-Time Suggestions, by *John M. Clapp, A. M.*
62. Campus Reflections.
65. New Poetry and the Composition Class, by *Earl R. K. Daniels, A. B.*
66. Training Departments in State Normal Schools in the United States, by *Lester M. Wilson, Ph. D.*
69. Material on Geography (which may be obtained free or at small cost), Second Revised Edition, by *Mary J. Booth, A. B., B. L. S.*
70. Report of the Committee of Fifteen.
73. List of Books for the First Six Grades, by *Mary J. Booth.*
74. Course of Study in English for the First Six Grades, by *Isabel McKinney, A. M.*
77. Alumni Register, 1900-1921.
78. Material on Geography (which may be obtained free or at small cost), Third Revised Edition, by *Mary J. Booth, A. B., B. L. S.*
81. Material on Geography, Second Printing of the Third Revised Edition.
82. Twenty-fifth Anniversary Letter to Alumni.
85. Teaching Children to Read, by *Anna Holden Morse.*
86. Lincoln-Douglas Debate at Charleston, by *S. E. Thomas, A. M.*
89. Trees and Shrubs of the Campus, by *Ernest L. Stover, Ph. D.*

90. The Story of Charleston, A Bulletin by a Tenth Grade English Class.

93. An Analysis of the Student Body for the Year 1925-1926. by *Ralph Haefner*.

94. The Use of Modern Poetry with Children, by *Florence E. Gardiner*.

98. The Training of Teachers at the Eastern Illinois State Teachers College, by *Fiske Allen*.

101. Arithmetic Teachers in the Making, by *E. H. Taylor*.

102. Opportunities for High School Graduates in Public School Teaching in Illinois, by a *Committee of the Illinois Schoolmasters Club*.

105. Thirtieth Anniversary Bulletin, compiled by *Grace Geddes and Anna H. Morse*.

CORRESPONDENCE

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in their schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

STATE OF ILLINOIS
DEPARTMENT OF REGISTRATION AND EDUCATION

THE NORMAL SCHOOL BOARD

EX-OFFICIO MEMBERS

MICHAEL F. WALSH, *Director of Registration and Education,*
Springfield, *Chairman*
FRANCIS G. BLAIR, *Superintendent of Public Instruction,*
Springfield, *Secretary*

APPOINTED MEMBERS

1923-1929

Ernest E. Cole, Chicago

1925-1931

Frank M. Hewitt, Carbondale
N. M. Mason, Oglesby

1927-1933

Edgar B. Still, DeKalb
Mrs. M. K. Northam, Evanston
Charles E. McMorris, Marshall

1930-1936

Mrs. G. W. T. Reynolds, East St. Louis
Harriett A. McIntyre, Mendota
Albert E. Bailey, Macomb

Under the provisions of the Civil Administrative Code for the consolidation of State agencies under the direction of the Governor, the five State Normal Schools of Illinois are controlled by a single board consisting of eleven members: the Director of Registration and Education, who is *ex-officio* chairman, the Superintendent of Public Instruction, who is *ex-officio* secretary, and nine members appointed by the Governor for terms of six years.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

FACULTY, 1929-1930

Livingston C. Lord.....	President
A. M., Harvard University; LL. D., University of Illinois	
Edson H. Taylor.....	Mathematics
A. M., Ph. D., Harvard University	
Friederich Koch	Music
Conservatory of Music, Kassel, Germany

Names of teachers, with the exception of training teachers,
 are printed in the order of their engagement.

* Leave of absence, 1929-1930.

¹ Fall Quarter, 1929.

² Winter and Spring Quarters, 1929-1930.

³ Secretary and Business Manager after January 1, 1930.

⁴ From January 2, 1930.

⁵ Resigned 1929.

PART I
GENERAL INFORMATION

The Eastern Illinois State Teachers College is a TEACHERS COLLEGE, Class A, in the American Association of Teachers Colleges, and a COLLEGE, First List, in the North Central Association of Colleges and Secondary Schools.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickle Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were nineteen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1929, eighty-one students were graduated from the Junior College and twenty-nine from the Senior College.

During the summer of 1901, a six weeks' session was offered for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to

providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building completed in 1929 is used for home economics (Smith-Hughes) and for manual and industrial arts.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and

perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, class rooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains class rooms and a laboratory for high school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For table board, \$5.50 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. This deposit is credited to the student, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, furnishes excellent facilities for students who wish to specialize in manual arts and home economics for grade and high school positions and for the preparation of teachers in these subjects for the Smith-Hughes' Vocational Schools. Shops are provided for practice in all kinds of hand and machine wood-work, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well

lighted and on the first floor of the building. The basement consists of class rooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods class room and teachers' rooms, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 35,500 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room to which all students of the Teachers College and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculums as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest

plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

FEES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

A fee of \$5.00 a quarter for registration and other incidentals is paid by all above the eighth year.

Textbooks are rented to students at a uniform price of \$1.50 a quarter. Students wishing to own the books may buy them at the textbook library.

A student activity fee of \$3.50 a quarter, covering athletics, recreation, and The Teachers College News, is paid by all college students and \$2.50 by high school students.

A fee of \$5.00 a quarter is paid for voice, piano, or other instrument lessons. Students pay for materials they use in art, home economics, and manual arts.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration. An additional fee of \$1.00 is charged if a change in programme is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record, including one carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$7.00 to \$7.50 a week. Students renting rooms and keeping house

can materially reduce this amount. Room without board can be obtained for from \$2.00 to \$3.00 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week, payable quarterly in advance (\$90.00 at the beginning of each quarter). For table board, \$5.50 a week is charged, payable quarterly in advance (\$66.00 at the beginning of each quarter). Students are not required to furnish anything.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the Bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano, voice, or instrument lessons.

LINDLEY SCHOLARSHIPS.—"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards when it is possible four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the years 1927-1930. The receivers of the awards are members of the freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attain-

ments promise distinction in the teaching of English. The award for 1930-1931 goes to Helen Irene Mayfield.

THE TEACHERS COLLEGE HIGH SCHOOL SCHOLARSHIP PRIZE.—The 1927 graduating class of the Teachers College High School established a fund of \$125.00, the interest from which is used each year for a scholarship prize to be given to the member of the graduating class of that year who has maintained the highest standard of scholarship throughout his or her four years in the Teachers College High School.

The third award was made to Louise Katherine Stillions of the high school graduating class of 1930.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of season tickets and single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Cleveland Symphony Orchestra, Flonzaley Quartette, Coburn

Players, Stratford Players, Tony Sarg's Marionettes, Carl Sandburg.

The entertainment course for 1929-30 included Sophie Breslau, contralto; Josef Lhevinne, pianist; Efrem Zimbalist, violinist; Edward Davison, poet-lecturer; the light opera, "Martha," and Charles Crawford Gorst, lecturer on birds.

The Kreutzberg-Georgi dancers were presented in a programme for which a small admission fee was charged.

A Russian male quartette, the Kedroffs, has been engaged for the entertainment course for 1930-31.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." The major production of the year for each is the commencement play. Other programmes are presented during the year if suitable talent is available. The high school organization is called "The Footlights Club."

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.
2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.
3. To encourage familiar acquaintance with the artists of the theatre of all times.
4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—A six-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Mondays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A committee consisting of five members of the faculty and a student from each Teachers College class has charge of student recreations which are not solely class affairs. The latter are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

DOMAFIAN ART CLUB.—The Domafian Art Club is a students' organization for those whose major subject is home economics, manual arts, or fine arts, and for those in other curriculums who are interested in the work of the club. The purpose is to learn more about each special field than can be learned in the class room. Exhibitions, lectures, and visits to studios, museums, and art galleries are a part of the work of the club.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Any one who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of forty-eight students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

THE FORUM.—Is a discussion group of students and faculty members who are especially interested in current economic, political, and social problems. Meetings are held bi-weekly throughout the college year. Active membership is limited to those who have prepared and presented a paper of merit on some related topic.

PHI SIGMA EPSILON.—The Beta Chapter of Delta Lambda Sigma, organized in the winter quarter of 1927-1928, has been incorporated in Phi Sigma Epsilon, a national fraternity for Teachers Colleges.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to cooperate actively with the school in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the

students; and the athletic coach. An athletic fee is charged each college student and each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Inter-collegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The teachers of the Teachers College encourage the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Board of Control was merged with the old Student Council in the fall quarter of the year 1928-1929. The new Student Council was organized as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council now consists of eleven members: four from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice president, secretary, treasurer, and historian.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Mr. Floyd E. Wilson, '20, 2150 Ewing Ave., Evanston, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day with morning exercises at ten o'clock.

The officers for 1930 to 1931 are: Mr. Errett Warner, '25, President and Chairman of the Executive Committee; Mr. William H. Green, '27, Vice-President; Miss Antha Endsley, '12, Secretary and Treasurer.

Executive Committee

Mr. Herbert Maurice Sullivan (term expires in 1931).
Miss Gwendolyn Cleo Jeffries (term expires in 1931).
Mr. Wayne E. Isley (term expires in 1932).
Mr. Bruce Corzine (term expires in 1932).
Mr. Herbert Wayne Cooper (term expires in 1933).
Miss Ruby M. Harris (term expires in 1933).'

Social Committee

Mr. George Rankin (term expires in 1931).
Mr. A. O. Bainbridge (term expires in 1931).
Miss Mary Linder (term expires in 1932).
Mrs. Roscoe Farrar (term expires in 1932).
Miss Leah Todd (term expires in 1933).
Mr. Marsdon Grubb (term expires in 1933).

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

¹ 20 hours in each subject named in certificate.

² Kindergarten-primary training.

³ 5 hours in practice teaching.

⁴ Evidence of successful teaching and professional growth are prerequisite to the renewal of all certificates.

⁵ Renewable once only; not to be issued after July 1, 1931.

⁶ 5 hours in education.

⁷ Life certificate may be obtained by successful examination and preparation of thesis if applicant fails in slight measure to meet hours of training required for exchange of limited certificate.

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College.

The Junior College.

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the district.

A summer quarter of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer quarter of 1931 begins on Saturday, June 6, and closes on Friday, August 28. It consists of two sessions of six weeks each, the first closing Friday, July 17. Students may attend either or both sessions.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the*

Registrar of the Teachers College. This should be done before the date of entering.

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B.Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. A two-year diploma is granted in English and manual arts. Four-year curriculums prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education and not less than one year of college work in Greek, Latin, French, or German.

Students planning to do graduate work at the University of Illinois should see that their records satisfy the foreign language requirement.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than sixteen quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer quarter if he completes the work by that time. It is possible to earn sixteen quarter hours in the summer quarter.

SCHOLARSHIP

I. Grades are expressed in letters as follows:

A, Excellent.....	3 grade points
B, Good.....	2 grade points
C, Fair.....	1 grade point
D, Poor, but passing*...	0 grade points
E, Condition.....	0 grade points
(incomplete work)	
F, Failure.....	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the spring quarter and for the preceding year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

V. The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of twenty quarter hours.

VI. A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

VII. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours in each of two consecutive quarters is dropped from the college.

VIII. No freshman in a four-year curriculum may register for extra work in his first quarter.

No sophomore may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

Eleventh Year

Carrol Byron Herman.

Twelfth Year

Edna Elizabeth Postlewait.

Total—10 receive Honors.

Nineteen receive either High Honors or Honors in the High School.

CURRICULUMS

For graduates of recognized four-year high schools, the following curriculums are offered:

I. Two-year Curriculums, 96 quarter hours each, leading to a diploma:

1. For a preparation of teachers for the grades. This diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year of the work before July 1, 1931, entitles a student to recommendation for a provisional elementary certificate without examination provided his grades satisfy the requirement for admission to practice teaching.
2. For preparation of special teachers of manual arts. This diploma entitles the holder to a special certificate in this subject and to a limited elementary certificate. The completion of the first year of work before July 1, 1931, entitles a student to recommendation for a provisional elementary certificate without examination provided his grades satisfy the requirement for admission to practice teaching.
3. For the preparation of department teachers of English in the upper grades. It is open to students well-prepared in English, especially those who have had some experience in teaching. This diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work before July 1, 1931, entitles him to recommendation for a provisional elementary certificate without examination provided his grades satisfy the requirement for admission to practice teaching.

II. Four-Year Curriculums, 192 quarter hours each, for preparation of the following:

1. Primary Supervisors and Training Teachers.
2. Grammar Grade Teachers, High School Teachers, and Teachers of Special Subjects:
 - A. Art and Design
 - B. English
 - C. Foreign Language
 - D. Geography
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)
 - G. Manual Arts
 - H. Mathematics
 - I. Science (Biological)
 - J. Science (Physical; Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

Instrumental music or voice work may be used for elective credit to the extent of 12 quarter hours (two years' work). No student may count toward graduation more than 12 quarter hours of instrument or voice work.

Credit is allowed for physical education, coaching theory (33, 34, 35, 36, 37, 38), and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, College News, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in physical education, library use, dramatics, College News, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree.

The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 1-19 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the College.

MAJOR AND MINOR SUBJECTS

In four-year curriculums for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, 36, Trigonometry 33, Analytics 34, 35.

In music only public school music may be used as the minor subject, the courses required being Music 32, 33, 34, 35, 36, 37.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by Juniors or Seniors for credit toward the English for minor subject.

ELECTIVES

There are three groups of electives: one for those in the Senior College, numbered 43 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the college. Students should consult the department of the major subject as to choice of electives and of minor subject.

Two years' work in piano, violin, or voice may be used for elective credit (12 quarter hours), but not more than 12 quarter hours in these courses may be offered by a student for credit toward graduation.

Music 32, 33, 34 or Music 35, 36, 37 may be used for elective credit.

DESCRIPTION OF CURRICULUMS

I. TWO-YEAR CURRICULUMS

96 quarter hours

1. FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Geography 20
English 20, 21, 27, or 24 or 22	Reading 24
Arithmetic 20, 21	Drawing 24
Botany 20 or Zoölogy 20	Penmanship 20
	Library 20
	Physical Education

SOPHOMORE YEAR

Education 23, 24	Geography 21 and English 26
Teaching 20, 21, 22	or English 23 and
History (two consecutive courses)	Education 25
Music 24	Hygiene 20
Manual Arts 24, or 25 (or Art 36 or Art 37)	Physical Education

Notes: 1. The completion of the work of the freshman year before July 1, 1931, entitles the student to recommendation for a provisional elementary certificate without examination provided his grades satisfy requirements for admission to practice teaching. The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parentheses; but laboratory sciences have six or eight fifty-minute periods; art, manual arts, and home economics require eight periods a week for full credit.

3. Students who are graduates of the Teachers College High School substitute Botany 22 for Botany 20.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the

opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College.

Electives

The high school curriculum includes ten required and six elective units. One unit of physical science is required. Those who wish to have both physics and chemistry take one in the eleventh year and the other in the twelfth year.

Electives are in two groups. All electives may be chosen from Group I; not more than four units may be chosen from Group II.

Manual Arts (2)

High School Music (1)

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

In the seventh, eighth, and ninth grades, each of the teachers has department work in the three grades. A training teacher for history has charge of that work in grades five to eight inclusive. A training teacher for music has charge of the music in grades one to eight. A training teacher for drawing has charge of the drawing in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two quarters of practice

teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking a four-year curriculum take one quarter of practice teaching in the Elementary Training School in their second year. Two quarters of teaching, one in the major subject and one in the major or minor subject, are required of them in

the Senior College. The College High School is the Training School for those who are preparing to teach in high schools.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

DESCRIPTION OF COURSES

AGRICULTURE

High School

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One-third of a unit. Fall quarter, even years.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One-third of a unit. Winter quarter, even years.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One-third of a unit. Spring quarter, even years.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One-third of a unit. Fall quarter, odd years.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One-third of a unit. Winter quarter, odd years.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One-third of a unit. Spring quarter, odd years.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. One unit Art 1, fall quarter, Art 2, winter quarter, Art 3, spring quarter.

College

20. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the four-year curriculum in art. Five hours a week. Four quarter hours. Fall, winter, or spring quarter.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours. Every quarter.

25. METHOD IN DRAWING, GRADES I-IV. The course includes a discussion of the value of art education; its relation to other subjects and to industries; methods of teaching drawing in the lower grades; the ordering of supplies; the planning of lessons.

Four hours a week. Four quarter hours. Spring quarter.

26. METHOD IN DRAWING, GRADES V-VIII. A study of the subject matter to be taught in the upper grades.

Four hours a week. Four quarter hours. Fall quarter.

27. HISTORY OF ORNAMENT AND OF ARCHITECTURE.

Four hours a week. Four quarter hours. Winter quarter, odd years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours. Winter quarter, even years.

29. ADVANCED PERSPECTIVE.

Four hours a week. Four quarter hours. Spring quarter.

30. REPRESENTATION. Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE.. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours. Fall quarter.

31. POSTER WORK. Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours. Winter quarter.

32. DESIGN I. Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours. Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours. Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours. Winter quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours. Spring quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. Paper work, weaving, woodwork, simple basketry, knotting, clay, and other mediums used in the lower grades.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall quarter.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. More advanced work in woodworking, basketry, clay, and other mediums.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Winter quarter.

38. ART APPRECIATION. The history of ornament, architecture, sculpture, and painting.

Elective (except in the art curriculum) for juniors and seniors; a recommended elective for juniors in the English curriculum. Four hours a week with preparation. Four quarter hours. Fall quarter.

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours. Fall quarter.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. Four quarter hours. Winter quarter.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. Four quarter hours. Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours. Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. Four quarter hours. Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations, and rooms in perspective.

Eight hours a week. Four quarter hours. Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours each a week. Eight quarter hours. Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours. Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. Four quarter hours. Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints.

Eight hours a week. Four quarter hours. Spring quarter.

EDUCATION AND TEACHING.

I. EDUCATION

College

Note: Beginning with the fall quarter, 1928-29, a change was made in the content of the three courses in education required of freshmen and called "Psychology 20, 21, 22." The new courses are now listed as Education 20, 21, 22.

Those who have had the old "Psychology 20" should complete the year's work by taking the new Education 20 and 22. Those who have had the old "Psychology 20, 21" complete the year's work by taking Education 22.

Students who have not had the old "Psychology 20, 21, 22" take the new courses in education listed here as "Education 20, 21, 22."

20. AN INTRODUCTION TO EDUCATION. This course is intended to provide the student with a general view of the more important phases of a teacher's work. The meaning and the interrelation of the following matters form the subject matter of the course: the organization of public education; the teacher's relation to other school officials; school property; the materials of education; methods of using school material; the learning process; qualifications of teachers; the purpose of public education. The succeeding courses in education deal in greater detail with the several topics introduced in this beginning course.

Four hours a week. Four quarter hours. Fall, winter, and summer quarters.

21. AN INTRODUCTION TO EDUCATIONAL PSYCHOLOGY. This course uses the discussion on the learning process of the preceding course as its point of departure and introduces the student to the forms of student behavior by which man adapts himself to the world. The material of the course includes: the physical basis of behavior; the instinctive equipment of man; the emotions; the laws of learning and their economical application; the organization of experiences into percepts and ideas; transfer of training; individual differences; intelligence; the interrelation of various forms of behavior.

Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

22. THE PSYCHOLOGY OF ELEMENTARY SCHOOL SUBJECTS. This course makes an analysis of the material used in elementary education with a view to understanding the learning problems involved. The special psychology of the following subjects is considered: reading, arithmetic, handwriting, spelling, history, geography, nature study, music, drawing. Some attention will be given to the diagnosis of special difficulties in these subjects and the appropriate remedial measures.

Four hours a week. Four quarter hours. Spring and summer quarters.

23 (20). PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching and the school management course which follows.

Four hours a week. Four quarter hours. Every quarter.

24 (21). SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily programme, discipline, and the technique of teaching are discussed.

Four hours a week. Four quarter hours. Every quarter.

25 (24). PRIMARY EDUCATION. The course deals with reading, number, dramatization, story telling, games and other activities belonging to a primary school.

Four hours a week. Four quarter hours. Spring quarter.

26. PRIMARY DRAWING AND HANDWORK. See Art 25 and 36.

27. CHILD PHYSIOLOGY.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. Four quarter hours. Omitted 1930-1931.

28. FOLK GAMES AND PRIMARY MUSIC.

Required in the second year of the curriculum for preparation of primary teachers. Four hours a week. Four quarter hours. Omitted 1930-1931.

40. METHODS IN THE MAJOR SUBJECT.

Prerequisite: Three years of work in the major subject. Required in four-year curriculums. Four hours a week. Four quarter hours. Fall quarter.

41, 42. HIGH SCHOOL PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT. See Teaching 41, 42.

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurements of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Required or elective. Four hours a week. Four quarter hours. Summer quarter and fall quarter, even years.

45. THE PSYCHOLOGY OF SECONDARY EDUCATION. The purpose of this course is to trace the psychological principles which are basic to the teaching of high school subjects. General types of learning are discussed, such as: motor learning, association learning, problem-solving, habit-formation. High school subjects are analyzed and the relations of the general types of learning to particular subjects are pointed out. The general organization of the high school as it is determined by the nature of the adolescent student is touched upon.

Required. Four hours a week. Four quarter hours. Winter quarter.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. *Omitted 1930-1931.*

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various

types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups, such as the mob, the gang, clubs, classes, sects, nations, are studied with reference to their bearing upon education.

Required or elective in the junior year. Four hours a week. Four quarter hours. Spring quarter.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high school principal in organizing and administering schools. School law and finance as well as current educational problems receive attention in this course.

Required or elective in the junior year. Four hours a week. Four quarter hours. Fall quarter, odd years, and summer quarter.

49. PHILOSOPHY OF EDUCATION.

Required or elective in the junior year. Four hours a week. Four quarter hours. Omitted 1930-1931.

58. HISTORY OF INDUSTRIAL EDUCATION.

Required in the junior year of the curriculums in home economics and manual arts. Four hours a week. Four quarter hours. Spring quarter.

II. TEACHING

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curriculums. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours for each course. Fall, winter, and spring quarters.

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

41P, 42P, 43P. PRACTICE TEACHING AND SUPERVISION IN PRIMARY GRADES.

Required in the Senior College in the curriculum for preparation of primary teachers. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. One unit. English 1, fall quarter; English 2, winter quarter; English 3, spring quarter.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. One unit. English 4, fall quarter; English 5, winter quarter; English 6, spring quarter.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, 3, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. One unit. English 7, fall quarter; English 8, winter quarter; English 9, spring quarter.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. One unit. No credit for less than the year's work. English 10, fall quarter; English 11, winter quarter; English 12, spring quarter.

College

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curriculums. Four hours a week. Four quarter hours for each course. Every quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours. Spring and summer quarters.

23. LITERATURE AND STORY-TELLING, GRADES I-IV.

The study of stories suitable for telling to children; practice in selecting, adapting, and telling stories before the class.

Required in the second year of the curriculum for preparation of teachers for primary grades. Four hours a week. Four quarter hours. Spring quarter.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and

accepted for English 25 by students in a four-year curriculum with English as the major subject. Four hours a week. Four quarter hours. Spring and summer quarters.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in all special two-year curriculums and in the four-year curriculum. Four hours a week. Four quarter hours. Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year, of the two-year curriculum and in the two-year English curriculum. Four hours a week. Four quarter hours. Every quarter.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Required in the two-year English curriculum; elective in other curriculums; and alternative with English 22. Four hours a week. Four quarter hours. Spring quarter.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30, to 31. Four hours a week. Eight quarter hours. English 30, fall quarter; English 31, winter quarter.

32. ADVANCED COMPOSITION. An elective course in writing for those interested in this form of art. Essays, stories, plays, and poems may be attempted, according to individual or class decision. It may be substituted for any elective English course.

Prerequisite: English 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Prerequisite: English 30, 31. Four hours a week. Four quarter hours. Spring quarter.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours. Fall quarter.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours. Winter quarter.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours. Spring quarter.

38. JOURNALISM. A study of the present-day news sheet combined with practice writing.

Elective. Two hours a week. Time to be arranged with the instructor. One to four quarter hours, according to the amount of work done. The course continues through the college year.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. English 41, four quarter hours; English 42, four quarter hours. English 41, winter quarter; English 42, spring quarter.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curriculums. Four hours a week. Four quarter hours. Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research, and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curriculums. Four hours a week. Four quarter hours. Winter quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curriculums. Four hours a week. Four quarter hours. Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art.

Required in the English curriculum; elective in others. Four hours a week. English 46, four quarter hours; English 47, four quarter hours; English 48, four quarter hours. Fall, winter, and spring quarters.

49, 50. MODERN ENGLISH PROSE. The development of English prose in types other than the novel, chiefly the essay and the short story.

Four hours a week. Eight quarter hours. Fall and winter quarters.

51. HISTORY OF THE ENGLISH LANGUAGE AND ADVANCED GRAMMAR.

Four hours a week. Four quarter hours. Spring quarter.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. *The Phonetic Chardenal*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. One unit. French 1, fall quarter; French 2, winter quarter; French 3, spring quarter.

4, 5, 6. SECOND YEAR FRENCH. *The Phonetic Chardenal. L'Abbe Constantin. Le Voyage de M. Perrichon. Colomba*. Sight reading; conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. One unit. French 4, fall quarter; French 5, winter quarter; French 6, spring quarter.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter.

33, 34, 35. **ADVANCED FRENCH.** Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Twelve quarter hours. French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

36, 37, 38. **ADVANCED FRENCH.** Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: One year of college French. Elective. Four hours a week. Twelve quarter hours. French 36, fall quarter; French 37, winter quarter; French 38, spring quarter.

GERMAN

College

30, 31, 32. **FIRST YEAR GERMAN.**

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. **SECOND YEAR GERMAN.** Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours.

36, 37, 38. **THIRD YEAR GERMAN.** Longer and more advanced German stories and a few plays by standard authors. German 38 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. Omitted 1930-1931.

LATIN

High School

1, 2, 3. **FIRST YEAR LATIN.** A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. Elective. Five hours a week. One unit. Latin 1, fall quarter; Latin 2, winter quarter; Latin 3, spring quarter.

4, 5, 6. **SECOND YEAR LATIN.** Caesar, Books I-IV with selections from the other books. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. One unit. Latin 4, fall quarter; Latin 5, winter quarter; Latin 6, spring quarter.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. One unit. Fall, winter, and spring quarters, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. One unit. Fall, winter, and spring quarters, odd years.

College

30. LIVY, SELECTIONS FROM BOOKS I, XXI, AND XXII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, odd years.

31. CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Course 30. Four hours a week. Four quarter hours. Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Course 31. Four hours a week. Four quarter hours. Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Course 33. Four hours a week. Four quarter hours. Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Course 34. Four hours a week. Four quarter hours. Spring quarter, even years.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN LATIN.

Prerequisite: Latin 40. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. OVID, METAMORPHOSES.

Four hours a week. Four quarter hours. Fall quarter, even years.

44. PLINY, LETTERS.

Four hours a week. Four quarter hours. Winter quarter, even years.

45. LATIN WRITING.

Four hours a week. Four quarter hours. Spring quarter, even years.

46. TACITUS, GERMANIA, AGRICOLA, AND SELECTIONS FROM THE ANNALS AND HISTORIES.

Four hours a week. Four quarter hours. Fall quarter, odd years.

47. LATIN POETRY. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. Four quarter hours. Winter quarter, odd years.

48. LATIN DRAMA. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. Four quarter hours. Spring quarter, odd years.

GEOGRAPHY

High School

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2. PHYSIOGRAPHY AND COMMERCIAL GEOGRAPHY. The first half of this quarter's work is a continuation of Geography I. The second half begins the work in Commercial Geography.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Winter quarter.

3. COMMERCIAL GEOGRAPHY, continued.

Prerequisite: Course 2. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

20. PRINCIPLES OF HUMAN GEOGRAPHY.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in the two-year English curriculum. Elective for all others. Four hours a week. Four quarter hours. Every quarter.

21. CLIMATOLOGY. A study of climate and its influence upon form and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in the two-year English curriculum. Elective for others. Four hours a week. Four quarter hours. Every quarter.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. Four quarter hours. Fall quarter.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Courses 20 and 21, or Courses 1, 2, and 3. Elective. Four hours a week. Four quarter hours. Winter quarter.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Elective. Four hours a week. Four quarter hours. Spring quarter.

36. GEOLOGY.

Prerequisite: Courses 20 and 21, or 1, 2, and 3. Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING OF GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. PHYSIOGRAPHY.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Fall quarter.

44. TRANSPORTATION.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Winter quarter.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Spring quarter, odd years.

46. URBAN GEOGRAPHY.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Spring quarter, even years.

HISTORY, SOCIOLOGY, GOVERNMENT, AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

2. THE GREEKS AND GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN INVASIONS.

Elective in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

4. THE HISTORY OF ENGLAND TO 1400.

Required in the eleventh year. Five hours a week. One-third of a unit. Fall quarter.

5. THE HISTORY OF ENGLAND, 1400-1715.

Required in the eleventh year. Five hours a week. One-third of a unit. Winter quarter.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1715 TO THE PRESENT.

Required in the eleventh year. Five hours a week. One-third of a unit. Spring quarter.

7. AMERICAN HISTORY TO 1800.

Elective in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

8. THE HISTORY OF THE UNITED STATES, 1800-1865.

Elective in the twelfth year. Five hours a week. One-third of a unit. Winter quarter.

9. THE HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Elective in the twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

The history requirement in the Junior College may be fulfilled by selecting any two consecutive terms of either European or American history or Ancient history.

30. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours. Fall quarter.

31. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours. Winter quarter.

32. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1800.

Four hours a week. Four quarter hours. Fall quarter.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES 1800-1865.

Four hours a week. Four quarter hours. Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

36. GOVERNMENT AND ILLINOIS HISTORY.

Four hours a week. Four quarter hours. Summer quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours. Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours. Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required. Five hours a week. Four quarter hours. Course 41, winter quarter; Course 42, spring quarter.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours. Fall, winter, and spring quarters.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Twelve quarter hours. Summer quarter (Course 43).

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-sixth of a unit. First half of the winter quarter.

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours. Fall quarter, even years.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours. Winter quarter, even years.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. Four quarter hours. Spring quarter, even years.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter quarter and Economics 2, spring quarter complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One-half unit. Economics 1a, second half of the winter quarter; Economics 2, spring quarter.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the two-year curriculum in Manual Arts. Four hours a week. Four quarter hours. Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours. Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours. Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours. Spring quarter.

HOME ECONOMICS

High School

I. DOMESTIC ART

4. ELEMENTARY TEXTILE STUDY. Discussion of materials as to cost, widths, wearing qualities, and adaptation to various

garments. Pattern drafting, making of simple cotton garments. Use of sewing machine. Pressing and folding of garments.

Elective. Ten hours a week. One-third of a unit. Fall quarter, odd years.

5. SEWING. Study of commercial pattern, testing and altering. Making of garments requiring fine handsewing and machine sewing. Care and repair of clothing.

Prerequisite: Domestic Art 4. Elective. Ten hours a week. One-third of a unit. Winter quarter, odd years.

6. CLOTHING SELECTION. Study of clothing budget. Elementary costume design and principles of clothing selection. Planning the high school girl's wardrobe. Making of simple dresses of cotton, wool, and silk.

Prerequisite: Domestic Art 5. Elective. Ten hours a week. One-third of a unit. Spring quarter, odd years.

II. DOMESTIC SCIENCE.

4. FOOD STUDY. Preservation of foods. Classification, selection, and preparation of foods. Classification and study of cooking processes.

Elective. Ten hours a week. One-third of a unit. Fall quarter, even years.

5. FOODS. Principles involved in preparation of all classes of foods. Experiments. Food study continued.

Prerequisite: Domestic Science 4. Elective. Ten hours a week. One-third of a unit. Winter quarter, even years.

6. THE PREPARATION AND SERVING OF MEALS. Marketing. Menu planning. Study of the cost of meals and of the food budget. Meal planning and table service.

Prerequisite: Domestic Science 5. Elective. Ten hours a week. One-third of a unit. Spring quarter, even years.

College

Note: The four-year curriculum in home economics (See Curriculum II. 2 F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. DOMESTIC ART

30. TEXTILES.

Prerequisite: Art 30, 31, 32 unless the student is taking Art 30, 31, 32. Eight hours a week. Four quarter hours. Summer and fall quarters.

31. CLOTHING. I.

Prerequisite: Course 30. Eight hours a week. Four quarter hours. Winter quarter.

32. GARMENT MAKING.

Prerequisite: Course 31. Eight hours a week. Four quarter hours. Spring quarter.

33. COSTUME DESIGN.

Prerequisite: Course 32. Eight hours a week. Four quarter hours. Fall quarter, even years.

34. CLOTHING. II.

Prerequisite: Course 33. Eight hours a week. Four quarter hours. Winter quarter, even years.

35. ADVANCED DRESSMAKING AND MILLINERY.

Prerequisite: Course 34. Eight hours a week. Four quarter hours. Spring quarter, even years.

II. DOMESTIC SCIENCE

30. FOOD STUDY.

Prerequisite: Chemistry 30, 31, 32 unless the student is taking Chemistry 30. Eight hours a week. Four quarter hours. Fall quarter.

31. FOODS I.

Prerequisite: Course 30. Eight hours a week. Four quarter hours. Winter quarter.

32. FOODS II.

Prerequisite: Course 31. Eight hours a week. Four quarter hours. Spring quarter.

33. EXPERIMENTAL COOKING.

Prerequisite: Course 32. Eight hours a week. Four quarter hours. Fall quarter, odd years.

34. DIETETICS.

Prerequisite: Course 33 and Chemistry 23, 24, 25 unless the student is registered for Chemistry 23, 24, 25. Eight hours a week. Four quarter hours. Winter quarter, odd years.

35. MEAL PLANNING AND TABLE SERVICE.

Prerequisite: Course 33. Eight hours a week. Four quarter hours. Spring quarter, odd years.

III. HOME ECONOMICS

20. PRACTICE TEACHING IN HOME ECONOMICS.

Required in the sophomore year of the Smith-Hughes curriculum in home economics. Five hours a week. Four quarter hours. Fall quarter.

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Senior standing in the home economics curriculum. Four hours a week. Four quarter hours. Spring quarter, senior year.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL HOME ECONOMICS.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and Spring quarters, senior year.

43. HOUSEHOLD PHYSICS. See Manual Arts 39.

Prerequisite: Junior standing in the home economics curriculum. Eight hours a week. Four quarter hours. Fall quarter.

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours. Winter quarter.

45. HOUSEHOLD MANAGEMENT.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Four quarters hours. Fall quarter.

46. HOME NURSING AND CHILD CARE.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Four quarter hours. Spring quarter.

47. INDUSTRIAL HISTORY. See Manual Arts 58.

Prerequisite: Junior standing in the home economics or manual arts curriculum. Four hours a week. Four quarter hours. Spring quarter.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall quarter, every year, and winter quarter, odd years.

20. THE USE OF THE LIBRARY.

Freshmen who have completed Library XI are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

2. MECHANICAL DRAWING. A continuation of Manual Arts 1. Seven plates are considered a quarter's work. Two and three view working drawings are the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

3. MECHANICAL DRAWING. Eight plates are required this quarter. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools is given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

6. BENCH METAL WORK. The elements of sheet metal work are taken up in this course. Pupils make several sheet metal problems. Mild steel or wrought iron articles also are made.

Elective. Five hours a week. One-sixth of a unit. Spring quarter.

7. MACHINE WOODWORK. Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Course 3 and Course 6. Elective. Ten hours a week. One-third of a unit. Fall quarter.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Course 7. Elective. Ten hours a week. One-third of a unit. Winter quarter.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter quarter is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Course 7. Elective. Ten hours a week. One-third of a unit. Spring quarter.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20, 21, 22. PRACTICE TEACHING IN MANUAL ARTS.

Required in the sophomore year in the curriculums in Manual Arts. Five hours a week. Twelve quarter hours.

23. THE TEACHING OF MANUAL ARTS.

Required in the curriculums in Manual Arts. Four hours a week. Four quarter hours. Winter quarter.

24. PRIMARY GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Manual Arts 25 Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours. Spring and summer quarters.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Manual Arts 24 or Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours. Fall and summer quarters.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Manual Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. Two quarter hours. Every quarter.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Two quarter hours for each course. Every quarter.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Four hours a week. Two quarter hours. Every quarter.

34. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33. Four hours a week. Two quarter hours. Every quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Course 34. Four hours a week. Two quarter hours. Spring quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. Eight quarter hours for the two courses. Winter, spring, and summer quarters.

39. HOUSEHOLD MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists in the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers.

Required of all students whose major subject is Manual Arts and accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. Four quarter hours. Fall and summer quarters.

40. THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS. See Manual Arts 23.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS. See Manual Arts 21, 22.

43. SHEET METAL WORK.

Eight hours a week. Four quarter hours. Fall quarter.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. Four quarter hours. Spring quarter.

46. PATTERN MAKING.

Eight hours a week. Four quarter hours. Fall quarter.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. Four quarter hours. Fall and winter quarters.

48. MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. Four hours. Winter and spring quarters.

54. ADVANCED MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

55, 56. CARPENTRY.

Eight hours a week. Eight quarter hours for two courses. Carpentry 55, winter quarter; Carpentry 56, spring quarter.

57. AUTOMOBILE REPAIRS II.

Eight hours a week. Four quarter hours. Spring quarter.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours. Spring quarter.

59, 60, 61. PRINTING I, II AND III.

Eight hours a week. Four quarter hours for each course. Printing I, every quarter; Printing II, winter and spring quarters; Printing III, spring quarter.

MATHEMATICS

High School

1. ALGEBRA I. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One-third of a unit. Fall quarter.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One-third of a unit. Winter quarter.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One-third of a unit. Spring quarter.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

5. GEOMETRY 2. Chapters V, VI, VII, and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

7. SOLID GEOMETRY 4a, 5. Chapters XII, XVI. Solid Geometry is begun in the second half of Mathematics 9 (Algebra 5a; Geometry 4a). The year's work (Algebra 4, 5a; Geometry 4a, 5) gives credit for one-half of a unit each in algebra and solid geometry.

Prerequisite: Geometry 3 and Algebra 5a. Five hours a week. One-half of a unit. Winter quarter, second half (Geometry 4a) and spring quarter (Geometry 5).

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One-third of a unit. Fall quarter.

9. ALGEBRA 5a; GEOMETRY 4a. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability. In the second half of this quarter, Solid Geometry is begun. See Mathematics 7 (Geometry 4a, 5).

Prerequisite: Algebra 4. Elective. Five hours a week. One-third of a unit. Winter quarter.

College

20. **ARITHMETIC.** This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Every quarter.

21. **ARITHMETIC.** The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the classroom instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

28. **COLLEGE GEOMETRY.** The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Prerequisite: One year of high school algebra and plane geometry. Required of those whose major subject is mathematics and who have had solid geometry in high school. Four hours a week. Four quarter hours. Spring quarter.

29. **DESCRIPTIVE GEOMETRY.** The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students take Manual Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two quarters. Four quarter hours, for Manual Arts 30, 31. Every quarter.

30. **SOLID GEOMETRY.** Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Geometry 28. Those who have not had Geometry 30

take Geometry 30, Arithmetic 20, and Geometry 28 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours. Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours. Fall and summer quarters.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Four hours a week. Four quarter hours. Winter quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Course 34. Four hours a week. Four quarter hours. Spring quarter.

36. ALGEBRA. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Twelve quarter

hours. Course 43, fall quarter; Course 44, winter quarter; Course 45, Spring quarter.

MUSIC

Musical Organizations

THE COLLEGE CHORUS. This chorus is composed of one hundred fifty or two hundred students who meet at half past nine on Wednesdays to learn something about correct singing habits and to study choral numbers for a concert.

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the College year, College men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMAN'S GLEE CLUB. This club is open to all College women. There is one rehearsal a week. The club gives an annual concert.

THE COLLEGE ORCHESTRA. The orchestra consists of eighteen or twenty pieces. It rehearses once a week and plays at morning exercises occasionally as well as at other public gatherings.

THE BAND. The band is open to all students who show sufficient ability on any band instrument. The band owns instruments available for student use. Application to play one of these should be made in writing to the director of the band. The student should state what instrument he plays, how long he has played, and with what organizations.

Class Instruction in Music

VIOLIN, CLARINET, CORNET. These classes are open to beginners only and meet twice a week for one period with one quarter hour credit for each quarter. The time is arranged by the class and instructor. Lessons are free of charge. Instruments may be rented. Enrollment is limited to fifteen pupils in each class.

VOICE. This class meets four times a week. The purpose is to give free instruction without credit in the correct use of the speaking and singing voice, including breath control, relaxation, enunciation, and the development of resonance.

High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about

fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes' preparation.

Elective in the tenth, eleventh, or twelfth years. Five hours a week. One unit. No credit for less than the whole year's work.

Notes.—1. The high school girls' glee club is composed of 20 girls, chosen from the high school, who meet twice a week.

2. Chorus, twice a week, is required in the ninth year.

Public School Music

20, 21, 22. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Twelve quarter hours. Fall, winter, and spring quarters.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours. Fall, winter, and summer quarters.

32. SIGHT SINGING. Sight singing of one- and two-part songs in both modes using intermediate tones and fairly complicated rhythmic combinations.

Required in the first year of the two-year curriculum in public school music and substituted for Music 24 by those who have had the equivalent of Music 24. Four hours a week. Four quarter hours. Fall quarter.

33. SIGHT SINGING AND ELEMENTARY THEORY. Two, three, and four-part singing. Major, minor, and chromatic scales with some original composition.

Prerequisite: Music 32 (or the equivalent). Four hours a week. Four quarter hours. Winter quarter.

34. PRIMARY MUSIC METHODS. The teaching of rote songs. How to help monotones. The development and care of the child

voice. Repertoire of children's songs. The work of the first three grades is studied intensively.

Prerequisite: Music 33 or the equivalent. Four hours a week. Four quarter hours. Spring and summer quarters.

35. UPPER GRADE METHODS. Methods of teaching sight singing, music appreciation, and original composition in grades four to eight inclusive.

Prerequisite: Music 34. Four hours a week. Four quarter hours. Fall and summer quarters.

36. ELEMENTARY HARMONY. This course includes a review of scales. Intervals; triads; simple four-part writing.

Prerequisite: Music 33. Four hours a week. Four quarter hours. Winter quarter.

37. MUSIC APPRECIATION. The course aims to acquaint the student with some of the best music—piano, vocal, and orchestral. It is organized around the study of the varying forms into which musical compositions are cast—from the folk songs to the symphony. While some knowledge of music is an advantage to members of the class, such knowledge is not a prerequisite.

Four hours a week. Four quarter hours. Spring quarter.

INSTRUMENTAL MUSIC.

I. PIANO

In piano instruction, two or three students are assigned to each fifty minute period.

Elective credit in instrumental music to the extent of twelve quarter hours may be used toward graduation.

College

30, 31, 32. PIANO, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

43, 44, 45. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

46, 47, 48. PIANO, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

II. VIOLIN

College

30, 31, 32. VIOLIN, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

33, 34, 35. VIOLIN, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

VOICE TRAINING

Elective credit in voice training to the extent of twelve quarter hours may be used for credit toward graduation.

College

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

43, 44, 45. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

46, 47, 48. VOICE TRAINING, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Four hours a week. One quarter hour. Every quarter.

24. This course gives a more extended study of penmanship and methods of teaching it in the grades.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required in the first year. Two hours a week. Every quarter.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required in the second year. Two hours a week. Every quarter.

College

Note: Credit earned in physical education or in Coaching 33, 34, 35; 36, 37, 38 is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

First Year's Work. See above.

One quarter hour for each quarter's work, but not counted toward graduation total.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

36, 37, 38. ATHLETIC COACHING. Second Year.

Elective. One quarter hour for each quarter's work to which one hour a week is given. Fall, winter, and spring quarters.

41, 42, 43, 44. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Coaching 41; basketball, Coaching 42; baseball, Coaching 43; track, Coaching 44.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and senior classification. Registration for one of these courses is made only upon the written recommendation of the director of physical education and the written consent of the teacher of the student's major subject if it is to be substituted for practice teaching in the major subject. One or more of these courses may be used for elective credit.

Elective. Ten hours a week. Four quarter hours for each of the courses.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week for two years, is required both in the high school and in the college. A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

Note: Credit earned in these courses is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Hockey and archery are offered in the fall and spring quarters; gymnastics and individual work in the winter quarter. College students may take folk dancing or clog dancing in the winter quarter instead of gymnastics.

HOCKEY I. Lectures on playing, coaching, and refereeing the game and practice in playing. At the end of the spring quarter there is an interclass tournament. Only students who are physically fit are admitted to this course.

Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

HOCKEY II. Lectures and practice in refereeing and coaching as well as in playing the game.

Prerequisite: Hockey I. Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

ARCHERY. Lectures and practice in target shooting. Students who are not physically fit to do regular work take this course. At the end of the spring quarter there is an interclass tournament.

Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

GYMNASTICS I. Marching, floor work, and apparatus work. For apparatus work, the class is divided into squads, and each squad elects a leader to direct its activities.

Students who took archery in the fall quarter take a restricted type of gymnastics in the winter quarter.

Two hours a week. One quarter hour for each quarter's work. Winter quarter.

GYMNASTICS II.

Prerequisite: Gymnastics I. Two hours a week. One quarter hour. Winter quarter.

FOLK DANCING. Folk dances, singing games, and rhythm plays are taught for use in the grades and high school. College

students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour. Winter quarter.

CLOG DANCING. Clog and character dances are taught for use in the upper grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour. Winter quarter.

INDIVIDUAL WORK. This course deals with the correction of abnormal conditions such as faults of posture, lateral curvature of the spine, round shoulders, ptosis, weak and flat feet.

Two hours a week. One quarter hour for each quarter's work. Winter quarter.

READING

College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours. Every quarter.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two-thirds of a unit. Winter and spring quarters.

College

20. HYGIENE AND SANITATION.

Required in all curriculums. Four hours a week. Four quarter hours. Every quarter.

30. **ELEMENTARY PHYSIOLOGY.** The fundamental principles of animal physiology, including the chemical and physical structure of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and

ymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

31. **ELEMENTARY PHYSIOLOGY.** A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 30. Elective. Six hours a week. Four quarter hours. Summer quarter, even years.

32. **ELEMENTARY PHYSIOLOGY.** A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 30. Elective. Six hours a week. Four quarter hours. Summer quarter, odd years.

II. BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four years' work are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as numerous specimens of the other groups of plants.

High School

1, 2, 3. **GENERAL BOTANY.** This is a course in general botany for high school students. It is organized in such a way that the students may obtain exact information about the life processes of plants that may be applied to plant culture. Students have the opportunity of learning to know a large number of plants at sight, and to understand something of their physical and chemical structure.

Required in the tenth year unless Zoölogy 1, 2, 3 is substituted. Five sixty-minute periods a week. One unit. Botany 1, fall quarter; Botany 2, winter quarter; Botany 3, spring quarter.

Note: Students who had Botany 1, 2, 3 in the Teachers College High School should take Botany 30, 31, 22, instead of Botany 20, 21, 22.

College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment factors on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 20 or Botany 21 or 22 is taken. Elective in other curriculums. Six hours a week. Four quarter hours. Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Winter quarter.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with this a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours. Spring quarter.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems, the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. Four quarter hours. Spring quarter.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

32. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30 or the equivalent. Elective. Six hours a week. Four quarter hours. Spring quarter.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in biological science unless Zoölogy 40 is substituted. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in biological science unless Zoölogy 41, 42 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. ADVANCED BOTANY. These courses are arranged to meet the needs of individual students who have had five quarters (twenty quarter hours), or the equivalent, of botany, and who wish to go on in some special field. The student may choose the field in which he wishes to work, but is required to consult the instructor before registering for any of these courses.

Prerequisite: Botany 20, 21, 22, 30, and 32 or the equivalent of these five courses; and permission of the instructor. Six hours a week (to be arranged with the instructor). Four quarter hours for each quarter's work.

III. ZOÖLOGY

High School

1. ELEMENTARY INVERTEBRATE ZOÖLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Fall quarter.

2. ELEMENTARY VERTEBRATE ZOÖLOGY. Classes of vertebrates are studied somewhat in detail, but special attention is given to

fishes, birds and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Winter quarter.

3. FIELD ZOÖLOGY. Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Spring quarter.

College

20. ANIMAL BIOLOGY. A consideration of fundamental biological laws, based upon animal material.

Required in the two-year curriculum, unless Botany 20 or 22 is taken. Six hours a week. Four quarter hours. Every quarter.

20, 21, 22. ELEMENTARY ZOÖLOGY.

Elective. Six hours a week. Twelve quarter hours. Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter.

30, 31, 32. ADVANCED ZOÖLOGY AND SPECIAL METHODS. A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarizing students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter, even years.

33, 34, 35. ADVANCED ZOÖLOGY. A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours. Course 33, fall quarter; Course 34, winter quarter; Course 35, spring quarter, odd years.

40. METHOD IN HIGH SCHOOL ZOÖLOGY. The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in biological science unless Botany 40 is substituted. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in biological science unless Botany 41, 42 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. ADVANCED ZOÖLOGY. This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investigations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisite: Two years of work in zoölogy or biology, and permission of the instructor. Six hours a week (to be arranged with the instructor). Four quarter hours for each quarter's work. Course 43, fall quarter; Course 44, winter quarter; Course 45, spring quarter.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. One-third of a unit. Fall quarter.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology, Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Physics 1, mechanics and heat; Physics 2, magnetism and electricity; Physics 3, sound and light.

Prerequisite: Geometry 1, 2, 3. Required or elective in the twelfth year. Seven hours a week. One unit. Course 1, fall quarter; Course 2, winter quarter; Course 3, spring quarter.

College

20, 21. COLLEGE PHYSICS FOR MANUAL ARTS STUDENTS. The topics studied in Physics 20 are mechanics and heat; in Physics 21, magnetism and electricity. These courses include the same essential principles as Physics 30, 31, but with the difference that where it is possible the applications and problems as well as the laboratory work are related to manual arts.

Required in manual arts curriculums. Six hours a week. Four quarter hours for Physics 20; four quarter hours for Physics 21. Physics 20, fall quarter; Physics 21, winter quarter.

30, 31, 32. FIRST YEAR OF COLLEGE PHYSICS. Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

Seven hours a week. Four quarter hours for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

33, 34, 35. SECOND YEAR OF COLLEGE PHYSICS. Physics 33, mechanics and heat; Physics 34, light and sound; Physics 35, magnetism and electricity.

Prerequisite: Physics 30, 31, 32. Four hours a week. Four quarter hours for each course. Physics 33, fall quarter; Physics 34, winter quarter; Physics 35, spring quarter.

36, 37, 38. THIRD YEAR OF COLLEGE PHYSICS. Physics 36, mechanics and heat; Physics 37, light and sound; Physics 38, magnetism and electricity.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours for each course. Physics 36, fall quarter; Physics 37, winter quarter; Physics 38, spring quarter.

39. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 21 or 31. Eight hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN PHYSICAL SCIENCE.

Required in the senior year in the four-year curriculum in physical science. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. One unit. Chemistry 1, fall quarter; Chemistry 2, winter quarter; Chemistry 3, spring quarter.

College

23, 24. ORGANIC CHEMISTRY. See Chemistry 36, 37.

Prerequisite: Chemistry 30, 31, 32. Required in the junior or senior year of the Smith-Hughes Home Economics curriculum. Eight hours a week. Five quarter hours for each course. Fall and winter quarters, odd years.

25. FOOD AND PHYSIOLOGICAL CHEMISTRY. See Chemistry 38.

Prerequisite: Chemistry 36, 37. Required in the junior or senior year of the Smith-Hughes Home Economics curriculum. Eight hours a week. Five quarter hours. Spring quarter, odd years.

30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.

Elective. Eight hours a week. Five quarter hours for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.

32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31. Eight hours a week. Five quarter hours. Spring quarter.

33. QUALITATIVE ANALYSIS, Continued.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. Five quarter hours. Fall quarter, even years.

34, 35. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. Five quarter hours for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter, even years.

36, 37. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. Five quarter hours for each course. Chemistry 36, fall quarter; Chemistry 37, winter quarter, odd years.

38. FOOD AND PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 36, 37. Eight hours a week. Five quarter hours. Spring quarter, odd years.

PART III

LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, *by Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, *by Francis G. Blair, B. S.*
3. The Causal Idea of History, *by Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, *by W. M. Evans, Litt. D.*
5. The School Garden, *by Otis W. Caldwell, Ph. D.*
6. Manual Training, *by Caroline A. Forbes.*
7. The School Library, *by Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, *by E. H. Taylor, B. S.*
9. Reading in the Grades, *by Katharine Gill.*
10. The Relation of the Home and School, *by Charlotte May Slocum.*
11. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), *by Thomas L. Hankinson, B. S.*
13. Physics in the High School, *by Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, *by Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, *by Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, *by Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, *by Isabel McKinney, A. M.*
20. The School Garden II, *by Otis W. Caldwell, Ph. D.*
23. Some Problems in Education, *by John M. Coulter, Ph. D.*
26. Education and Utility, *by W. C. Bagley, Ph. D.*
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), *by Katharine Gill.*
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, *by Alice M. Christiansen.*

37. Views of the Buildings and Grounds.
38. Arguments for Vocational Guidance, *by E. E. Lewis, A. M.*
41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature, *by DeWitt C. Sprague, Ph. B.*
44. Alumni Register, 1900-1913.
46. Material on Geography (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
50. Lists of Material (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
53. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
54. Material on Geography (which may be obtained free or at small cost), Revised Edition, *by Mary Josephine Booth, A. B., B. L. S.*
57. An Outline for the Teaching of Agriculture in the Seventh and Eighth Grades, *by Carl Colvin, B. S.*
58. An Inquiry into the Methods by Which the State Normal Schools Are Controlled, *by Clifford Chesley Hubbard, A. M.*
61. Reading Aloud: War-Time Suggestions, *by John M. Clapp, A. M.*
62. Campus Reflections.
65. New Poetry and the Composition Class, *by Earl R. K. Daniels, A. B.*
66. Training Departments in State Normal Schools in the United States, *by Lester M. Wilson, Ph. D.*
69. Material on Geography (which may be obtained free or at small cost), Second Revised Edition, *by Mary J. Booth, A. B., B. L. S.*
70. Report of the Committee of Fifteen.
73. List of Books for the First Six Grades, *by Mary J. Booth.*
74. Course of Study in English for the First Six Grades, *by Isabel McKinney, A. M.*
77. Alumni Register, 1900-1921.
78. Material on Geography (which may be obtained free or at small cost), Third Revised Edition, *by Mary J. Booth, A. B., B. L. S.*
81. Material on Geography, Second Printing of the Third Revised Edition.
82. Twenty-fifth Anniversary Letter to Alumni.
85. Teaching Children to Read, *by Anna Holden Morse.*
86. Lincoln-Douglas Debate at Charleston, *by S. E. Thomas, A. M.*
89. Trees and Shrubs of the Campus, *by Ernest L. Stover, Ph. D.*

90. The Story of Charleston, A Bulletin by a Tenth Grade English Class.

93. An Analysis of the Student Body for the Year 1925-1926, *by Ralph Haefner.*

94. The Use of Modern Poetry with Children, *by Florence E. Gardiner.*

97. Second Printing of Bulletin No. 94.

98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*

101. Arithmetic Teachers in the Making, *by E. H. Taylor.*

102. Opportunities for High School Graduates in Public School Teaching in Illinois, *by a Committee of the Illinois Schoolmasters Club.*

105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*

106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*
